***** 38.2214a THIS SECTION IS REPEALED BY ACT 215 OF 1999 EFFECTIVE ON THE DATE THE SETTLEMENT AGREEMENT IN THE CASE OF MICHIGAN JUDGES ASSN V TREASURER OF THE STATE OF MICHIGAN, CASE NO. 98-DT-72771-CV (ED MI), BECOMES OF NO FURTHER FORCE AND

38.2214a Postretirement medical benefits.

Sec. 214a. (1) Following the date of the determination described in subsection (11) and following the date of the election made under subsection (4), the retirement system shall provide postretirement medical benefits for eligible judges and their health benefit dependents and postdeath medical benefits for health benefit dependents who survive a deceased contributor. Medical benefits shall be provided from a separate account established under the retirement system pursuant to section 401(h) of the United States internal revenue code.

(2) A separate account, designated as the "medical benefit account", shall be maintained within the reserve for health benefits. The assets of the retirement system in excess of the amounts then credited to the medical benefit account shall not be used for providing medical benefits under this section. Except as otherwise provided in this section, the assets of the retirement system attributable to amounts then credited to the medical benefit account shall not be used or diverted for any purpose other than providing medical benefits.

(3) A separate account, designated as the "medical benefit administrative account", shall be maintained within the reserve for health benefits. Administrative costs of maintaining the medical benefit account shall be paid out of the medical benefit administrative account. Eligible judges making contributions to the medical benefit account consent as a condition of participation that transfers may be made from the subaccounts of each contributor to the medical benefit administrative account equal to no more than 25% of the earnings of funds on account in their respective subaccounts.

(4) Upon becoming a member of Tier 1 or a qualified participant in Tier 2, and at such other times as the department shall permit, an eligible judge may elect to become a contributor and make contributions to the medical benefit account in an amount not to exceed the maximum contribution then permitted under subsection (5). Each eligible judge who is a member of Tier 1 or a qualified participant in Tier 2 may elect to make contributions to the medical benefit account during an election period of not less than 90 days as determined by the retirement system. Within the medical benefit account, the department shall maintain a subaccount for each contributor that reflects all contributions made by or for that contributor, adjusted for investment experience and payment of medical benefits. The employer of the contributor shall pick up the contributor's contributions in whole or in part and may require that its contributions be derived from a reduction in the contributor's cash salary. If the contributor's contributions are picked up by the employer on a salary-reduction basis, the contributor's election shall be irrevocable to the extent required by section 401(h) of the United States internal revenue code. Contributions picked up under this subsection on a salary-reduction basis are not included as gross taxable income of the contributor. The value of medical benefits provided from a contributor's subaccount shall not be included in the income of the retired contributor or the contributor's health benefit dependents.

(5) The benefits to be provided from the medical benefit account, together with life insurance, if any, provided under the retirement system, are intended to be subordinate to retirement benefits under the retirement system. Accordingly, contributions in calendar years after 1999 credited to a contributor's subaccount, together with contributions, if any, that may be made to provide life insurance for the contributor under the retirement system, shall not exceed an aggregate amount equal to 1/3 of the contributions, including employee contributions, made for those years to provide a retirement allowance for the contributor under Tier 1 or Tier 2 of the retirement system. For purposes of applying a limitation established by this subsection, the retirement system may rely on an actuarial certification prepared by the actuary, demonstrating compliance, and reasonable actuarial assumptions selected by the actuary shall apply for purposes of determining the aggregate contributions for retirement allowances to be determined under this subsection. The retirement system shall determine the method, timing, and limits applicable to all contributors. In no case shall a determination made by the retirement system exceed the maximum provided by this subsection.

(6) All payments or reimbursements of medical benefits shall be charged against the balance of the retired contributor's subaccount. Payments or reimbursements shall not be made after the subaccount has been exhausted. Medical benefits to be provided from the medical benefit account shall consist of any of the following as applicable:

(a) Payment of premiums for the retired contributor and the contributor's health benefit dependents under the state health plan, the state dental plan, and the state vision plan if the contributor and dependents are enrolled in any of those plans.

(b) Payment or reimbursement of premiums or other charges for coverage of the retired contributor and the contributor's health benefit dependents under any group health plan within the meaning of section 5000(b)(1) of the United States internal revenue code.

(c) Payment or reimbursement of premiums or other charges to obtain health insurance coverage within the meaning of section 9832(b)(1) of the United States internal revenue code for the retired contributor and the

contributor's health benefit dependents.

(d) Payment or reimbursement of expenses paid or incurred for the medical care, as defined in section 213(d)(1) of the United States internal revenue code, of the retired contributor and the contributor's health benefit dependents.

Payment or reimbursement of premiums, charges, and expenses shall be made only upon presentation of proper documentary evidence of amounts, dates of coverage or service, recipient of coverage or service, and such other information as the department shall require.

