GENERAL POWERS AND DUTIES OF AERONAUTICS COMMISSION AND DIRECTOR OF AERONAUTICS.

259.51 Aeronautics commission; powers and duties generally.

Sec. 51. (1) The commission has general supervision over aeronautics within this state. The commission shall encourage, foster, and participate with and provide grants to the political subdivisions of this state in the development of aeronautics within this state. The commission shall establish and encourage the establishment of airports, landing fields, and other aeronautical facilities. The commission shall promulgate rules that it considers necessary and advisable for the public safety governing the designing, laying out, location, building, equipping, and operation of airports and landing fields and shall exercise exclusive authority to approve the

location and operation of airports, landing fields, and other aeronautical facilities within the state, so as to assure a uniformity in regulations covering aeronautics. In order to implement this act, the commission may establish programs of state financial assistance in the form of grants, leases, loans, and purchases, or a combination of grants, leases, loans, and purchases, for assisting political subdivisions or other persons. The commission shall not grant an exclusive right for the use of an aeronautical facility. The commission may by the issuance of appropriate and effective rules register pilot's certificates issued by the civil aeronautics authority or other similar federal authority to resident pilots of the state for which it may charge a fee not to exceed \$5.00; govern and regulate commercial operations in intrastate commerce for which it may charge a fee of not more than \$25.00; and provide for the licensing of aircraft dealers for which it may charge a fee of not more than \$25.00.

(2) The commission shall cooperate with and assist the federal government, state governments, authorities of political subdivisions, and individuals engaged in aeronautics or the development of aeronautics, and shall seek to coordinate the aeronautical activities of these entities. The commission may confer with or hold joint hearings with any federal or state governments, their agencies, the authorities of political subdivisions, and individuals, in connection with any matter arising under this act, and avail itself of the cooperation, services, records, and facilities of those agencies in the administration and enforcement of this act. The commission shall reciprocate by furnishing governments and their agencies its cooperation, services, records, and facilities, insofar as may be practicable.

(3) The commission may perform acts, issue and amend orders, and make, promulgate, and amend reasonable general or special rules and procedures, and establish minimum standards, consistent with this act, which it considers necessary to implement this act and to perform its duties under this act, all commensurate with and for the purpose of protecting and insuring the general public interest, health, welfare, and safety. The commission may adopt and enforce the provisions of the currently effective federal legislation governing aeronautics. The commission shall promulgate rules to implement this act. The commission may deviate from or add to rules if necessary for the public safety and for the safety of aircraft and airmen within the state. A rule of the commission shall not apply to aeronautical facilities owned by the federal government.

(4) For the safety of aircraft and airmen within this state the commission may designate, establish, or modify a state airways system. The commission may publish and distribute maps, charts, and information relating to that system.

(5) The commission, a commission member or employee, the director, and every state, county, and municipal officer charged with the enforcement of state and municipal laws shall enforce and assist in the enforcement of this act and of rules promulgated under this act, and of all other laws of this state relating to aeronautics. In the aid of enforcement, general police powers are conferred upon the commission, each of its members, the director, and the officers and employees of the commission designated by the commission to exercise those powers. The commission is further authorized to enforce this act and rules promulgated under this act by injunction in the circuit court. The prosecuting attorney of the county in which an offense is committed shall prosecute offenders against this act and other aeronautical laws of this state, or any rule promulgated under this act or order issued by the commission. When a complaint is made before a municipal court in a city having such a court, or the district court in the county, district, or political subdivision in which venue is proper, that court may take cognizance, hear, try, and determine such matters and pass sentence upon offenders in accordance with law.

(6) The commission, a commission member, the director, or an employee designated by the commission may hold investigations, inquiries, and hearings concerning matters covered by this act, aircraft accidents, or orders and rules of the commission. Each person designated may administer oaths and affirmations, certify to official acts, issue subpoenas, and compel the attendance and testimony of witnesses, and the production of papers, books, and documents. In case of failure to comply with a subpoena or order issued under this act, the commission, or its authorized representative, may invoke the aid of a court of general jurisdiction. The court may order the witness to comply with the requirements of the subpoena or order, or to give evidence touching the matter in question. Failure to obey the order of the court may be punished by the court as contempt.

(7) In order to facilitate investigations by the commission in the interest of public safety and development of aeronautics, the reports of investigations or hearings, or any part of them, shall not be admitted in evidence or used for any purpose in an action or proceeding growing out of a matter referred to in the investigation, hearing, or report, except in case of criminal or other proceedings instituted in behalf of the state under this act or any other law of this state relating to aeronautics. A commissioner, director, or an officer or employee of the commission shall not be required to testify to facts ascertained in, or information gained by reason of, his or her official capacity, or be required to testify as an expert witness in an action or proceeding involving an aircraft. Except as otherwise provided in this section, the commission may make available to appropriate federal and state agencies information and material developed in the course of its hearings and investigations.

The aggregate liability for the surety for all breaches of conditions of the bond shall not exceed the principal sum of \$5,000.00. The surety of any bond may cancel the bond upon giving 60 days' notice in writing to the commission and the flight school. If a bond is canceled in compliance with this subsection, the surety is relieved of liability for any breach of conditions occurring after the effective date of cancellation.

History: Add. 2002, Act 90, Imd. Eff. Mar. 26, 2002.

259.110 Public airport authority; political subdivision and instrumentality of local government; public agency; airport manager; qualified airport; powers of authority; incorporation of authority; presumption of validity; court jurisdiction; state transportation department as party; rules prohibited.

Sec. 110. (1) Except as otherwise provided in this chapter, an authority created under or pursuant to this section shall be a political subdivision and instrumentality of the local government that owns the airport and shall be considered a public agency of the local government for purposes of state and federal law. An authority created under or pursuant to this section also shall be the airport owner for purposes of appointing and designating an airport manager under this act. An authority shall not levy a tax or special assessment.

(2) For a local government that owns or operates a qualified airport on the effective date of this chapter, there is created an authority on the effective date of this chapter. For a local government that operates an airport that becomes a qualified airport after the effective date of this chapter, there is created an authority on the date the airport becomes a qualified airport. An authority is vested with powers granted by this chapter to manage and operate the qualified airport and airport facilities of a qualified airport and any other airport and related airport facilities owned or operated by the local government on the approval date. Before the approval

date, an authority may organize and exercise all powers granted under this chapter, except those powers related to the management and operation of a qualified airport. Officials and employees of the local government and the authority shall actively cooperate with the local government, the authority, this state, and the federal government to the end that the FAA will recognize the authority as the sponsor of the qualified airport, and to obtain FAA approval of the transfers contemplated by this chapter. Any action required by this state related to the approval shall be coordinated by the department. The local government shall execute such additional documents as necessary to obtain FAA approval of the transfers contemplated by this chapter and to obtain recognition of the authority as the sponsor with respect to the qualified airport.

(3) A local government that owns or operates an airport that is not a qualified airport may, by resolution, declare its intention to incorporate an authority. In the resolution of intent, the legislative body of the local government shall set a date for the holding of a public hearing on the adoption of a proposed resolution incorporating the authority. After a public hearing, which shall be held in accordance with the open meetings act, 1976 PA 267, MCL 15.261 to 15.275, if the legislative body of the local government intends to proceed with the incorporation of the authority, it shall adopt, by majority vote of its members, a resolution incorporating the authority. The adoption of the resolution is subject to any applicable statutory or charter provisions in respect to the approval or disapproval by the local chief executive officer or other officer of the local government and the adoption of an ordinance over his or her veto. The resolution shall take effect upon being filed with the secretary of state.

