(3) The state's appropriation for members' accrued service shall be an amount that if paid annually over a period of years determined by the board, but not to exceed 50 years, will amortize at the prescribed rate of interest the unfunded reserves for the accrued service portions of the retirement allowances to which the members may become entitled.

(10) Notwithstanding subsection (1), a member or deferred vested member may retire with a retirement allowance computed according to the applicable provisions of this section if all of the following apply:

- (a) The member or deferred vested member files a written application with the retirement board stating a

Sec. 24. (1) Unless otherwise provided by the member pursuant to this act, the surviving spouse of a deceased member, deferred vested member, or retirant having the service qualifications required by section 23 shall be entitled to receive a survivor's retirement allowance for life payable from the survivors' retirement fund. The survivor's retirement allowance shall be payable beginning on the day after the date of death of the member or deferred vested member, or beginning in the month after the month of death in the case of a retirant. If an eligible child or children also survive the member, deferred vested member, or retirant, and the child or children are under the care of the eligible surviving spouse, the survivor's retirement allowance shall begin as of the day after the date of death of the member or deferred vested member or the month after the month of death in the case of a retirant, without regard to whether the surviving spouse has attained 55 years of age. The benefits to an eligible child or children shall continue whether or not the surviving spouse remarries. If the eligible child or children, or any of them, are not under the care of the eligible surviving spouse, at the specific designation of the deceased member, deferred vested member, or retirant as provided in this act, a survivor's retirement allowance shall begin for the benefit of the eligible child or children as of the day after the date of death of the member or deferred vested member, or beginning in the month after the month of death in the case of a retirant. A deduction from the monthly survivor's retirement allowance shall not be made for any fraction of a month remaining at the time of a survivor's death or becoming ineligible.

(2) The survivor's retirement allowance shall be equal to 66-2/3% of the retirement allowance which the deceased member, deferred vested member, or retirant had earned on the date of death, as a member, deferred vested member, or retirant. If an eligible survivor, regardless of age, has in his or her care an eligible child or children of the deceased member, deferred vested member, or retirant, the survivor's retirement allowance shall be 75% of the retirement allowance, but when all the children have become ineligible, the survivor's retirement allowance shall be 66-2/3% of the retirement allowance.

(3) An adopted child of a member for the purposes of this act shall have the same status as a natural child of a member.

(4) If there is not a surviving spouse but an eligible child exists, or if an eligible child survives a surviving spouse, then the survivor's retirement allowance otherwise payable to the surviving spouse shall be paid in equal parts to each eligible child until the child becomes ineligible, and the total of the survivor's retirement allowance paid to any other child shall not be diminished because of the attainment of ineligible age, marriage, or death of an eligible child. The portion of the survivor's retirement allowance that was paid to a formerly eligible child who subsequently becomes ineligible shall be paid in equal parts among the remaining eligible children, if any, until no eligible children remain to be paid.

(5) Marriage or attainment of ineligible age, whichever occurs first, shall render a child of a member, deferred vested member, or retirant ineligible for further consideration in the payment of a survivor's retirement allowance or in the increase in the amount of the survivor's retirement allowance under this act.

(6) If the deceased member, deferred vested member, or retirant is survived by an eligible child or children who are not under the care of an eligible surviving spouse and if the deceased member, deferred vested member, or retirant has filed a written designation with the board, the survivor's retirement allowance or a part

of it shall be paid to or for the benefit of the eligible child or children in the shares and in the manner as provided in the written designation. The deceased member, deferred vested member, or retirant may provide in the written designation that payment of all or any part of the survivor's retirement allowance to a surviving spouse not having the care of all of the eligible children shall be deferred until the children become ineligible.

(7) If there is not a written designation by a member, deferred vested member, or retirant, and if the surviving spouse is not the biological parent of an eligible child or children, the survivor's retirement allowance shall be divided equally among the eligible survivors.

(8) Unless designated by a member, deferred vested member, or retirant, when an eligible child or all of the eligible children become ineligible, the surviving spouse at the time of the member, deferred vested member, or retirant's death shall receive the entire survivor's retirement allowance.

Sec. 53. (1) Each member shall, by virtue of the payment of the member contributions required to be paid to the retirement system, receive a vested interest in the refunds provided in section 55, and each member in consideration of the vested interest shall be considered to have agreed to, and authorized the deductions from the payments of salary of all contributions payable to the retirement system pursuant to this act.