(7) While a contributor or retired contributor remains alive, the department shall comply with the contributor's written directions in regard to the type of medical benefits to be provided under this subsection and the allocation of the medical benefits among the retired contributor and the contributor's health benefit dependents if the directions comply with this subsection and the requirements of the department in regard to the form and content of the written directions. The department shall also afford each contributor the opportunity to give written directions in regard to the allocation of medical benefits to and among some or all of the contributor's surviving health benefit dependents following the contributor's death as designated on a beneficiary form developed by the retirement system. Upon death of the contributor and while funds remain in the contributor's subaccount, the department shall observe the written directions in allocating medical benefits among the contributor's surviving health benefit dependents, while giving the dependents or their legal representatives a reasonable opportunity to select the type of medical benefits to be provided. In the absence of valid written directions from the contributor in regard to the allocation of medical benefits following the contributor's death, the department shall allocate funds remaining in the contributor's subaccount to provide medical benefits to the contributor's surviving health benefit dependents, until all funds have been expended.

(8) If there is a balance remaining in the subaccount of a contributor or retired contributor following the deaths of the contributor and all of the contributor's health benefit dependents, then that balance shall be forfeited and distributed to the medical benefit administrative account.

(9) As used in this section:

(a) "Contributor" means an eligible judge who has elected to make contributions to the medical benefit account created under this section.

(b) "Eligible judge" means a judge of the circuit court, the district court, or the probate court.

(c) "Former member" means an individual who was a member and who terminates employment upon which his or her membership is based for any reason.

(d) "Retired contributor" means a contributor who becomes a former qualified participant and attains the benefit commencement age, or who becomes a former member who either attains age 60 or meets the membership requirements for a retirement allowance under section 501(1).

(10) Contributions shall not be picked up by this state pursuant to this section until the department receives notification from the United States internal revenue service that such contributions will not be included as gross income of the contributor.

(11) This section does not apply until the department receives notification from the United States internal revenue service that the establishment of the medical benefit account under this section does not cause the retirement system to be disqualified for tax purposes.

38.2215 Determination of actuarial cost; establishing method; calculation.

Sec. 215. The retirement board and the department shall establish the method of determining the actuarial cost. The actuary shall calculate the actuarial cost based upon the product of the following elements:

(a) A percentage that when multiplied by a member's compensation results in the average actuarial present value of the additional benefits resulting from the crediting of 1 additional year of service. The percentage may vary because of the member's age, credited service, or plan member classification or the retirement allowance beneficiary's age.

(b) A member's compensation.

(c) The number of years and fraction of a year of service a member elects to purchase up to the maximum, if any.

38.2216 Compliance with reciprocal retirement act.

Sec. 216. The retirement system shall comply with the reciprocal retirement act, 1961 PA 88, MCL 38.1101 to 38.1106, if a resolution electing to come under the provisions of the reciprocal retirement act, 1961 PA 88, MCL 38.1101 to 38.1106, is in effect.

38.2217 Court fee fund; applicability of section.

Sec. 217. (1) A court fee fund is created in the state treasury. The state treasurer shall deposit into the court fee fund all money received from the executive secretary pursuant to section 304(4). The state treasurer shall, if funds remain in the court fee fund after the transfer described in subsection (3), transmit a portion of the money in the court fee fund, not exceeding \$2,200,000.00 in any fiscal year, to the court equity fund created by section 151b of the revised judicature act of 1961, 1961 PA 236, MCL 600.151b. If the court fee fund exceeds \$2,200,000.00 in any fiscal year and \$2,200,000.00 is transmitted to the court equity fund, an amount may be appropriated from the court fee fund for operational expenses of trial courts. Operational expenses may include the payment of salaries of trial court judges other than judges of the district court. Any money remaining in the court fee fund at the end of the fiscal year shall remain in the court fee fund and shall not revert to the general fund.

(2) Notwithstanding any other provision of this act, if the retirement board establishes an arrangement and fund described in section 6 of the public employee retirement benefit preservation act, the benefits that are required to be paid from that fund shall, to the extent permitted by applicable law, be paid from a portion of the money in the court fee fund and any earnings on those amounts or other eligible funds. The retirement board shall determine the amount of the employer contributions or other eligible funds that shall be allocated to that fund and deposit that amount in that fund.

(3) The state treasurer shall, if funds remain in the court fee fund after the transfer described in subsection (2), transmit a portion of the money in the court fee fund and any earnings on those amounts to the reserve for health benefits created by section 214 to pay expected health care costs for the subsequent fiscal year that are not covered as a result of employee contributions under sections 305(1) and 714(6), and to pay, in an amount not to exceed \$100,000.00 in each fiscal year, any health care costs not paid from the reserve for health benefits since fiscal year 1996-1997.

(4) This section applies unless the department receives notification from the United States internal revenue service that this section will cause the retirement system to be disqualified for tax purposes under the internal revenue code.

ARTICLE III

38.2301 Actuary; duties.

Sec. 301. (1) The retirement system shall direct the actuary to do all of the following:

(a) Determine the annual level percent of payroll contribution rate to finance the benefits provided under this act by actuarial valuation pursuant to subsections (2) and (3), and upon the basis of the risk assumptions that the retirement board and the department adopt after consultation with the state treasurer and the actuary.

(b) Make an annual actuarial valuation of the retirement system in order to determine the actuarial condition of the retirement system and the required contribution to the retirement system.

(c) Make an annual actuarial gain-loss experience study of the retirement system in order to determine the financial effect of variations of actual retirement system experience from projected experience.