(4) The validity of the creation or incorporation of the authority shall be conclusively presumed unless questioned in an original action filed in the court of appeals within 60 days after the creation or incorporation of the authority under this chapter. The court of appeals has original jurisdiction to hear an action under this subsection. The court shall hear the action in an expedited manner. The state transportation department is a necessary party in any action under this subsection.

(5) The department shall not promulgate rules under this chapter.

(b) Neither the board member or the chief executive officer or chief financial officer, nor the spouse or his or her siblings, children or their spouses, parents, or siblings or their spouses of the board member or the chief executive officer or chief financial officer, have a combined 15% or greater direct pecuniary interest in any civil aeronautics enterprise connected with the airport under the control of the authority.

(6) A board member who, at any time during his or her term of service, becomes in violation of subsection (5)(b) shall have 30 days to divest, or arrange for the divestment of, the interest that caused the violation. If the board member or his or her relative is still in violation of subsection (5)(b) after the expiration of the 30-day period, the entity that appointed that board member shall remove the board member from office.

(7) Notwithstanding any law or charter provision to the contrary, appointments by a local chief executive officer under subsection (2) shall not be subject to the approval by the legislative body of the local government.

(8) The board shall appoint a chief executive officer who shall be an ex officio member, without vote, of the board and shall not be considered in determining the presence of a quorum, who shall have professional qualifications commensurate with the responsibility of the jobs to be performed by such officials. The board may enter into a contract with the chief executive officer for a commercially reasonable length of time commensurate with the length of time for contracts of airport chief executive officers, directors, or managers with similar responsibilities at other airports or airport authorities within or without this state with a comparable number of annual enplanements.

(9) The chief executive officer shall appoint a chief financial officer who shall be the treasurer of the authority, who shall have professional qualifications commensurate with the responsibility of the jobs to be performed by such officials. Notwithstanding any law or charter provision to the contrary, it shall be the duty and right of the chief financial officer of the authority to receive all money belonging to the authority, or arising or received in connection with the airport over which operational jurisdiction has been transferred to the authority, from whatever source derived. Money of the authority shall be deposited, invested, and paid by the chief financial officer only in accordance with policies, procedures, ordinances or resolutions adopted by the board. Upon the approval date, the authority shall be considered to be the owner of all money or other property then or thereafter received by the treasurer of the local government or deposited in the treasury of a local government to the credit of the airport for which operational jurisdiction has been transferred to the authority. The authority shall be entitled to all interest and other earnings on those funds on and after the latter of the effective date of this chapter or the date on which the authority is created or incorporated. If the chief executive officer of an authority is temporarily absent or disabled, the chief executive officer of the authority may designate a qualified person as acting chief executive officer of the authority to perform the duties of the office. If the chief executive officer of an authority fails or is unable to designate an acting chief executive officer of the authority, the board shall designate an acting chief executive officer of the authority for the period of absence or disability of the chief executive officer of the authority. The chief executive officer of the authority shall furnish the board with information or reports governing the operation of the airport as the board requires.

(6) The authority shall establish contracting policies and procedures providing for all of the following:

(a) Except for the negotiated construction contracts permitted under this subdivision, a contract shall not be awarded by an authority or the chief executive officer of the authority for the construction, repair, remodeling, or demolition of an airport facility unless the contract is let pursuant to a procedure that requires a competitive bidding. A negotiated construction contract shall not be required to be let by competitive bidding if the board or the chief executive officer of the authority with delegated authority to enter into contracts determines that any of the following apply:

(i) The negotiated contract amount is less than \$50,000.00. However, if the contract amount, including change orders, subsequently exceeds \$50,000.00, the authority shall detail, in writing, the reasons why the contract amount exceeded \$50,000.00.

(ii) As determined in writing by the board or the chief executive officer with delegated authority to enter into contracts, the contract is for emergency repair or construction necessitated by a sudden, unforeseen occurrence or situation of a serious and urgent nature and is not for convenience or expediency.

(iii) As determined in writing by the board or the chief executive officer with delegated authority to enter

into contracts, the repair or construction is necessary to ensure passenger safety or otherwise protect life or property.

(b) The authority shall establish policies and procedures for hiring professional service contractors.

(c) The authority shall utilize competitive bidding for all purchases and all other contracts unless the board, or, if authorized by the board to approve procurements, the chief executive officer of the authority, determines and details in writing the reason that competitive solicitation of bids or proposals is not appropriate, that procurement by competitive bids is not practicable to efficiently and effectively meet the authority's needs, or that another procurement method is in the public's best interests.

(7) The authority may enter into lease purchases or installment purchases for periods not exceeding the anticipated useful life of the items purchased. The authority may enter into a cooperative purchasing agreement with the state or other public entities for the purchase of goods, including, but not limited to, recycled goods, and services necessary for the authority.

(8) The chief executive officer of an authority shall comply with all federal and state contracting requirements pertaining to disadvantaged business enterprises, minority business enterprises, and other targeted business enterprises and shall seek to ensure maximum participation of disadvantaged business enterprises, minority business enterprises, and other targeted business enterprises in contracting opportunities with the authority.

(9) Members of the board and officers, appointees, and employees of the authority are public servants under 1968 PA 317, MCL 15.321 to 15.330, and are subject to any other applicable law with respect to conflicts of interest. The board shall establish policies and procedures requiring periodic disclosure of relationships which may give rise to conflicts of interest. The board shall require that a member of the board or a chief executive officer or chief financial officer who has a direct interest in any matter before the authority disclose the member's or officer's interest and any reasons reasonably known to the member of the board or officer why the transaction may not be in the best interest of the public or the authority before the board takes any action with respect to the matter. The disclosure shall become part of the record of an authority's proceedings.

(10) An authority shall establish an ethics manual governing the conducting of airport business and the conduct of airport employees. An authority shall establish policies that are no less stringent than those provided for public officers and employees by 1973 PA 196, MCL 15.341 to 15.348, and coordinate efforts for the authority to preclude the opportunity for and the occurrence of transactions by the authority that would create a conflict of interest involving members of the board and employees of the authority. At a minimum, these policies shall include compliance by each member of the board and employees of the authority who regularly exercise significant discretion over the award and management of authority procurements with policies governing all of the following:

(a) Immediate disclosure of the existence and nature of any financial interest that would reasonably be expected to create a conflict of interest.

(b) Withdrawal by an employee or member from participation in or discussion or evaluation of any recommendation or decision involving an authority procurement that would reasonably be expected to create a conflict of interest for that employee or member.

(11) An authority shall work collaboratively with appropriate local governmental units in the implementation of any federally sanctioned and funded programs for the mitigation of aircraft noise and fuel fumes.

(j) An authority may act as a sponsor and submit requests for, accept, and be responsible to perform all of the assurances associated with accepting grants from the federal aviation administration or any other agency of the United States or of this state, with respect to the airport under the operational jurisdiction of the authority, and to perform the duties and responsibilities previously assumed by the local government that owns the airport under the operational jurisdiction of the authority by virtue of its acceptance of grants from the federal aviation administration or any other agency of the United States or this state.

(k) An authority may enter into agreements to use the facilities or services of the state, any subdivision or department of the state, any county or municipality, or the federal government or any agency of the federal government as necessary or desirable to accomplish the purposes of this chapter for that consideration or pursuant to that cost allocation formula that may be acceptable to the authority in compliance with its obligations under applicable federal law, regulations, and assurances associated with accepting grants from the FAA or any other agency of the United States or this state, including, but not limited to, policies of the FAA prohibiting revenue diversion or the payment of fees exceeding the value of services provided by a governmental agency.

