(7) Notwithstanding any other provision of this act to the contrary that would limit a distributee's election under this act, a distributee may elect, at the time and in the manner prescribed by the retirement board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover. This subsection applies to distributions made on or after January 1, 1993.

(8) Notwithstanding any other provision of this act, the compensation of a member of the retirement system shall be taken into account for any year under the retirement system only to the extent that it does not exceed the compensation limit established in section 401(a)(17) of the internal revenue code, 26 USC 401, as adjusted by the commissioner of internal revenue. This subsection applies to any person who first becomes a member of the retirement system on or after October 1, 1996.

38.1624a Deferred retirement option plan.

Sec. 24a. (1) A deferred retirement option plan is established within the defined benefit plan that is part of the retirement system, and it is to be administered by the office of retirement services. Exclusively represented members of the retirement system may only participate in the deferred retirement option plan pursuant to notice from their collective bargaining agent that the agent agrees to the terms of the deferred retirement option plan. For each fiscal year that begins on or after October 1, 2004, the director of state police and the retirement board may elect to discontinue accepting applications for the deferred retirement option plan.

(2) An officer who has 25 years or more of credited service under this act or former act 1935 PA 251, or both, may elect to participate in the deferred retirement option plan by executing the application provided by the office of retirement services. Once the application is accepted by the office of retirement services, the officer's participation in the deferred retirement option plan is irrevocable and he or she becomes a DROP participant. The officer is solely responsible for any federal, state, or local tax due as a result of his or her participation in the deferred retirement option plan.

(3) Participation in the deferred retirement option plan does not guarantee continued employment. Except as otherwise provided in this section, an officer who elects to participate in the deferred retirement option plan

will remain an active employee eligible to receive any applicable wage changes and benefits, will be subject to civil service rules and regulations, and will be subject to the policies and procedures of the department of state police and subject to removal by the governor, if applicable, in the same manner as if he or she had not elected to participate in the deferred retirement option plan.

(4) An officer shall indicate on the application for the deferred retirement option plan the number of years that the officer wants to participate in the deferred retirement option plan, up to a maximum of 6 years. As a condition for participation, the officer agrees to retire at the conclusion of his or her participation in the deferred retirement option plan.

(5) A deferred retirement option plan account shall be created in the accounting records of the retirement system for each DROP participant. Each deferred retirement option plan account shall earn interest at the rate of 3% per annum, prorated for any fraction of a year. The deferred retirement option plan account of a DROP participant shall be credited with the following percentage of his or her monthly retirement allowance as calculated pursuant to section 24 as if he or she had retired on the day prior to becoming a DROP participant:

- (a) 100% if the officer remains in the deferred retirement option plan for 6 years.
- (b) 90% if the officer remains in the deferred retirement option plan for 5 years but less than 6 years.
- (c) 80% if the officer remains in the deferred retirement option plan for 4 years but less than 5 years.
- (d) 70% if the officer remains in the deferred retirement option plan for 3 years but less than 4 years.
- (e) 60% if the officer remains in the deferred retirement option plan for 2 years but less than 3 years.
- (f) 50% if the officer remains in the deferred retirement option plan for 1 year but less than 2 years.
- (g) 30% if the officer remains in the deferred retirement option plan for less than 1 year.

(6) A DROP participant shall not receive a monthly retirement allowance, as calculated pursuant to section 24, until termination of his or her deferred retirement option plan participation and commencement of retirement. A DROP participant shall not have any claim to any funds in his or her deferred retirement option plan account until he or she retires at the termination of his or her deferred retirement option plan participation.

(7) Upon termination of the deferred retirement option plan participation and commencement of retirement, the former DROP participant shall select 1 or more of the following options with regard to his or her deferred retirement option plan account:

- (a) A total lump-sum distribution.
- (b) A partial lump-sum distribution.
- (c) A lump-sum direct rollover to another qualified plan if allowed by federal law and subject to the procedures of the retirement system.
- (d) Maintain the funds in the account.

A former DROP participant shall remove all funds from his or her deferred retirement option plan account no later than April 1 following the later of the calendar year in which the DROP participant attains 70 years, 6 months of age or the calendar year in which the DROP participant is retired.

(8) If a DROP participant or former DROP participant dies before removing all funds from his or her deferred retirement option plan account, the former DROP participant's designated beneficiary shall receive any remaining balances. If the former DROP participant has not named a beneficiary for his or her deferred retirement option plan account, the amount in the deferred retirement option plan account shall be paid to the beneficiary of the former DROP participant's retirement allowance. If the former DROP participant has not named a beneficiary to his or her retirement allowance, the balance in the former DROP participant's account shall be paid to the former DROP participant's estate.

(9) If a DROP participant is found to be disabled under section 29, his or her participation in the deferred retirement option plan shall immediately cease and he or she shall be retired.