(2) The actuary shall compute the contribution rate for monthly benefits payable in the event of death of a member before retirement or the disability of a member using a terminal funding method of actuarial valuation.

(3) The actuary shall compute the contribution rate for benefits other than those described in subsection (2) using an individual projected benefit entry age normal actuarial cost method. The contribution rate for service that may be rendered in the current year, known as the normal cost contribution rate, is equal to the aggregate amount of individual entry age normal costs divided by 1% of the aggregate amount of active members' valuation compensation. The contribution rate for unfunded service rendered on or before the last day of the fiscal year, known as the unfunded actuarial accrued liability contribution rate, is equal to the aggregate amount of unfunded actuarial accrued liabilities divided by 1% of the actuarial present value over a period not to exceed 40 years of projected benefit compensation, where unfunded actuarial accrued liabilities are equal to the actuarial present value of benefits reduced by the actuarial present value of future normal costs and the actuarial value of assets on the last day of the fiscal year.

History: 1992, Act 234, Eff. Mar. 31, 1993.

Compiler's note: In subsection (3), the instances of "1%" were originally printed with the numeral "1" represented by the alphabet character "I" and evidently should read "1%."

38.2302 Annual appropriation; determination and certification of amount.

Sec. 302. (1) Except as provided in subsection (2), the legislature shall annually appropriate to the retirement system the amount determined under subsection (2) in order to fund the retirement system on an estimated basis for the fiscal year for which the appropriation is made. The legislature shall annually appropriate to the retirement system the amount determined under subsection (3) in order to reconcile the estimated appropriation made in the previous fiscal year with the actual appropriation needed to adequately fund the retirement system for the previous fiscal year.

(2) The legislature shall annually appropriate to the retirement system an amount equal to 3.5% of the aggregate annual compensation or the difference between the sum of the contribution rates determined under section 301(2) and (3) multiplied by the aggregate annual compensation and the estimated revenue from court fees under section 304, whichever is greater. The department shall submit the amount determined under this subsection in the executive budget to the legislature for appropriation in the next fiscal year. If the department receives notification from the United States internal revenue service that this subsection will cause the retirement system to be disqualified for tax purposes under the internal revenue code, this subsection does not apply and subsection (4) applies.

(3) Not later than 60 days after the termination of each state fiscal year, the bureau of retirement systems shall certify to the director of the department the actual aggregate annual compensation paid to all active members during the preceding state fiscal year and the difference, if any, between the actual actuarial funding requirement and the sum of the actual revenue received by the retirement system during the preceding fiscal year from the appropriation pursuant to subsection (2) or (4), whichever is applicable, employer contributions pursuant to section 303, court filing fees pursuant to section 304, and mandatory member contributions pursuant to section 305. The department shall submit the amount determined under this subsection in the executive budget to the legislature for appropriation in the next fiscal year.

(4) If applicable, the bureau of retirement systems in the department shall certify to the director of the department an amount equal to the difference between the estimated actuarial funding requirement for the next fiscal year and the sum of the estimated revenue to be received by the retirement system during the next fiscal year from employer contributions pursuant to section 303, court fees pursuant to section 304, and mandatory member contributions pursuant to section 305. The department shall submit the amount determined under this subsection in the executive budget to the legislature for appropriation in the next fiscal year.

38.2303 Thirty-sixth district court; annual contribution; amount; plan 3b or 3c member supplemental salary payment.

Sec. 303. (1) The reporting unit for the district court in the thirty-sixth district shall contribute annually to the retirement system for each member who is a judge of the thirty-sixth district court an amount equal to the product of the total annual additional salary paid to the member pursuant to section 8202 of the revised judicature act of 1961, Act No. 236 of the Public Acts of 1961, being section 600.8202 of the Michigan Compiled Laws, and the annual level percent of payroll contribution rate determined under section 301. The supreme court shall subtract the figure calculated in this subsection from the salary standardization payment paid to the reporting unit for the thirty-sixth district, prorated on the basis of the frequency with which this state makes salary standardization payments to the reporting unit.

(2) The reporting unit that pays a plan 3b member's or a plan 3c member's supplemental salary shall contribute annually to the retirement system an amount equal to the product of \$2,250.00 of the state salary standardization payment and the annual level percent required to fund the retirement system. The supreme court shall subtract the figure calculated in this subsection from the salary standardization payment paid to the reporting unit that pays the judge's salary prorated on the basis of the frequency with which this state makes salary standardization payments to the reporting unit that pays the judge's supplemental salary.

***** 38.2304 SUBSECTION (4) MAY NOT APPLY: See (4) of 38.2304 *****

38.2304 Deposit of court fees, late fees, and interest payments.

Sec. 304. (1) Except as provided in subsection (4), the retirement system shall transmit all court fees received by the executive secretary and all late fees and interest payments received under this section to the state treasurer for deposit in the reserve for employer contributions where these assets and earnings on these

assets shall be treated as pension assets.

(2) The retirement board may periodically establish a late fee and interest rate for all court fees that are not submitted to the executive secretary as prescribed in subsection (3). The retirement board shall establish a late fee of \$50.00 or more and an interest rate of 12% or more per year for a late transmittal of court fees.