A member who does not meet the requirement of section 23(1)(a) upon leaving service or a deferred vested member who accepts a refund, and again becomes a member, may receive service credit for prior service by paying to the retirement system, within 180 days after he or she again becomes a member, the full amount of money he or she has received as a refund together with interest at 6% per annum compounded annually from the time of the refund until the time of repayment.

38.1056 Undivided interest in assets of system.

Sec. 56. The assets of the system shall be invested as one fund, and no particular person, group of persons or entity shall have any right in any specific security or property, or in any item of cash other than an undivided interest in the whole as specified in the provisions of this act as it now exists or is subsequently amended.

beneficiary, or refund beneficiary was entitled. An adjustment in benefits shall not be made for an error totaling \$10.00 or less annually and the amount shall be debited or credited to the members' retirement fund.

38.1059a Retirement system as qualified pension plan; administrative requirements and benefit limitations; qualified military service.

Sec. 59a. (1) This section is enacted pursuant to section 401(a) of the internal revenue code, 26 USC 401, that imposes certain administrative requirements and benefit limitations for qualified governmental plans. This state intends that the retirement system be a qualified pension plan created in trust under section 401 of the internal revenue code, 26 USC 401, and that the trust be an exempt organization under section 501 of the internal revenue code, 26 USC 501. The board of trustees shall administer the retirement system to fulfill this intent.

(2) Notwithstanding any other provision of this act, the retirement system shall be administered in compliance with section 415 of the internal revenue code, 26 USC 415, and regulations under that section that are applicable to governmental plans and beginning January 1, 2010, applicable portions of the final regulations issued by the internal revenue service on April 5, 2007. Employer-financed benefits provided by the retirement system under this act shall not exceed the applicable limitations of section 415 of the internal revenue code, 26 USC 415, as adjusted by the commissioner of internal revenue under section 415(d) of the internal revenue code, 26 USC 415, to reflect cost of living increases, and the retirement system shall adjust the benefits, including benefits payable to retirants and retirement allowance survivors, subject to the limitation each calendar year to conform with the adjusted limitation. For purposes of section 415(b) of the internal revenue code, 26 USC 415, the applicable limitation shall apply to aggregated benefits received from all qualified pension plans for which the office of retirement services coordinates administration of that limitation. If there is a conflict between this section and another section of this act, this section prevails.

(3) The assets of the retirement system shall be held in trust and invested for the sole purpose of meeting the legitimate obligations of the retirement system and shall not be used for any other purpose. The assets shall not be used for or diverted to a purpose other than for the exclusive benefit of the members, vested former members, retirants, and retirement allowance beneficiaries before satisfaction of all retirement system liabilities.

(4) The retirement system shall return post-tax member contributions made by a member and received by the retirement system to a member upon retirement, pursuant to internal revenue service regulations and approved internal revenue service exclusion ratio tables.

(5) The required beginning date for retirement allowances and other distributions shall not be later than April 1 of the calendar year following the calendar year in which the employee attains age 70-1/2 or April 1 of the calendar year following the calendar year in which the employee retires. The required minimum distribution requirements imposed by section 401(a)(9) of the internal revenue code, 26 USC 401, shall apply to this act and be administered in accordance with a reasonable and good faith interpretation of the required minimum distribution requirements for all years to which the required minimum distribution requirements apply to this act.

(6) If the retirement system is terminated, the interest of the members, deferred vested members, retirants, and retirement allowance beneficiaries in the retirement system is nonforfeitable to the extent funded as described in section 411(d)(3) of the internal revenue code, 26 USC 411(d)(3), and related internal revenue service regulations applicable to governmental plans.

(7) Notwithstanding any other provision of this act to the contrary that would limit a distributee's election under this act, a distributee may elect, at the time and in the manner prescribed by the board of trustees, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover. This subsection applies to distributions made on or after January 1, 1993.

(8) For purposes of determining actuarial equivalent retirement allowances under this act, the actuarially assumed interest rate shall be 7% with utilization of the 1971 group annuity and mortality table.

(9) Notwithstanding any other provision of this act, the compensation of a member of the retirement system shall be taken into account for any year under the retirement system only to the extent that it does not exceed the compensation limit established in section 401(a)(17) of the internal revenue code, 26 USC 401(a)(17), as adjusted by the commissioner of internal revenue. This subsection applies to any person who first becomes a member of the retirement system on or after October 1, 1996.

(10) Notwithstanding any other provision of this act, contributions, benefits, and service credit with respect to qualified military service will be provided under the retirement system in accordance with section 414(u) of the internal revenue code, 26 USC 414(u). This subsection applies to all qualified military service on or after December 12, 1994. Beginning January 1, 2007, in accordance with section 401(a)(37) of the internal revenue code, 26 USC 401, if a member dies while performing qualified military service, for purposes of determining any death benefits payable under this act, the member will be treated as having resumed and then terminated employment on account of death.