(n) An authority may enter into exclusive or nonexclusive contracts, leases, franchises, or other arrangements with any person or persons for terms not exceeding 50 years, for granting the privilege of using or improving, or having access to the airport or any airport facility, or any portions of the airport or the authority's airport facilities, for commercial airline-related purposes consistent with its obligations under applicable federal law, regulations, and assurances associated with accepting grants from the FAA or any other agency of the United States or this state.

(o) An authority may enter into exclusive or nonexclusive contracts, leases, or other arrangements not described in subdivision (n) for commercially reasonable terms consistent with its obligations under applicable federal law, regulations, and assurances associated with accepting grants from the FAA or any other agency of the United States or this state.

(t) An authority may exercise its powers and duties under this chapter notwithstanding any charter provision, ordinance, resolution, contract, regulation, or rule of a local government to the contrary. This subdivision does not apply to a contract entered into by a local government after the authority is created if the contract also has been approved or ratified by the authority. Nothing in this chapter shall be construed to limit the exercise of the powers of a local government in which an airport is located to zone property under the city and village zoning act, 1921 PA 207, MCL 125.581 to 125.600, or to engage in land planning under 1931 PA 285, MCL 125.31 to 125.45, with respect to property that is not part of the airport.

(u) An authority may fix, charge, and collect rates, fees, rentals, and charges within and for the use and operation of the airport or airports under the operational jurisdiction of the authority.

(2) A member of the board or an officer, appointee, or employee of the authority shall not be subject to personal liability when acting in good faith within the scope of his or her authority or on account of liability of the authority, and the board may defend and indemnify a member of the board or an officer, appointee, or employee of the authority against liability arising out of the discharge of his or her official duties. The authority may also purchase and maintain insurance on behalf of any person against any liability asserted against the person and incurred by the person in any capacity or arising out of the status of the person as a member of the board or an officer or employee of the authority, whether or not the authority would have the power to indemnify the person against that liability under this subsection. An authority, pursuant to bylaw, contract, agreement, or resolution of its board, may obligate itself in advance to defend and indemnify persons.

(3) An authority shall indemnify and hold harmless the local government that owns the airport over which operational jurisdiction has been transferred to the authority for any civil claim existing or any civil action or

proceeding pending by or against the local government involving or relating to the airport, airport facilities, or any civil liability related to the obligations of the local government issued or incurred with respect to the airport which was pending at the time of, or which had been incurred prior to, the transfer of operational jurisdiction of the airport to the authority.

(4) Notwithstanding any other provision of law to the contrary, an authority does not have the power to impose or levy taxes, except the authority has the power to impose fees or charges permitted by federal law.

(5) Unless an authority obtains the approval of the legislative body of the local government that owns the airport over which operational jurisdiction has been transferred to the authority pursuant to section 117, the authority shall not incur any indebtedness pledging, on a parity or superior basis, any revenues from airport facilities that are otherwise pledged to secure any obligation, note, bond, or other instrument of indebtedness for which the full faith and credit of the local government has been pledged.

(6) Upon the creation or incorporation of an authority under this chapter, the local government that owns the airport over which operational jurisdiction may be transferred pursuant to section 117 shall not pledge airport facilities or assets to secure any instrument of indebtedness except to secure airport revenue bonds issued for airport capital improvement projects after the creation or incorporation of the authority and prior to the approval date.

(a) The authority acquires, succeeds to, and assumes the exclusive right, responsibility, and authority to occupy, operate, control, and use the airport and the airport facilities of an airport owned by the local government on that date, including all lands, buildings, improvements, structures, aviation easements, rights of access, and all other privileges and appurtenances pertaining to the airport, subject only to those restrictions imposed by this act.

(b) The authority acquires and succeeds to all rights, title, and interests in and to the fixtures, equipment, materials, furnishings, and other personal property owned and used for purposes of the airport on that date by the local government that owned the airport. The officers of the local government that owns the airport under the operational jurisdiction of the authority shall execute those instruments of conveyance, assignment, and transfer as may be necessary or appropriate to accomplish the foregoing.

(c) The authority assumes, accepts, and becomes liable for all of the lawful obligations, promises, covenants, commitments, and other requirements in respect of the airport of the local government that owns the airport under the operational jurisdiction of the authority, whether known or unknown, contingent or matured, but excepting any full faith and credit pledge of the local government in respect of bonds issued by the local government for airport purposes, and shall perform all of the duties and obligations and shall be entitled to all of the rights of the local government in respect of the airport under any ordinances, agreements, or other instruments and under law. Consistent with this chapter, this assumption includes, and there shall be transferred to the authority, all licenses, permits, approvals, or awards related to the airport, all grant agreements, grant pre-applications, the right to receive the balance of any funds payable under the agreements, the right to receive any amounts, including PFCs, payable to the local government on the approval date and amounts paid to the local government after the approval date, as well as the benefit of

contracts and agreements, and all of the local government's duties, liabilities, responsibilities, and obligations as sponsor of the airport, except for any obligation or liabilities contested in good faith by the authority.

(d) The authority assumes unfunded obligations to provide pensions or retiree health insurance in an amount and manner determined by a professional actuary acceptable to the authority and the local government. However, the authority shall not assume any such obligations in excess of the amount properly allocable to the airport over which the authority is exercising operational jurisdiction under the local government's allocation procedures in effect on the date the authority is created or incorporated, and the amount of obligations so assumed by the authority shall not exceed its pro rata share of such obligations, based upon the percentage which the amount of such obligations attributable to employees of the authority is of the amount of all such obligations prior to such assumption.

(2) All lawful actions, commitments, and proceedings, including, but not limited to, revenue bond financings for which a notice of intent resolution has been adopted, of the local government made, given, or undertaken before the date of assumption by the authority under this section are ratified, confirmed, and validated upon assumption by the authority. All actions, commitments, or proceedings undertaken shall, and all actions, commitments, or proceedings of the local government in respect of the airport in the process of being undertaken by, but not yet a commitment or obligation of, the local government in respect of the airport may, from and after the date of assumption by the authority under this section, be undertaken and completed by the authority in the manner and at the times provided in this chapter or other applicable law and in any lawful agreements made by the local government before the date of assumption by the authority under this section.

(3) The exclusive right and authority to occupy, operate, control, and use the airport facilities includes, but is not limited to, all of the following:

(a) Operational jurisdiction over all real property of the airport, including, but not limited to, all terminals, runways, taxiways, aprons, hangars, aids to air navigation, emergency vehicles or facilities, parking facilities for passengers and employees, and buildings and facilities used to operate, maintain, and manage the airport, subject to any liens on the real property and restrictions and limitations on the use of the real property.

(c) All cash balances and investments relating to or resulting from operations of the airport for which operational jurisdiction has been transferred to an authority, all funds held under an ordinance, resolution, or indenture related to or securing obligations of the local government that have been assumed by the authority, and all of the accounts receivable or choses in action arising from operations of the airport as well as all benefits of contracts and agreements.

259.118 Operational jurisdiction over airport; transfer to authority; effect.

Sec. 118. (1) The transfer of the operational jurisdiction over an airport to the authority may not in any way impair any contracts with airlines, vendors, tenants, bondholders, or other parties in privity with the local government that owns the airport over which operational jurisdiction has been transferred to an authority.

(2) Upon the transfer of operational jurisdiction over an airport pursuant to section 117, a local government shall be relieved from all further costs and responsibility arising from or associated with control, operation, development, and maintenance of that airport, except as otherwise required under obligations retained by the local government under this chapter or as otherwise agreed by the local government.

(3) A local government that owns an airport for which an authority has been created or incorporated under this chapter shall comply with all of the following:

(a) Refrain from any action that would impair an authority's exercise of the powers granted to the authority under this chapter or that would impair the efficient operation and management of the airport.