(3) If the county treasurer, clerk of the circuit court, or clerk of the district court fails to transmit to the executive secretary all court fees by the twentieth day of the month following the month in which they are collected under the revised judiciary act, the retirement system shall assess a late fee for each late transmittal and an interest payment for each day the transmittal is late. Upon written notice from the executive secretary to the director of the supreme court finance office, the state treasurer shall withhold payment of the amount due under this section for late court fees, late fees, and interest payments from the salary standardization payment payable to a county or district control unit that fails to make timely court fee transmittals as required by this section.

(4) When the retirement system determines that the amount of court fees deposited into the reserve for employer contributions under subsection (1) equals the amount needed in addition to other publicly financed contributions to sustain the required level of publicly financed contributions, based upon the most recent actuarial valuation available at the beginning of the applicable fiscal year, the executive secretary shall transmit to the state treasurer the remainder of the court fees received during the fiscal year for deposit into the court fee fund created by section 217 where these assets and any earnings on these assets shall not be treated as pension assets for any purpose. This subsection applies unless the department receives notification from the United States internal revenue service that this subsection will cause the retirement system to be disqualified for tax purposes under the internal revenue code.

(a) A plan 1 member or a plan 2 member shall contribute 5% of the member's compensation. From this contribution, the retirement system shall deposit an amount equal to 2.0% of the member's compensation into the reserve for health benefits for hospital and medical-surgical and sick care benefits as provided in section 509.

(b) A plan 3a member, a plan 3b member, or a plan 5 member shall contribute 3.5% of the member's compensation.

Subsection (1) applies with respect to these contributions. The department shall determine the manner in which such contributions are paid. This subsection does not apply until the department receives notification from the United States internal revenue service that contributions picked up by this state pursuant to this subsection shall not be included as gross income of the member until they are distributed or made available to the member, retirant, retirement allowance beneficiary, or refund beneficiary.

(2) If the retirement system is required by the federal government pursuant to a court order to transmit a part of a member's accumulated contributions to a federal agency, the service credit that is covered by the payment shall be forfeited in the same manner as if the employee had requested and been paid a refund of the member's most recent contributions.

The member shall provide documentation of the other public service and shall pay into the reserve for member contributions the actuarial cost. The member shall relinquish for himself or herself and his or her beneficiaries all rights in and to a pension or annuity payable from another retirement system for the same period of service purchased under this section.

(2) The retirement system shall calculate the amount of service credit for other public service under subsection (1) on the same basis as provided in section 402(1).

38.2404 Election to purchase active duty service credit; request; documentation; payment to reserve; basis for calculating service credit.

Sec. 404. (1) A member who has 12 or more years of credited service may elect to purchase not more than 2 years of service credit for active duty by filing a request with the retirement system. The member shall provide documentation of the active duty and shall pay into the reserve for member contributions an amount equal to 5% of the member's annualized rate of compensation at the time payment is made multiplied by the number of years and months of active duty service that the member elects to purchase up to the maximum. The member shall relinquish for himself or herself and his or her beneficiaries all rights in and to a pension or annuity payable from another retirement system for the same period of service purchased under this section.

(2) The retirement system shall calculate the amount of service credit for active duty under subsection (1) on the same basis as provided in section 402(1).

38.2405 Accumulated contributions; payment to person ceasing to be member; payment to refund beneficiary before retirement allowance is payable; payment to refund beneficiary if retirant and option A beneficiary, option B beneficiary, or spouse dies; nomination of refund beneficiary.

Sec. 405. (1) Except as otherwise provided in this act, if a person ceases to be a member before satisfying the age and service requirements for a retirement allowance under section 501 or 501b, the retirement system shall pay to the person his or her accumulated contributions upon request.

(2) If a member dies and a retirement allowance is not or will not become payable on account of the member's death, the retirement system shall pay the deceased member's accumulated contributions at the time of death to the refund beneficiary. If a refund beneficiary is not nominated or the refund beneficiary fails to survive the deceased member, the retirement system shall pay the deceased member's accumulated contributions to the deceased member's estate or legal representative.

(3) If a retirant and his or her option A beneficiary, option B beneficiary, or spouse, if applicable, dies before an aggregate amount of retirement allowance equal to the deceased retirant's accumulated contributions at the time of retirement has been paid, the retirement system shall pay the difference between the deceased retirant's accumulated contributions and the aggregate amount of retirement allowance paid to the deceased retirant's refund beneficiary. If a refund beneficiary is not nominated or the refund beneficiary fails to survive the retirant and his or her option A beneficiary, option B beneficiary, or spouse, the retirement system shall pay the difference to the estate or legal representative of the last to die of the retirant or his or her option A beneficiary, option B beneficiary, or spouse.

(4) A judge or state official who becomes a member under section 401(1)(a) may nominate a refund beneficiary in the membership form under section 401 or a member, vested former member, or retirant may nominate a refund beneficiary in a nominating form furnished by the retirement system. A member, vested former member, or retirant shall file the nominating form with the retirement system, which form is not valid until received by the retirement system. The member or retirant may nominate a different refund beneficiary by delivering a new nominating form to the retirement system. The retirement system shall disregard the nomination of a refund beneficiary in the membership form and all nominating forms previously filed by a member or retirant upon receipt of a more recent nominating form under this subsection.

