*The People of the State of Michigan enact:*

Sec. 10121. (1) As used in this section:

(a) “Advance health care directive” means a power of attorney for health care or a record signed or authorized by a prospective donor containing the prospective donor’s direction concerning a health care decision for the prospective donor. Advance health care directive includes a durable power of attorney under the uniform power of attorney act and a designation of patient advocate under part 5 of article V of the estates and protected individuals code, 1998 PA 386, MCL 700.5506 to 700.5520.

(b) “Declaration” means a record signed by a prospective donor specifying the circumstances under which a life support system may be withheld or withdrawn from the prospective donor.

(c) “Health care decision” means any decision regarding the health care of the prospective donor.

(2) If a prospective donor has a declaration or advance health care directive or is enrolled in a hospice program, and the terms of the declaration, directive, or enrollment and the express or implied terms of a potential anatomical gift are in conflict with regard to the administration of measures necessary to ensure the medical suitability of a body part for transplantation or therapy, the prospective donor’s attending physician, the prospective donor, and, if appropriate, the hospice medical director shall confer to resolve the conflict. If the

prospective donor is incapable of resolving the conflict, an agent acting under the prospective donor's declaration, directive, or hospice enrollment, or, if there is no agent or the agent is not reasonably available, another person authorized by law other than this part to make health care decisions on behalf of the prospective donor, shall act for the donor to resolve the conflict. The authorized parties shall attempt to resolve the conflict as expeditiously as possible. Authorized parties may obtain information relevant to the resolution of the conflict from the appropriate procurement organization and any other person authorized to make an anatomical gift for the prospective donor under section 10109. Before resolution of the conflict, measures necessary to ensure the medical suitability of the body part are permissible if they are not contraindicated by appropriate end-of-life care as determined by the stated wishes of the prospective donor, by a written advance health care directive, or, if appropriate, by the hospice medical director.

(2) The department may by contract delegate the creation, operation, and maintenance of a peace of mind registry to a peace of mind registry organization contingent on the peace of mind registry organization incurring all of the cost related to design, maintain, and operate the registry.

(3) Both of the following conditions apply to a directive:

(a) A directive may be submittable through the United States mail, or through uploaded portable document format (PDF) or another secure electronic format as determined by the department.

(8) Information in the peace of mind registry must not be accessed or used for any purpose unrelated to decision making for health care or disposition of human remains, except that the information may be used solely by the department or its designee for statistical or analytical purposes if the individual's identity is not revealed and all personal identifying information remains confidential.

(9) The department or its designee shall provide both of the following to an individual who files a directive with the peace of mind registry to be stored in the registry:

(b) An electronic mail message or postcard indicating confirmation of the registration of a directive.

(10) By January 31 of each year, the department or peace of mind organization, as applicable, shall report to the standing committees of the house of representatives and senate on health policy stating the total number of current and new registrants who have submitted directives during the preceding calendar year.

(11) The department may promulgate rules under the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, to provide for the implementation and administration of this section.

(12) A peace of mind registry organization, with which the department has contracted under subsection (2), and its employees are immune from civil liability arising from the accuracy or content of the registry, except for willful negligence or gross negligence.

(13) A directive that was filed with and stored in the peace of mind registry is not considered to be of greater legal weight or validity solely by virtue of that filing and storage.