(b) Refrain from any action to sell, transfer, or otherwise encumber or dispose of airport facilities owned by the local government for which operational jurisdiction has been transferred without the consent of the

authority and, where necessary, the federal aviation administration.

(c) Take all action reasonably necessary to cure any defects in title to airport facilities over which an authority has been transferred operational jurisdiction.

(d) At the request of an authority that has been transferred operational jurisdiction of an airport owned by the local government, grant any license, easement, or right-of-way in connection with the airport to the extent the authority has not been empowered to take these actions.

(e) Upon creation or incorporation of an authority and before the approval date, conduct operations of the airport in the ordinary and usual course of business.

(f) Maintain and repair, including providing snow removal for, any road providing ingress and egress to the airport over which responsibility for maintenance and repair is retained by the local government pursuant to agreement or law.

(4) At the request of the authority, a local government that owns a qualified airport over which operational jurisdiction has been transferred to an authority shall provide the authority with transitional services previously performed by the local government and related to the operation of the qualified airport until the date the authority elects to assume these services. The reasonable cost of these services shall be paid by the authority.

History: Add. 2002, Act 90, Imd. Eff. Mar. 26, 2002.

259.119 Election by employees to transfer to authority; requirements.

Sec. 119. (1) For employees who elect to transfer to the authority under subsection (2) and who are covered by the terms of a collective bargaining agreement with the local government that owns an airport over which operational jurisdiction will be transferred, the authority shall assume and be bound by those existing collective bargaining agreements for the remainder of the term of the agreement. A representative of the employees or a group of employees in the local government who represents or is entitled to represent the employees or a group of employees of the local government, pursuant to 1947 PA 336, MCL 423.201 to 423.217, shall continue to represent the employees or group of employees after the employees transfer to the authority and the authority shall honor all obligations of a public sector employer after the expiration of any collective bargaining agreement with respect to transferring employees.

(2) Local government employees employed at an airport from which operational jurisdiction will be transferred to an authority may agree to transfer to the employment of the authority on or before a date established by the authority. The date established by the authority shall not be later than the approval date. Local government employees, who do not agree to transfer to the employment of the authority, shall be reassigned within the local government. The local government shall not, as a result of the creation or incorporation of an authority for a period of not more than 1 year, layoff or reduce the pay or benefits of any employee of the local government into whose position a local government employee who was previously employed at the airport is reassigned. The authority shall consider any person hired by the authority to fill a position that had been previously filled with a local government employee who did not agree to transfer to the employment of the authority to be under the collective bargaining agreement covering, and to be represented by the collective bargaining representative of, the local government employee who did not agree to transfer to the authority. The authority shall accept the transfers without a break in employment, subject to all rights and benefits held by the transferring employees under a collective bargaining agreement. Transferring employees shall not be placed in a worse position by reason of the transfer for a period of 1 year after the approval date, or any longer period as may be required in connection with the assumption of any applicable collective bargaining agreement, with respect to wages, workers' compensation, pension, seniority, sick leave, vacation, or health and welfare insurance or any other term and condition of employment that a transferring employee may have under a collective bargaining agreement that the employee received as an employee of the local government. The rights and benefits protected by this subsection may be altered by a future collective bargaining agreement except that any employee who as of the effective date of this chapter has the right, by contract or statute, to submit any unresolved disputes to the procedures set forth in 1969 PA 312, MCL 423.231 to 423.247, shall continue to have that right, or, for employees not covered by collective bargaining agreements, by benefit plans as established and adopted by the authority. Employees who elect to transfer shall not by reason of the transfer have their accrued local government pension benefits or credits diminished. If a transferring employee is not vested in his or her local government pension rights at the time of transfer, his or her post-transfer service with the authority shall be credited toward vesting in any local government retirement system in which the transferring employee participated prior to the transfer, but the post-transfer service with the authority shall not be credited for any other purpose under the local government's retirement system, except as provided in subsections (3) and (4). An employee who elects to transfer to the authority may, upon return to employment with the local government within 1 year from the approval date, do so

without loss of seniority unless contrary to a collective bargaining agreement. Notwithstanding any other provision of this section, a political appointee, other than a member of the board appointed under section 111, at an airport previously operated by the local government from which operational authority has been transferred to an authority shall not be placed in a worse position in regards to terms and conditions of employment until December 31 of the year in which the authority is created.

(3) If a local government employee described in this section elects to transfer to an authority or if a person is hired by the authority as a new employee after the date on which the authority assumes operational jurisdiction over an airport, the employee shall remain or become a participant in the local government retirement system until the authority has established its own retirement system or pension plan. During this period the employee remains or is a participant in the local government system, the employee's post-transfer service with the authority during this period and his or her post-transfer compensation from the authority during this period shall be counted in determining both eligibility for and the amount of pension benefits that the employee will be eligible to receive from the local government system or plan.

(4) If a local government employee described in this section elects to transfer to the authority, then the transferred employee may elect to remain a participant in the local government retirement system in lieu of participation in any retirement system or pension plan of the authority. By electing to remain a participant in the local government system, the employee's post-transfer service with the authority and his or her post-transfer compensation from the authority shall be counted in determining both eligibility for and the amount of pension benefits that the employee will be eligible to receive from the local government system or plan. Any election to remain in a local government system or plan shall be made within 60 days following the date the authority has established its own retirement system or pension plan and shall be irrevocable. Employees eligible to make the election described in this subsection shall be those employees who immediately before their transfer date were participating in the local government system and who agree to make any employee contributions required for continuing participation in the local government system and also agree to meet all requirements and be subject to all conditions which, from time to time, apply to employees of the local government who participate in the local government system.

(5) For each employee meeting the requirements of subsection (4) who elects to remain a participant in the local retirement system, the authority shall, on a timely basis, contribute the following amounts, as applicable, to the trustees of that retirement system:

(a) An amount determined by the local government system's actuary toward amortization of unfunded actuarial accrued liabilities which, as of the transfer date, are reasonably allocated to that employee on the local government system's records.

(b) An amount determined by the local government system's actuary sufficient to fund the liability for all of that employee's retirement and other benefits under the system on a current basis, as those liabilities are accrued on and after the transfer date.

(c) An amount determined by the local government system's actuary equal to all actuarial losses net of actuarial gains, costs, and administrative expenses of the system which are reasonably allocated to the employee.

(d) An amount equal to the percentage of compensation that the local government would have contributed for the employee had he or she remained in the employ of the local government.

(e) An amount corresponding to what the local government would have contributed toward retiree health coverage for the employee. However, the authority shall succeed to all rights of the local government to modify, amend, replace, suspend, or discontinue the retiree health coverage being provided to the persons who retire from authority employment.

History: Add. 2002, Act 90, Imd. Eff. Mar. 26, 2002.

259.120 Sources of revenue.

Sec. 120. (1) An authority may raise revenues to fund all of its activities, operations, and investments consistent with its purposes. However, an authority shall not levy a tax or impose a special assessment. The sources of revenue available to the authority may include, but are not limited to, fees, rents, or other charges the authority may fix, regulate, and collect for the airport facilities under the control of and services furnished by the authority, including fees, rentals, and charges fixed in connection with agreements entered into under section 116. The revenues raised by an authority may be pledged, in whole or in part, for the repayment of bonded indebtedness and other expenditures issued or incurred by the authority.

(2) To the extent practicable, an authority shall endeavor to maximize the revenues generated from enterprises located at the airport consistent with its obligations under applicable federal law, regulations, and assurances associated with accepting grants from the FAA or any other agency of the United States or this state.

(3) The authority may make application for and receive loans, grants, guarantees, or other financial assistance in aid of airport facilities and the operation of the airport from any state, federal, county, or municipal government or agency or from any other source, public or private, including financial assistance for purposes of planning, constructing, improving, and operating the airport, for providing security at the airport, and for providing ground access to the airport.