38.2406 Retirant authorized by supreme court to perform judicial duties for limited period or specific assignment; retirant elected or appointed by governor as judge or state official.

Sec. 406. (1) If a retirant is authorized by the supreme court to perform judicial duties for a limited period or a specific assignment pursuant to section 23 of article VI of the state constitution of 1963, the retirement system shall continue payment of his or her retirement allowance without change in amount or conditions. A retirant is not a member during the period he or she performs judicial duties for a limited period or a specific

assignment as authorized by the supreme court pursuant to section 23 of article VI of the state constitution of 1963.

(2) If a retirant is elected or appointed by the governor as a judge or state official, the retirement system shall suspend payment of the retirant's retirement allowance during the period he or she remains in office. The retirement system shall base the suspension of benefits on 1/12 of the annual retirement benefit for each month the retirant serves in the office to which he or she was elected or appointed. A retirant who is again elected as a judge or state official is a member pursuant to section 401. The retirement system shall recalculate the retirement allowance of a retirant who again becomes a member under this subsection if the member leaves office due to disability or death, or if the member again retires after serving 1 full term or more in office. A retirement allowance recalculated pursuant to this subsection is subject to section 503. The retirement system shall begin payment of the recalculated retirement allowance under this subsection to a person who again retires effective the first of the month following the month in which the person leaves office. If a retirant again becomes a member under this subsection but is not entitled to have his or her retirement allowance recalculated under this subsection, the retirement system shall begin payment of his or her retirement allowance without change in amount or conditions effective the first of the month following the month in which the person leaves office.

Sec. 501. (1) A member or vested former member who has 4 or more years of membership service and who meets 1 or more of the following requirements, except as otherwise provided in this subsection, is entitled to a retirement allowance computed under section 503:

(a) The member or vested former member is 60 years of age or older and has 8 or more years of credited service.

(b) The member or vested former member is 55 years of age or older and has 18 or more years of credited service of which the last 6 years are continuous service.

(c) The member or vested former member has 25 or more years of credited service of which the last 6 years are continuous service.

(d) The member or vested former member is 55 years of age or older but less than 60 years of age and has 12 or more, but less than 18, years of credited service, of which the last 6 years are continuous service. However, the retirement system shall permanently reduce the retirement allowance calculated under section 503 for a member who meets the requirements of this subdivision by the early retirement reduction percentage, which is 0.5% for each month, and fraction of a month, from the effective date of the member's retirement to the date of the member's sixtieth birthday.

(e) The member or vested former member is 60 years of age or older and has served 2 full terms in the office of governor, lieutenant governor, secretary of state, attorney general, or 1 full term in the office of legislative auditor general.

(2) A member or vested former member who meets or will meet the requirements of subsection (1) may retire by filing a written application with the retirement system on a form furnished by the retirement system. The member or vested former member shall state a date in the application on which he or she wishes to retire that is on or after the date the member or vested former member meets the requirements under subsection (1) and that is 30 days or more after the date the application is filed with the retirement system.

(3) The retirement system shall begin payment of the retirement allowance payable to a member or vested former member who retires under this section on the first day of the month after termination of service or the first day of the month that is 30 days or more after the application is filed with the retirement system, whichever is later. The retirement system shall pay a full month's retirement allowance for the month in which a retirant or retirement allowance beneficiary ceases to be eligible for continuation of benefits.

38.2501a Early retirement benefits act; system subject to regulation.

Sec. 501a. This retirement system is subject to the regulation of early retirement benefits act.

History: Add. 1996, Act 523, Eff. Mar. 31, 1997.

38.2502 Vested former member; entitlement to deferred vested service retirement allowance; forfeiture.

Sec. 502. A member who leaves office for a reason other than the member's retirement or death, who does not withdraw accumulated contributions, and who satisfies the service or term of office requirements of section 501(1) is a vested former member. Subject to section 501, a vested former member is entitled to a deferred vested service retirement allowance computed pursuant to section 503 or, if applicable, section 13a of former Act No. 198 of the Public Acts of 1951 or section 15 of former Act No. 165 of the Public Acts of 1954, as in effect at the time of termination of the vested former member's tenure in office. The vested former member shall forfeit his or her entitlement to a deferred vested service retirement allowance if the vested former member withdraws from the retirement system his or her accumulated contributions unless the service is reinstated as provided in section 402.

History: 1992, Act 234, Eff. Mar. 31, 1993.

38.2503 Member or vested former member; payment of straight life retirement allowance; calculation; payment for lifetime of retirant; election of optional retirement allowance.

Sec. 503. (1) Upon retirement as provided in this act, the retirement system shall pay to the member or vested former member a straight life retirement allowance computed under subsection (2). If the member retires under the provisions of section 501(1)(d), the retirement system shall reduce the straight life retirement allowance as provided in section 501(1)(d).