Sec. 60. This act shall be known and may be cited as the “Michigan legislative retirement system act”.

History: 1957, Act 261, Eff. Sept. 27, 1957;—Am. 1974, Act 215, Eff. Dec. 31, 1974.

Sec. 61. (1) The retirement system shall provide an opportunity for each member who is a member on March 30, 1997, to elect in writing to terminate membership in Tier 1 and elect to become a qualified participant in Tier 2. An election made by a member under this subsection is irrevocable. The retirement system shall accept written elections under this subsection from members during the period beginning on January 2, 1998 and ending on April 30, 1998. A member who does not make a written election or who does not file the election during the period specified in this subsection continues to be a member of Tier 1. A member who makes and files a written election under this subsection elects to do all of the following:

(a) Cease to be a member of Tier 1 effective 12 midnight May 31, 1998.

(b) Become a qualified participant in Tier 2 effective 12:01 a.m., June 1, 1998.

(c) Except as otherwise provided in this subdivision, waive all of his or her rights to a pension, an annuity, a retirement allowance, an insurance benefit, or any other benefit under this act effective 12 midnight May 31, 1998. This subdivision does not affect a person's right to health benefits provided under this act pursuant to section 79.

(2) If an individual who was a deferred vested member on March 30, 1997, or an individual who was a former nonvested member on March 30, 1997 becomes a legislator or lieutenant governor and is again eligible for membership in Tier 1, the individual shall elect in writing to remain a member of Tier 1 or to terminate membership in Tier 1 and become a qualified participant in Tier 2. An election made by a deferred vested member or a former nonvested member under this subsection is irrevocable. The retirement system shall accept written elections under this subsection from a deferred vested member or a former nonvested member during the period beginning on the date of the individual's eligibility for membership and ending upon the expiration of 60 days after the date of that eligibility. A deferred vested member or former nonvested member who makes and files a written election to remain a member of Tier 1 retains all rights and is subject to all conditions as a member of Tier 1 under this act. A deferred vested member or former nonvested member who does not make a written election or who does not file the election during the period specified in this subsection continues to be a member of Tier 1. A deferred vested member or former nonvested member who makes and files a written election to terminate membership in Tier 1 elects to do all of the following:

(a) Cease to be a member of Tier 1 effective 12 midnight on the last day of the payroll period that includes the date of the election.

(b) Become a qualified participant in Tier 2 effective 12:01 a.m. on the first day of the payroll period immediately following the date of the election.

(c) Except as otherwise provided in this subdivision, waive all of his or her rights to a pension, an annuity, a retirement allowance, an insurance benefit, or any other benefit under Tier 1 effective 12 midnight on the last day of the payroll period that includes the date of the election. This subdivision does not affect an individual's right to health benefits provided under this act pursuant to section 79.

(3) After consultation with the retirement system's actuary, the retirement board shall determine the method by which a member, deferred vested member, or former nonvested member shall make a written election under this section. If the member, deferred vested member, or former nonvested member is married at the time of the election, the election is not effective unless the election is signed by the individual's spouse. However, the retirement board may waive this requirement if the spouse's signature cannot be obtained because of extenuating circumstances.

(4) An election under this section is subject to the eligible domestic relations order act, 1991 PA 46, MCL 38.1701 to 38.1711.

(5) If the board receives notification from the United States internal revenue service that this section or any portion of this section will cause the retirement system to be disqualified for tax purposes under the internal revenue code, then the portion that will cause the disqualification does not apply.

(b) For a member who is vested under section 23(1)(a) as of 12 midnight on May 31, 1998, the excess, if any, of the actuarial present value of the member's accumulated benefit obligation, over the amount specified in subdivision (a), from the member's retirement fund. Except as provided in subsection (5), for the purposes of this subsection, the present value of the member's accumulated benefit obligation is based upon the member's estimated credited service and estimated final salary as of 12 midnight on May 31, 1998. The actuarial present value shall be computed as of 12 midnight May 31, 1998 and shall be based on the following:

(2) For each member who elects to terminate membership in the retirement system under section 61(1), the retirement system shall recompute the amount transferred under subsection (1) not later than November 30, 1998 based upon the member's actual credited service and actual final salary as of 12 midnight May 31, 1998. If the recomputed amount differs from the amount transferred under subsection (1) by \$10.00 or more, not later than December 15, 1998, the retirement system shall do all of the following:

(a) Direct the state treasurer to transfer from the members' retirement fund to the qualified participant's account in Tier 2 the excess, if any, of the recomputed amount over the previously transferred amount together with interest from 12 midnight May 31, 1998 to the date of the transfer under this subsection, based upon 8% effective annual interest, compounded annually.