History: Add. 2002, Act 90, Imd. Eff. Mar. 26, 2002.

259.121 Other publicly owned airports; transfer of operational jurisdiction.

Sec. 121. The authority may accept the transfer of operational jurisdiction of other publicly owned airports that hold an airport operating certificate issued by the FAA under part 139 of chapter 14 of the code of federal regulations, within and without the local government. In accepting a transfer, the authority may assume no financial obligations other than those associated with the operation of the airport being transferred and with debt issued to finance improvements at the airport being transferred. History: Add. 2015, Act 95, Imd. Eff. June 30, 2015.

259.139 Authority as public body corporate; intent to incorporate regional authority; resolution; presumption of validity; rules prohibited.

Sec. 139. (1) An authority created under this section is a public body corporate for purposes of state and federal law and must comply with all of the following:

(a) The open meetings act, 1976 PA 267, MCL 15.261 to 15.275.

(b) The freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

(c) The uniform budget and accounting act, 1968 PA 2, MCL 141.421 to 141.440a.

(2) A local government that owns or operates an airport may, by resolution, declare its intention to incorporate a regional authority. In the resolution of intent, the legislative body of the local government shall set a date for a public hearing on the adoption of a proposed resolution incorporating the regional authority. The public hearing must be held in accordance with the open meetings act, 1976 PA 267, MCL 15.261 to 15.275. After the public hearing, if the legislative body of the local government intends to proceed with the incorporation of the regional authority, it must adopt, by majority vote of its members, a resolution adopting the articles of incorporation of the regional authority. The adoption of the resolution is subject to any applicable statutory or charter provisions with respect to the approval or disapproval by an officer of the local government and the adoption of an ordinance over the officer's veto. The articles of incorporation for the regional authority take effect on being filed with the secretary of state.

(3) The validity of the incorporation of a regional authority is conclusively presumed unless questioned in an original action filed in the court of appeals within 60 days after the creation or incorporation of the regional authority under this chapter. The court of appeals has original jurisdiction to hear an action under this

subsection. The court shall hear the action in an expedited manner. The state transportation department is a necessary party in an action under this subsection.

(4) The department shall not promulgate rules under this chapter.

259.140 Board; membership; terms; qualifications; appointment; expiration; resignation; vacancy; removal; first meeting; election of officers; withdrawal of power from chief executive officer; compensation; expenses; action of board by resolution or ordinance; vote; quorum.

Sec. 140. (1) An authority created under this chapter must be directed and governed by a board consisting of not fewer than 5 and not more than 9 members, who shall serve 3-year terms. The initial terms of the board members must be staggered so that the terms of not less than 20% of the members expire each year.

(2) The articles of incorporation of an authority created under this chapter must specify the number and qualifications of the members of the board. However, not more than 45% of the members may be elected officials, and at least 1 member must be a resident of a jurisdiction in this state located outside the boundaries of the local government. At a minimum, a board member must have experience in aviation, business, accounting, finance, marketing, engineering, law, real estate, economic development, management, or another field of value to the operation of the airport. A full-time paid employee of the local government is not eligible for appointment to the board.

(3) Within 60 days after incorporation of a regional authority, the members of the legislative body of the local government shall appoint the members of the board. Before assuming the duties of office, a member of the board must qualify by taking and subscribing to the constitutional oath of office.

(4) A member of the board whose term has expired shall hold office until the board member's successor is appointed and qualified, or until resignation or removal. If a member of the board is removed or is unable to complete his or her term of office, the legislative body shall appoint a successor to complete the term. A member of the board may resign by written notice to the regional authority. The resignation is effective on receipt by the secretary or chairperson of the regional authority or at a subsequent time as set forth in the notice of resignation. The regional authority shall promptly advise the local government in writing of any vacancy. The legislative body shall appoint a new member to fill the vacancy within 60 days after the local government is advised of the notice of resignation by the regional authority.

(5) The local government may only remove a board member for cause. Cause includes failure to attend at least 70% of the meetings of the board each fiscal year, conviction of a felony, breach of fiduciary duty to the regional authority, and other conduct as specified in the articles of incorporation or bylaws of the regional authority.

(6) Within 90 days after a regional authority is incorporated under section 139, the board of the regional authority shall hold its first meeting. At the first meeting, the board shall organize by electing a chairperson, a vice-chairperson, a secretary, and any additional officers that the board considers necessary. With the exception of the treasurer, all officers of the board must be elected annually by, and must be members of, the board.

(7) Except for those powers reserved or delegated to the chief executive officer of the regional authority by this chapter or by the board as provided in section 142(3), the board may withdraw from the chief executive officer any power that the board has delegated to the chief executive officer.

(8) A regional authority shall not compensate a member of the board for service to the authority or attendance at a meeting, but may reimburse a member for an actual and necessary expense incurred in the discharge of the member's official duties.

(9) A board may act only by resolution or ordinance. Unless the articles of incorporation or bylaws of the regional authority require otherwise, a vote of the majority of the board members present at a meeting of the board or a committee of the board at which a quorum is present constitutes the action of the board or committee.

History: Add. 2015, Act 95, Imd. Eff. June 30, 2015.

259.141 Meetings; audit committee.

Sec. 141. (1) After organization, a board shall adopt a schedule of regular meetings and adopt a regular meeting date, place, and time. The board shall meet not less than quarterly. A special meeting of the board may be scheduled as provided in the bylaws of the regional authority, but the board chairperson shall call a special meeting on request of 2 or more board members.

(2) A board shall appoint an audit committee consisting of at least 2 members of the board. The audit committee shall meet not less than annually with the chief financial officer, the chief executive officer, and

the independent auditors of the regional authority to review reports related to the financial condition, operations, performance, and management of the regional authority and airport.

History: Add. 2015, Act 95, Imd. Eff. June 30, 2015.

Sec. 142. (1) A board shall appoint a chief executive officer who must have professional qualifications commensurate with the responsibility of the jobs to be performed by chief executive officers. The chief executive officer is an ex officio member of the board, is not considered in determining the presence of a quorum, and does not have a vote. The chief executive officer serves at the pleasure of the board. The board may contract with the chief executive officer for a commercially reasonable length of time commensurate with the length of time for contracts of airport chief executive officers, directors, or managers with similar responsibilities at other airports or airport authorities in or outside of this state with a comparable number of annual enplanements. A contract under this subsection is terminable at will by the board.

(2) A chief executive officer shall appoint a chief financial officer who shall serve as the treasurer of the regional authority. The chief financial officer must have professional qualifications commensurate with the responsibility of the jobs to be performed by chief financial officers. Notwithstanding any law to the contrary, the chief financial officer shall receive all money belonging to the regional authority or arising or received in connection with the airport from whatever source derived. The chief financial officer shall deposit, invest, and pay money of the regional authority only in accordance with applicable state law and policies, procedures, ordinances, or resolutions adopted by the board. On and after the approval date, the regional authority is considered to be the owner of all money or other property previously or later received by the treasurer of the local government or deposited in the treasury of the local government to the credit of the airport for which operational jurisdiction has been transferred to the regional authority. The regional authority is entitled to all interest and other earnings on the money on and after the approval date. The treasurer of a local government that receives or has custody of money or other property that belongs to a regional authority shall promptly transfer the money or other property to the custody of the chief financial officer of the regional authority.

(3) The board shall require the chief financial officer and chief executive officer to post a suitable bond of not less than \$100,000.00 by a responsible bonding company. The regional authority shall pay the premium of the bond.