(2) The retirement system shall calculate the member's or vested former member's straight life retirement allowance pursuant to 1 of the following plan member classifications, as applicable:

(a) For a plan 1 member, the retirement allowance is 30% of the member's or vested former member's final compensation plus 3-3/4% of the member's or vested former member's final compensation multiplied by the number of years and fraction of a year of credited service in excess of 8 years of credited service but not more than 16 years of credited service. A retirant shall not receive a retirement allowance under this subdivision that exceeds 60% of his or her final compensation. A plan 1 member who was holding his or her respective office on July 12, 1978, may elect to receive a retirement allowance under this section for an amount equal to or less than the computed benefit or to receive a retirement allowance computed under the state employees' retirement system created by the state employees' retirement act, Act No. 240 of the Public Acts of 1943, being sections 38.1 to 38.48 of the Michigan Compiled Laws.

(b) For a plan 2 member, a plan 3 member, or a plan 4 member who has less than 12 years of credited service, the retirement allowance is 3% of the member's or vested former member's final compensation multiplied by the member's or vested former member's years and fraction of a year of credited service. For a plan 2 member, a plan 3 member, or a plan 4 member who has 12 or more years of credited service, the retirement allowance is 50% of the member's or vested former member's final compensation plus 2.5% of the member's or vested former member's final compensation multiplied by the number of years and fraction of a year of credited service in excess of 12 years of credited service but not more than 16 years of credited service. A retirant shall not receive a retirement allowance under this subdivision that exceeds 60% of his or her final compensation.

(c) For a plan 5 member, the retirement allowance is equal to the amount computed under subdivision (b) minus the amount of the straight life retirement allowance the member would have been entitled to receive or will receive from another publicly supported retirement plan as of August 31, 1981, based on the same judicial service accrued in the other publicly supported retirement plan as of August 31, 1981. The retirement system shall base the retirement allowance attributable to the same judicial service in another publicly supported retirement plan on service credit for service as a judge in that plan as a percent of total service credit in that plan.

(d) For a plan 6 member, the retirement allowance is 3% of the member's or vested former member's final compensation multiplied by the number of years and fraction of a year of credited service. A retirant shall not receive a retirement allowance under this subdivision that exceeds \$15,000.00 or 40% of his or her final compensation, whichever is greater. A retirant shall not receive a retirement allowance under this subdivision that when added to a retirement benefit payable under a county retirement plan exceeds 66-2/3% of his or her final compensation.

(e) For a plan 7 member, the retirement allowance is equal to the amount computed under this subdivision. A retirant shall not receive a retirement allowance under this subdivision that exceeds 66-2/3% of his or her final compensation. The retirement allowance under this subdivision equals the sum of the following, as applicable:

(i) 3.5% of the member's or vested former member's final compensation multiplied by the years and fraction of a year of service credited before January 1, 1983 for which the member or vested former member makes the 5% payment to the retirement system as provided in section 16(1)(d) of former Act No. 165 of the Public Acts of 1954, if any.

(ii) 3% of the member's or vested former member's final compensation multiplied by the years and fraction of a year of service credited before January 1, 1983 for which the 5% payment described in subdivision (i) is not made, but not to exceed 40% of the member's or vested former member's final compensation.

(iii) 3.5% of the member's or vested former member's final compensation multiplied by the years and fraction of a year of service credited after December 31, 1982.

(3) The retirement system shall pay a straight life retirement allowance to a retirant for his or her lifetime. Except as otherwise provided in section 508, the retirement system shall not make an additional retirement allowance payment upon the death of a retirant receiving a straight life retirement allowance other than the full month's retirement allowance payable for the month in which the retirant dies.

(4) At the time of retirement, a member or vested former member may elect to be paid an optional retirement allowance under an optional form of payment provided in section 506 in lieu of the straight life retirement allowance under this section.

38.2504 Plan 3 member; conversion of \$2,250.00 of state salary standardization payment; exemptions; limitations; state base salary of probate court judge; deduction and transfer of contribution.

Sec. 504. (1) Except as otherwise provided in this subsection, a judge who is a plan 3 member shall convert \$2,250.00 of the state salary standardization payment annually prescribed by law for any state fiscal year beginning after September 30, 1981 as an addition to the judge's state base salary for purposes of computation of a retirement allowance under this act. A judge who, within 30 days from taking office, files a written notice not to participate in the provisions of this subsection with the retirement system is exempt from this subsection. A judge who was serving on December 31, 1982 and who did not elect to convert \$2,250.00 of the state salary standardization payment under section 14a of former 1951 PA 198 is exempt from this section. For the purposes of the calculation of a judge's combined county, city, or district control unit retirement benefit, a judge who has not filed a written notice not to participate in the provisions of this subsection with the retirement system under this subsection or the former judges retirement system shall have the \$2,250.00 of the salary standardization payment subtracted from the final average compensation figure used to calculate the judge's county, city, or district control unit retirement benefit.

(2) Except as otherwise provided in this subsection, a judge who is a plan 3 member and who is not exempt from subsection (1) shall convert the balance of the state salary standardization payment annually prescribed by law but which, when added to \$2,250.00, does not exceed 40% of the difference between the state base salary and the maximum statutory salary established by the revised judiciary act for any state fiscal year beginning after September 30, 1982 as an addition to the judge's state base salary for purposes of computation of a retirement allowance under this act. A judge who, before April 1, 1983, or within 30 days from taking office, whichever is later, files a written notice not to participate in the provisions of this subsection with the retirement system is exempt from this subsection. For the purposes of the calculation of a judge's combined county, city, or district control unit retirement benefit, a judge who has not filed a written notice not to participate in the provisions of this subsection with the retirement system under this subsection or the former judges retirement system shall have the additional state salary standardization payment as an addition to the judge's state base salary for computation of a retirement allowance under this act subtracted from the final average compensation figure used to calculate the judge's county, city, or district control unit retirement benefit.