(b) Direct the state treasurer to transfer from the qualified participant's account in Tier 2 to the members' retirement fund the excess, if any, of the previously transferred amount over the recomputed amount, together with interest, from the date of the transfer made under subsection (1), based upon 8% effective annual interest, compounded annually.

(3) For a deferred vested member who elects to terminate membership in this retirement system under section 61(2), the retirement system shall direct the state treasurer to transfer a lump sum amount from the appropriate fund created under this act to the qualified participant's account in Tier 2 on or before the expiration of 60 days after the date of the individual's termination of employment. The retirement system shall calculate the amount to be transferred, which shall be equal to the sum of the following:

(a) The deferred vested member's accumulated contributions and applicable interest, if any, from the members' savings fund as of 12 midnight on the last day of the payroll period that includes the date of the

The actuarial present value shall be computed as of 12 midnight on that date and shall be based on the following:

(i) Eight percent effective annual interest, compounded annually.

(ii) A 50% male and 50% female gender neutral blend of the mortality tables used to project retiree longevity in the most recent annual actuarial valuation report.

(iii) A benefit commencement age, based upon the member's estimated credited service as of 12 midnight on the last day of the payroll period that includes the date of the election. The benefit commencement age shall be the younger of the following, but shall not be younger than the member's age as of 12 midnight on the last day of the payroll period that includes the date of the election:

(B) The deferred member's age, if the deferred member is at least 50 years old and the sum of his or her age and estimated credited service equals or exceeds 70.

(c) Interest on any amounts determined in subdivisions (a) and (b), from the first day of the payroll period immediately following the date of the election to the date of the transfer, based upon 8% effective annual interest, compounded annually.

(4) For each deferred vested member who elects to terminate membership in Tier 1 under section 61(2), the retirement system shall recompute the amount transferred under subsection (3) not later than the expiration of 90 days after the transfer occurs under subsection (3) based upon the deferred vested member's actual credited service and actual final salary as of 12 midnight on the last day of the payroll period that includes the date of the election. If the recomputed amount differs from the amount transferred under subsection (3) by \$10.00 or more, the retirement system shall do all of the following:

(a) Direct the state treasurer to transfer from the members' retirement fund to the qualified participant's account in Tier 2 the excess, if any, of the recomputed amount over the previously transferred amount together with interest from 12 midnight on the last day of the payroll period that includes the date of the election to the date of the transfer under this subsection, based upon 8% effective annual interest, compounded annually.

(b) Direct the state treasurer to transfer from the qualified participant's account in Tier 2 to the members' retirement fund the excess, if any, of the previously transferred amount over the recomputed amount, together with interest, from the date of the transfer made under subsection (3), based upon 8% effective annual interest, compounded annually.

(5) For the purposes of subsections (1) to (4), the calculation of estimated and actual present value of the member's or deferred vested member's accumulated benefit obligation shall be based upon methods adopted by the retirement system's actuary in consultation with the retirement board. The retirement system shall utilize the same actuarial valuation report used to calculate the amount transferred under subsection (1) or (3) when making the recomputation required under subsection (2) or (4). Estimated and actual final salary shall be determined as provided in section 9 as of 12 midnight on the date the member or deferred member ceases to be a member of Tier 1 under section 61.

(6) For a former nonvested member who elects to terminate membership in Tier 1 under section 61(2) and who has accumulated contributions standing to his or her credit in the members' savings fund, the retirement system shall direct the state treasurer to transfer a lump sum amount from the members' savings fund to the qualified participant's account in Tier 2 on or before the expiration of 60 days after the date of the individual's election to terminate membership. The retirement system shall calculate the amount to be transferred, which shall be equal to the sum of the following:

(a) The former nonvested member's accumulated contributions and applicable interest, if any, from the members' savings fund as of 12 midnight on the last day of the payroll period that includes the date of the election.

(b) Interest on any amounts determined in subdivision (a), from the first day of the payroll period immediately following the date of the election to the date of the transfer, based upon 8% effective annual interest, compounded annually.

(7) If the board receives notification from the United States internal revenue service that this section or any portion of this section will cause the retirement system to be disqualified for tax purposes under the internal revenue code, then the portion that will cause the disqualification does not apply.