(4) The board shall prescribe the duties and responsibilities of the chief executive officer that are in addition to the duties and responsibilities imposed on the chief executive officer by this chapter. The chief executive officer shall supervise, and is responsible for, all of the following:

(a) The day-to-day operation of the airport, including the control, supervision, management, and oversight of the functions of the airport.

(b) The issuance of bonds and notes as approved by the board.

(c) The negotiation, establishment and approval of compensation and other terms and conditions of employment for employees of the regional authority, within the budget approved by the board. However, any collective bargaining agreements for represented employees are subject to board approval.

(d) The appointment, dismissal, discipline, demotion, promotion, and classification of employees of the regional authority.

(e) The negotiation, supervision, and enforcement of other contracts as approved by the board and entered into by the regional authority and the supervision of contractors and subcontractors of the regional authority in their performance of their duties.

(5) The chief executive officer may execute and deliver, and delegate signatory power for, contracts, leases, obligations, and other instruments approved by the board or for which power to approve has been delegated to the chief executive officer of the regional authority by this chapter or by action of the board. The chief executive officer has all powers incident to the performance of his or her duties that are prescribed by this chapter or by the board. The board may delegate additional powers to the chief executive officer not enumerated in this chapter. If the chief executive officer is temporarily absent or disabled, he or she may designate a qualified person as acting chief executive officer to perform the duties of the office. If the chief executive officer fails or is unable to designate an acting chief executive officer, the board shall designate an acting chief executive officer for the period of absence or disability of the chief executive officer.

(6) A regional authority shall establish procurement policies and procedures consistent with the procurement policies of the FAA and any applicable state laws or rules, including any competitive bidding requirements.

(7) A regional authority may enter into a lease purchase or installment purchase contract for a period not to exceed the anticipated useful life of the item purchased. The authority may enter into a cooperative purchasing agreement with this state or another public entity for the purchase of goods, including, but not limited to, recycled goods, and services necessary for the authority.

(8) A member of the board or an officer, appointee, or employee of a regional authority is a public servant under 1968 PA 317, MCL 15.321 to 15.330, and is subject to any other applicable law with respect to conflicts of interest. The board shall establish an ethics policy governing the conducting of airport business and the conduct of airport employees. A regional authority shall establish policies that are no less stringent than those provided for public officers and employees by 1973 PA 196, MCL 15.341 to 15.348, and coordinate efforts for the regional authority to preclude the opportunity for and the occurrence of transactions by the regional authority that would create a conflict of interest involving members of the board or employees of the authority.

(9) A member of the board or an officer, appointee, or employee of the regional authority is not subject to personal liability when acting in good faith within the scope of his or her authority and is not subject to liability for any liability of the regional authority. The board may defend and indemnify a member of the board or an officer, appointee, or employee of the regional authority against liability arising out of the discharge of his or her official duties. A regional authority may indemnify and procure insurance indemnifying members of the board and officers, appointees, and employees of the regional authority from personal loss or accountability for liability asserted by a person with regard to bonds or other obligations of the regional authority, or from any personal liability or accountability by reason of the issuance of the bonds or other obligations or by reason of any other action taken or the failure to act by the regional authority. The regional authority may also purchase and maintain insurance on behalf of any person against any liability asserted against the person and incurred by the person in any capacity or arising out of the status of the person as a member of the board or an officer or employee of the regional authority, whether or not the regional authority would have the power to indemnify the person against that liability under this subsection. A regional authority, pursuant to bylaw, contract, agreement, or resolution of its board, may obligate itself in advance to defend and indemnify persons.

(10) A regional authority shall indemnify and hold harmless the local government for any civil claim existing or any civil action or proceeding pending by or against the local government involving or relating to the airport, airport facilities, or any civil liability related to the obligations of the local government issued or incurred with respect to the airport that was pending at the time of, or that was incurred before, the transfer of operational jurisdiction of the airport to the regional authority.

The regional authority shall pay the cost of the services in compliance with its obligations under applicable federal law, regulations, and assurances associated with accepting grants from the FAA or another agency of the United States or this state, including, but not limited to, policies of the FAA that prohibit revenue diversion or the payment of fees that exceed the value of services provided by a governmental agency.

History: Add. 2015, Act 95, Imd. Eff. June 30, 2015.

259.146 Employees; transfer to regional authority; dates; terms of employment; collective bargaining agreement; regional authority as employer; retirement system or pension plan; transfer of amounts under subsection (3); assumption of retiree health benefit or payment obligations by regional authority; eligibility of employee hired by regional authority to participate in benefit plan; definitions.

Sec. 146. (1) Employees at an airport may transfer to the regional authority to which operational jurisdiction of the airport will be transferred as provided in this section on 1 or more dates agreed to by the regional authority and the local government. The date or dates must be as soon as administratively feasible, but not later than 180 days after the approval date. The initial terms of employment, including for purposes of pension and other benefits, for transferring employees must be substantially similar to the terms of employment for the employees immediately before the transfer. The regional authority shall offer to enter into a collective bargaining agreement covering transferring employees who on their transfer date were covered by a collective bargaining agreement with the local government. The agreement offered by the regional authority must have substantially similar terms of employment as the local government collective bargaining agreement and remain in effect for the same period. The regional authority shall become the employer of transferring employees on the date of transfer without a break in employment and shall recognize the length of service of the transferring employees with the local government for purposes of the regional authority's benefit plans and programs. The local government is not an employer of any employee at the airport after the transfer date. The accrued local government pension benefits or credits of a transferring employee must not be diminished because of the transfer. Instead, the pension benefits and credits must be transferred to the retirement system or pension plan established by the regional authority as provided in subsections (2) and (3).

(2) By the approval date, the regional authority shall establish a retirement system or pension plan that initially provides benefits to each transferring employee that are substantially similar to the benefits provided by the local government's retirement system or pension plan before the approval date. The regional authority's retirement system or pension plan shall credit a transferring employee for his or her prior employment with the local government, including for purposes of eligibility, vesting, and accruals, and the employee shall make any mandatory employee contribution to the regional authority's retirement system or pension plan.

(3) The local government shall, as soon as administratively feasible, but not later than 180 days after all employee transfers under subsection (1), transfer to the trustees of the regional authority retirement system or pension plan both of the following:

(a) For defined benefit plans, all accrued benefits, all accrued liabilities, and a share of the assets of the local government's plan sufficient to fund the transferring employees' accrued benefits to the extent that the benefits have been funded by the local government on or before the transfer date.

(b) For defined contribution plans, the amount credited to each transferring employee's account in the local government's retirement system or pension plan on or before the transfer date. For purposes of this subparagraph, the local government shall fully vest the account of the transferring employee on the day immediately preceding the transfer date and shall make contributions on behalf of the transferring employee for the portion of the transfer year in which the employee was employed by the local government and eligible to participate in the plans regardless of any allocation requirements that otherwise might prevent the transferring employee from receiving a contribution for the year of the transfer.

(4) The local government shall transfer the amounts to be transferred under subsection (3) in cash or in

some other form acceptable to the trustees. The transfer of money to the trustees under this subsection terminates the local government's obligation to the transferring employees and the transferring employees' rights under the local government's retirement system and pension plans.

(5) If the local government has an obligation to provide retiree health benefits or payments to transferring employees, the regional authority shall assume the obligations. The regional authority shall not assume obligations in excess of the amount properly allocable to the transferring employees. The local government shall, as soon as administratively feasible but not later than 180 days after all employee transfers under subsection (1), transfer to the regional authority an amount sufficient to fund the transferring employees' accrued benefits to the extent that the benefits have been funded by the local government on or before the transfer date. The regional authority shall transfer the amounts required to be transferred under this subsection to a qualifying entity established by the regional authority in cash, or in some other form acceptable to the qualifying entity. The transfer of money to a qualifying entity established by the regional authority under this subsection terminates the local government's obligations to the transferring employees and the transferring employees' rights to receive the benefits from the local government.