(3) The sum of the final compensation determined for each plan 3 member and the final average compensation figure used as the basis for determining the judge's retirement allowance as a member of a county retirement plan or a retirement system that was established pursuant to the municipal employees retirement act of 1984, 1984 PA 427, MCL 38.1501 to 38.1555, or that is subject to 1980 PA 443, MCL 38.841 to 38.846, shall not exceed the judge's total annual salary payable from all sources at the time of his or her retirement.

(4) For purposes of subsections (1) and (2), the state base salary of a judge of the probate court who is a plan 3 member is equal to the salary paid pursuant to section 821 of the revised judiciary act of 1961, 1961 PA 236, MCL 600.821.

(5) The department or the reporting unit shall deduct the member's required contribution for participation in the provisions of subsections (1) and (2) and section 504a from the member's compensation and shall transfer the contributions to the retirement system.

*SETTLEMENT AGREEMENT IN THE CASE OF MICHIGAN JUDGES ASSN V TREASURER OF THE STATE OF MICHIGAN, CASE NO. 98-DT-72771-CV (ED MI), BECOMES OF NO FURTHER FORCE AND EFFECT, IS RENDERED NULL AND VOID, OR IS OTHERWISE TERMINATED ******

38.2504a Plan 3 member; election; filing; manner; payment; definitions; applicability of section.

Sec. 504a. (1) A judge who is a plan 3 member may make the election prescribed in this subsection during the election period. A judge who makes the election under this subsection elects to convert the balance of the difference between the state base salary and the maximum statutory salary established by the revised judiciary act that is not already converted under section 504. The election is effective on the conversion date and converts the described balance as an addition to the judge's state base salary for the purposes of computation of a retirement allowance under this act. The retirement system shall accept written elections from plan 3 members during the election period. A member who does not make a written election or who does not file the election during the election period remains at the same level of state salary standardization payment conversion previously elected under this section, if any. A member who files a written election during the election period also elects to convert the balance of the difference between the state base salary and the maximum statutory salary established by the revised judiciary act that is not already converted under section 504 for all years of credited service through June 30, 1998. The retirement system shall determine the method by which a member shall make a written election under this subsection. Within 30 days after the request of a member, a reporting unit shall disclose to the member the effect an election under this subsection, if made, will have on the member's right as a retiree to health care benefits and any other benefits from that reporting unit. The election provided in this subsection is not intended to impair a member's right to receive health care benefits or other insurance benefits from a reporting unit.

(2) A member who makes the election under subsection (1) shall make a payment of an amount equal to the sum of the following:

(a) The actuarial cost of the conversion under subsection (1) as calculated by the retirement system, which shall be based upon methods adopted by the department and the retirement system's actuary in consultation with the retirement board.

(b) The member contributions that would have been paid from July 1, 1999 through the conversion date, as if the member had made the conversion under subsection (1) and had been a plan 3c member as of July 1, 1999.

(c) Interest on any amounts determined under subdivisions (a) and (b), from July 1, 1999 through the conversion date, based upon 8% effective annual interest, compounded annually.

(3) The retirement system shall accept as full or partial payment of the amount required to be paid by a member under subsection (2) an amount determined and transferred by any tax-qualified plan or rollover IRA, if any, including the municipal employees retirement system, 1984 PA 427, MCL 38.1501 to 38.1555. Transfer under this subsection shall occur on or before the conversion date, unless extended by the department for good cause. After receipt of the amount that is transferred to the retirement system under this subsection, the member shall pay to the retirement system under this subsection the balance of the amount due, if any, as calculated under subsection (2). Beginning with the pay period following the conversion date, the member shall pay the total amount due or the balance due, as appropriate, under subsection (2) by equal payments through deductions from compensation as provided in section 504 over a period not to exceed 100 pay periods. However, a member who files an application to retire and who has an outstanding balance due under subsection (2) shall pay the balance due on or before his or her retirement allowance effective date. A member may elect to have the deductions from compensation under this subsection be made on a salary reduction basis, which deductions shall be picked up by the member's employer. Contributions picked up under this section on a salary-reduction basis are not included as gross taxable income of the contributor.

(4) As used in this section:

(a) "Conversion date" means the first pay period following December 31, 2000 or a date 90 days following the close of the election period, whichever is later.

(b) "Election period" means an election period of not less than 60 days as determined by the retirement system following the notification from the internal revenue service described in subsection (5).

(5) This section does not apply until the department receives notification from the United States internal revenue service that the conversion of the balance of the difference between the state base salary and the maximum statutory salary established by the revised judiciary act under this section does not cause the retirement system to be disqualified for tax purposes.

(6) Contributions shall not be picked up by this state pursuant to this section until the department receives notification from the United States internal revenue service that such contributions will not be included as

gross income of the member until they are distributed or made available to the member, retirant, retirement allowance beneficiary, or refund beneficiary.