(10) The deferred retirement option plan shall be administered in compliance with section 415 of the internal revenue code, 26 USC 415, and regulations under that section that are applicable to a governmental deferred retirement option plan. If there is a conflict between this subsection and another subsection of this section, this subsection prevails.

(11) A deferred retirement option plan shall not be implemented until the civil service commission adopts rules to regulate all of the following:

- (a) A DROP participant's payment for sick leave, annual leave, longevity, and related items.
- (b) A DROP participant's accrual of sick leave, annual leave, compensatory time, and related items.
- (c) A DROP participant's payment of group insurance plan premiums.

(12) If the department receives notification from the United States internal revenue service that this section or any portion of this section will cause the retirement system to be disqualified for tax purposes under the internal revenue code, 26 USC 1 to 1789, then the portion that will cause the disqualification does not apply.

If there is not a surviving spouse, nor children under the age of 18 years, then a retirement allowance equal to 60% of the member's final average compensation shall be paid to the mother or father, or both, of the member, if dependent on him or her for support, until the dependency ceases. If there is not a dependent mother or father, a retirement allowance of \$100.00 per month shall be paid to each of the sisters or brothers, if there are any under 18 years of age dependent upon the member for support. Upon the spouse's death, if there are not eligible children, there shall be paid to the deceased member's estate any residual accumulated contributions and interest made by him or her into the reserve for employee contributions. The retirement allowance of a deferred member who retires under this section on or after October 1, 1986 shall equal 2% of the deferred member's final average compensation times the number of years, including any fraction of a year, of service credited to the deferred member pursuant to this act or former Act No. 251 of the Public Acts of 1935, or both, but not to

exceed 25 years. The payment shall not begin before the date the deferred member becomes 50 years of age, and shall continue during the life of a surviving spouse. The entitlement to a deferred retirement allowance under this section is forfeited if a deferred member is paid a refund of his or her contributions. If a deferred member dies before becoming 50 years of age, the deferred retirement allowance shall be paid to his or her surviving spouse or dependent children on the first day of the month following the date the retirant would have attained 50 years of age.

(2) If a member has qualified for a deferred retirement allowance under subsection (1) and has not forfeited his or her retirement allowance and subsequently is reemployed and becomes an employee of the department of state police by subscribing to the constitutional oath of office, he or she shall again become a member of this retirement system. If the member again serves for at least 5 years, his or her prior service shall be combined with his or her subsequent service and the member's retirement allowance shall be recomputed with credit for his or her total number of years served in accordance with section 24.

(3) A member who has been a member under this act or former Act No. 251 of the Public Acts of 1935, or both, for less than 10 years, shall receive the service credit needed to equal 10 years if the member does not meet the vision screening standards as required for continued employment developed by the department of state police. (a) The department of state police has made reasonable accommodation for the continued employment of the member.

(b) The member's failure to meet the vision screening standards is directly related to and arose out of a nonduty illness, injury, or occurrence.

During the period of active service, and until reemployment, the member's contributions to the reserve for employee contributions shall be suspended and the member's balance in his or her account standing to the member's credit as of the last payroll date preceding the member's leave of absence shall be accumulated at regular interest. If the member withdraws all or part of the accumulated contributions from his or her account, the active service shall not be credited until the member returns to the reserve for employee contributions those amounts withdrawn, together with regular interest computed from the date of withdrawal to the date of repayment.

(2) A member of this retirement system who does not meet the requirements of subsection (1) and who was drafted, enlisted, inducted, or commissioned into active duty with the military or other armed service of the United States government may elect to receive service credit for not more than 2 years of active duty upon request and payment to the retirement system of an amount equal to 5% of the member's full-time compensation for the fiscal year in which the payment is made multiplied by the years and months the member elects to purchase up to the maximum. Service shall not be credited if the service is or would be credited under any other federal, state, or local publicly supported retirement system, but this restriction shall not apply to those persons who have or will have acquired retirement eligibility under the federal government for service in the reserve. Armed service shall not be credited under this subsection until the member has accumulated 10 years of credited service, of which the last 5 are continuous.

For the purpose of computing payment under this subsection, the compensation amount used shall not be less than the highest fiscal year compensation previously received by the member.

(2) Service shall not be credited under this section until the member has accumulated 10 years of credited service.

(3) Service credit purchased under this section shall not be creditable toward retirement under this act if the member is or will be receiving a pension or annuity for the same service from another retirement system.

(3) If a member who made payment under this section dies and a retirement allowance beneficiary has not been designated, or if the member leaves employment before his or her retirement becomes effective, the payment made by the member shall be refunded upon request to the member or to the member's legal representative.

(4) A member who reduces hours of employment with the department of state police for purposes of maternity, paternity, or child rearing may purchase service credit for those hours by which employment was reduced if all other requirements of this section are met.