(6) This section only applies to local government employees who transfer their employment to the regional authority in accordance with this section.

(7) An employee hired by the regional authority, other than a transferring employee, is eligible to participate in the benefit plans established by the regional authority, in accordance with and subject to the terms of the plans as established by the regional authority, in its sole discretion.

(8) As used in this section:

(a) "Transfer date" means the earlier of the date of transfer or the deadline for transfer of employment to the regional authority.

(b) "Transferring employee" means an employee at the airport who timely transfers to the regional authority by the transfer date.

259.147 Transfer of operational jurisdiction of other publicly owned airports to regional authority.

Sec. 147. A regional authority may accept the transfer of operational jurisdiction of other publicly owned airports, in and outside of the local government. In accepting a transfer, the regional authority shall not assume financial obligations other than those associated with the operation of the airport being transferred and with debt issued to finance improvements at the airport being transferred.

History: Add. 2015, Act 95, Imd. Eff. June 30, 2015.

259.148 Issuance of bonds, notes, or other evidences of indebtedness by regional authority.

Sec. 148. (1) For the purpose of acquiring, purchasing, constructing, improving, installing, enlarging, furnishing, equipping, reequipping, or repairing airports and airport facilities for which operational jurisdiction is transferred under this chapter or is acquired by the regional authority, a regional authority may issue self-liquidating bonds of the authority in accordance with and exercise all of the powers conferred on public corporations by the revenue bond act of 1933, 1933 PA 94, MCL 141.101 to 141.140.

(2) A regional authority may borrow money and issue municipal securities in accordance with and exercise all of the powers conferred on municipalities by the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821.

(3) All bonds or other evidences of indebtedness issued by a regional authority under this chapter, and the interest on them, are free and exempt from all taxation in this state, except inheritance and estate taxes and taxes on gains realized from the sale, payment, or other disposition of them.

(4) On request of the board of a regional authority, the legislative body may take 1 or more of the following actions:

(a) Pledge the full faith and credit of the local government behind any obligation or evidence of indebtedness of the regional authority.

(b) Advance money to the regional authority for working capital and other purposes of the regional authority on terms and conditions agreed to by the regional authority and the local government consistent with obligations under applicable federal law, regulations, and assurances associated with accepting grants from the FAA or another agency of the United States or this state.

(c) Appropriate and grant money to the regional authority in furtherance of its purposes.

(d) Grant and convey to the regional authority real or personal property of any kind or nature, or any interest in real or personal property, for carrying out the authorized purposes of the regional authority.

(5) A pledge made under subsection (4) must be at the discretion of the legislative body and may be

subject to an agreement providing for terms and conditions of the pledge and for repayment of any amount paid under the pledge as the regional authority and the local government determine to be necessary and advisable consistent with obligations under applicable federal law, regulations, and assurances associated with accepting grants from the FAA or another agency of the United States or this state.

(6) An agreement by an authority to repay an advance made under this section and any obligation incurred by the regional authority under the agreement is not subject to the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821.

(7) For the purpose of more effectively managing its debt service, a regional authority may enter into an interest rate exchange or swap, hedge, or similar agreement or agreements in connection with the issuance or proposed issuance of obligations or other evidences of indebtedness or in connection with its then outstanding obligations or other evidences of indebtedness. The authority may create a reserve fund for the payment of the interest rate exchange or swap, hedge, or similar agreement.

(8) An agreement entered into under this section must comply with all of the following requirements:

(a) The agreement is not a debt of the regional authority entering into the agreement for any statutory debt limitation purpose.

(b) The agreement is payable from general funds of the regional authority or, subject to any existing contracts, from any available money or revenue sources, including revenues that are specified by the agreement, securing the obligation or evidence of indebtedness in connection with the agreement.

(9) Notwithstanding anything in this chapter or any other law to the contrary, all ordinances, resolutions, and other proceedings of the local government with respect to any outstanding bonds, notes, or evidences of indebtedness or liability assumed by a regional authority under this chapter constitute a contract between the regional authority and the holders of the bonds, notes, or evidences of indebtedness or liability and must have their provisions enforceable against the regional authority or any or all of its successors or assigns, by mandamus or any other appropriate action or proceeding in law or in equity in any court of competent jurisdiction in accordance with law.

(10) Bonds, notes, or evidences of indebtedness or liability that are assumed by a regional authority under this chapter are payable solely from and secured solely by the sources of revenue that were pledged to those bonds, notes, or evidences of indebtedness or liability under the ordinance, resolution, or other proceedings of the local government.

(11) This chapter and any other law do not relieve a regional authority from any bonded or other debt or liability lawfully contracted by the local government with respect to the airport and outstanding on the effective date of the transfer of the operational jurisdiction over the airport to the regional authority.

(12) A regional authority shall not take any action to impair the rights or remedies of the holders of the bonds or other obligations of the local government that owns the airport that were lawfully issued before the transfer of operational jurisdiction of the airport to the regional authority.

(13) Beginning on the approval date, trustees, paying agents, and registrars for any obligation of the local government that has been assumed by the regional authority under section 144 shall perform all of their duties and obligations and provide all notices related to the obligations as if the regional authority were the issuer of the obligations. The trustees, paying agents, and registrars shall care for and consider all revenues and money pledged to secure obligations of the local government that have been assumed by the regional authority under section 144 as revenues and money of the regional authority. The regional authority shall indemnify and hold harmless the trustees, paying agents, and registrars from liability incurred in compliance with this subsection.

Sec. 149. The effectuation of the authorized purposes of a regional authority must be in all respects for the benefit of the people of the region the airport serves and in order to meet present and future state and regional needs with respect to the provision of adequate, safe, and efficient airport facilities and services to the public and to promote the economic development and well-being of this state. By performing an essential governmental function, the regional authority is not required to pay taxes or assessments of any kind or nature whatsoever on any property required or used for airport or airport facility purposes or on any rates, fees, rentals, receipts, or income at any time received by it.

259.187 Chemical test generally.

Sec. 187. (1) The amount of alcohol or the presence of a controlled substance, or both, or any drug or combination of drugs that renders a person incapable of safely operating an aircraft or acting as a crew member of an aircraft, in the operator's blood at the time alleged as shown by chemical analysis of that person's blood, urine, or breath is admissible into evidence in a criminal prosecution for a violation of section 185, 186, or of a local ordinance substantially corresponding to section 185(1), (2), or (3), or section 186.

(2) If a test is given, the results of the test shall be made available to the person charged or the person's attorney upon written request to the prosecution, with a copy of the request filed with the court. The prosecution shall furnish the report at least 2 days before the day of the trial and the results shall be offered as evidence by the prosecution in a criminal proceeding. Failure to fully comply with the request shall bar the admission of the results into evidence by the prosecution.

(3) Except in a prosecution relating solely to a violation of section 185(2), it shall be presumed that the operator was under the influence of intoxicating liquor if the person's blood at the time contained 0.02 grams or more per 100 milliliters of blood, per 210 liters of breath, or per 67 milliliters of urine at the time of testing as shown by chemical analysis of that person's blood, urine, or breath.

(4) A sample or specimen of urine or breath shall be taken and collected in a reasonable manner. Only a licensed physician, or an individual operating under the delegation of a licensed physician under section 16215 of the public health code, Act No. 368 of the Public Acts of 1978, being section 333.16215 of the Michigan Compiled Laws, and qualified to withdraw blood acting in a medical environment, at the request of a peace officer, may withdraw blood for the purpose of determining the amount of alcohol or the presence of

a controlled substance, or both, or the presence of any drug or combination of drugs that renders a person incapable of safely operating an aircraft or acting as a crew member of an aircraft, in the person's blood, as provided in this act. Liability for a crime or civil damages predicated on the act of withdrawing blood and related procedures shall not attach to a licensed physician or individual operating under the delegation of a licensed physician who withdraws or analyzes blood or assists in the withdrawal or analysis in accordance with this act unless the withdrawal or an analysis is performed in a negligent manner.

(5) The tests shall be administered at the request of a peace officer having reasonable grounds to believe the person has committed a crime described in subsection (1). A person who takes a chemical test administered at the request of a peace officer, as provided in this section, shall be given a reasonable opportunity to have a person of his or her own choosing administer 1 of the chemical tests described in this section within a reasonable time after his or her detention, and the results of the test shall be admissible and shall be considered with other competent evidence in determining the innocence or guilt of the defendant. If the person charged is administered a chemical test by a person of his or her own choosing, the person charged shall be responsible for obtaining a chemical analysis of the test sample. The person charged shall be informed that he or she has the right to demand that a person of his or her own choosing administer 1 of the tests provided for in subsection (1), that the results of the test shall be admissible and shall be considered with other competent evidence in determining the innocence or guilt of the defendant, and that the person charged shall be responsible for obtaining a chemical analysis of the test sample.

(6) The person charged shall be advised of the following:

(a) That if the person refuses the lawful request of a peace officer to take a test described in this section, a test shall not be given without a court order.

(b) That a written report will be forwarded by the peace officer to the federal aviation district office having jurisdiction over the county in which the person refused to submit to the test.

(c) That the person may be subject to sanctions as provided under federal law and regulations promulgated pursuant to federal law.

(7) This section shall not be construed as limiting the introduction of any other competent evidence bearing upon the question of whether or not the person was under the influence of intoxicating liquor or a controlled substance, or any drug or combination of drugs that renders a person incapable of safely operating an aircraft or acting as a crew member of an aircraft, or a combination of intoxicating liquor and a controlled substance or any drug or combination of drugs that renders a person incapable of safely operating an aircraft or acting as a crew member of an aircraft, or whether the person had an alcohol content of 0.02 grams or more per 100 milliliters of blood, per 210 liters of breath, or per 67 milliliters of urine, or whether the person acted or attempted to act as a crew member of an aircraft or operated an aircraft within 8 hours after the consumption of an intoxicating liquor or a controlled substance or any drug or combination of drugs that renders a person incapable of safely operating an aircraft or acting as a crew member of an aircraft.

(8) If after an accident the operator of an aircraft or a crew member of an aircraft involved in the accident is transported to a medical facility and a sample of the person's blood is withdrawn at that time for the purpose of medical treatment, the result of a chemical analysis of that sample shall be admissible in a criminal prosecution for a crime described in subsection (1) to show the amount of alcohol or the presence of a controlled substance, or both, or the presence of any drug or combination of drugs that renders a person incapable of safely operating an aircraft or acting as a crew member of an aircraft, in the person's blood at the time alleged, regardless of whether the person had been offered or had refused a chemical test. The medical facility or person performing the chemical analysis shall disclose the results of the analysis to a prosecuting attorney who requests the results for use in a criminal prosecution as provided in this subsection. A medical facility or person disclosing information in compliance with this subsection shall not be civilly or criminally liable for making the disclosure.

(9) If after an accident the operator of an aircraft or a crew member of an aircraft involved in the accident is deceased, a sample of the decedent's blood shall be withdrawn in a manner directed by the medical examiner for the purpose of determining blood alcohol content or presence of a controlled substance, or both, or the presence of any drug or combination of drugs that renders a person incapable of safely operating an aircraft or acting as a crew member of an aircraft.

The garage keeper may detain the aircraft at any time it is in his or her possession within 90 days after performing the last labor or furnishing the last supplies for which the lien is claimed. The lien, to the extent it is for labor and material furnished in making repairs upon an aircraft, has priority over all other liens upon the aircraft.

Sec. 205a. (1) If the vehicle subject to a lien under section 1 is an aircraft, the garage keeper's lien shall take priority over any prior lien unless the prior lienholder pays to the garage keeper the amount of the lien attributable to labor and materials, or the following applicable amount, whichever is less:

- (a) \$5,000.00 in the case of an aircraft that has a single engine of less than 150 horsepower.
- (b) \$10,000.00 in the case of an aircraft that has a single engine of 150 or more horsepower.
- (c) \$20,000.00 in the case of a multiengine, nonturbocharged aircraft, or an aircraft that is rated at less than 6,000 pounds maximum certificated gross takeoff weight.
- (d) \$40,000.00 in the case of a multiengine turbocharged aircraft, or an aircraft that is rated at 6,000 pounds or more maximum certificated gross takeoff weight.
- (e) \$100,000.00 in the case of a turboprop or turbojet aircraft.

(2) A payment made to a garage keeper under subsection (1) shall be added to the amount of the lien of the prior lienholder who made the payment, and shall be subtracted from the amount of the garage keeper's lien.

(3) The garage keeper's lien established in this act is the sole lien available to a garage keeper as to an aircraft, and the common law garage keeper's lien as to an aircraft is abolished.

History: Add. 2002, Act 35, Eff. May 15, 2002.

259.205b Garage keeper lien; filing of lien claim; sale; notice; purchase; disposition of surplus.

Sec. 205b. (1) If the charges described in section 1 for an aircraft are not paid when due, the garage keeper may, within 60 days after the last work or service is performed, file with the federal aviation administration aircraft registry, a claim of lien, duly acknowledged, stating the name and address of the lien claimant, the amount due, and describing the aircraft by make, model, serial number, and registration number. If charges described in section 1 for an aircraft are not paid within 60 days after a claim of lien together with an itemized statement of the account is delivered to the registered owner of the aircraft by personal service or service by registered or certified mail addressed to the last known address of the registered owner of the aircraft, and a record of the lien described above has been filed with the federal aviation administration aircraft registry, the garage keeper may sell the aircraft at public auction. The sale shall be held not less than 20 days or more than 60 days after the expiration of the 60-day period.

(2) Not later than 20 days before any sale is held, the garage keeper shall give written notice of the time and place of the sale to the federal aviation administration aircraft registry, to any lienholder as shown by the records of the federal aviation administration aircraft registry, and to the registered owner of the aircraft. Notice to the federal aviation administration aircraft registry and the lienholders shall be given by first-class mail, addressed to the federal aviation administration aircraft registry, and to the address of the lienholders. Notice to the registered owner of the aircraft shall be given personally or by certified mail, directly to the last known address of the registered owner. Notice of the time and place of the sale also shall be posted in a conspicuous place at the place of the sale and at every airport within a 25-mile radius of the place of the sale.

(3) The garage keeper may bid for and purchase the aircraft at the sale. If the garage keeper directly or indirectly purchases the aircraft at the sale, the proceeds of the sale shall be determined to be either the amount paid by the garage keeper or the fair cash market value of the aircraft as determined by a neutral aircraft appraiser immediately before the time of sale, whichever is the greater.

(4) Any surplus received at the sale, after all charges of the garage keeper have been paid and satisfied and all costs of sale have been deducted, shall be returned to any lienholder who has a properly recorded security interest in the aircraft or part of the aircraft before distribution of the proceeds of the sale is complete, and the balance shall be returned to the registered owner of the aircraft.

If a person violates this section, the lessee may bring an action for either of the following:

(a) To void the agreement.

(b) To recover damages in the amount of \$500.00, or actual damages, whichever is greater.

(3) As used in this section, "lessee" means a person renting an aircraft from another, regardless of the form of the rental agreement.