38.2505 Salary standardization payment as wages for social security reporting purposes.

Sec. 505. For a member who is a judge and who is receiving a state-paid salary, the salary standardization payment is considered wages for social security reporting purposes to the extent that a judge's state base salary is less than the social security maximum reportable wage for the calendar year. The department shall deduct the judge's employee contribution on the social security maximum reportable wage for the calendar year from the judge's salary paid by this state.

History: 1992, Act 234, Eff. Mar. 31, 1993.

38.2506 Election of straight life retirement allowance or optional retirement allowance.

Sec. 506. (1) Upon application for retirement under this act, a member or vested former member who meets the requirements of section 501 may elect to receive a retirement allowance as a straight life retirement allowance or as an optional retirement allowance under 1 of the payment options provided in this section. The member or vested former member shall file a written election with the retirement system before the effective date of the retirement allowance. If a member or vested former member fails to file a written election under this subsection, the member or vested former member is considered to have elected the straight life retirement allowance under section 503. The member or vested former member shall designate in the written election a retirement allowance beneficiary that shall be either the spouse, brother, sister, parent, or child, including an adopted child, of the member or vested former member. The amount of retirement allowance under options A and B are the actuarial equivalent of the amount of the straight life retirement allowance calculated under section 503. The options are as follows:

(a) Option A. The retirement system shall pay an optional retirement allowance to the retirant for life with the provision that upon the retirant's death, payment of the optional retirement allowance is continued throughout the lifetime of the retirement allowance beneficiary whom the member or vested former member designated in writing and filed with the retirement system at the time of election of the option.

(b) Option B. The retirement system shall pay an optional retirement allowance for life to the retirant with the provision that upon the retirant's death, payment of 1/2 of the optional retirement allowance is continued throughout the lifetime of the retirement allowance beneficiary whom the member or vested former member designated in writing and filed with the retirement system at the time of election of the option.

(2) Except as otherwise provided in this section, a retirant shall not change the election of a payment option or the designation of a retirement allowance beneficiary under subsection (1) after the retirement allowance effective date. If a retirant who elected a payment option under subsection (1)(a) or (b) dies, the retirement system shall pay the optional retirement allowance to the option A beneficiary or option B beneficiary effective the first day of the month following the retirant's death. If the option A or option B beneficiary designated under this section is the surviving spouse of the deceased retirant, the surviving spouse may elect to receive a retirement allowance as provided in section 508 in lieu of the survivor portion of the optional form of payment elected by the retirant under this section.

(3) If the option A beneficiary or option B beneficiary predeceases the retirant, the retirant's benefit reverts to a straight life retirement allowance and the retirement system shall begin payment of the straight life retirement allowance to the retirant effective the first day of the month following the option A or option B beneficiary's death.

(4) The retirement system shall provide each member or vested former member who applies for retirement a written explanation of the optional forms of payment under this section before the member or vested former member retires.

(5) If a retirant receiving an optional retirement allowance under this section is divorced from the spouse who had been designated the option A or option B beneficiary, the retirement system shall consider the election of the optional form of payment option under this section void if the judgment of divorce or award or order of the court, or an amended judgment of divorce or award or order of the court, described in the public employee retirement benefit protection act and dated after June 27, 1991 provides that the election of the optional form of payment option under this section is to be considered void by the retirement system and the retirant provides a certified copy of the judgment of divorce or award or order of the court, or an amended judgment of divorce or award or order of the court, to the retirement system. If the election of an optional form of payment under this section is considered void by the retirement system under this subsection, the retirant's retirement allowance shall revert to a straight life retirement allowance, including postretirement adjustments, if any, subject to an award or order of the court as described in the public employee retirement

benefit protection act. The retirement allowance shall revert to a straight life retirement allowance under this subsection effective the first of the month after the date the retirement system receives a certified copy of the judgment of divorce or award or order of the court. This subsection does not supersede a judgment of divorce or award or order of the court in effect on June 27, 1991. This subsection does not require the retirement system to distribute or pay retirement assets on behalf of a retirant in an amount that exceeds the actuarially determined amount that would otherwise become payable if a judgment of divorce had not been rendered.

(6) A member who continues active employment on or after the date he or she acquires 8 years of credited service or who becomes eligible for a retirement allowance as a vested former member under section 501, whichever occurs first, may file a written election with the retirement system to elect option A as provided in subsection (1)(a). The member or vested former member shall nominate a retirement allowance beneficiary in the written election in the same manner as if the member or vested former member were then retiring from service. If the beneficiary's death or divorce from the member or vested former member occurs before the effective date of the member's or vested former member's retirement, the member's or vested former member's election of option A and nomination of retirement allowance beneficiary is automatically revoked and the member or vested former member may again elect option A and nominate a retirement allowance beneficiary at any time before the effective date of retirement. If a member or vested former member who has made an election and nominated a retirement allowance beneficiary as provided in this subsection dies before the effective date of his or her retirement, then the retirement allowance beneficiary shall receive the retirement allowance that he or she would have been entitled to receive under option A if the member or vested former member had been retired on the date of the member's or vested former member's death. Except as otherwise provided by subsection (7), if a member or vested former member who has made an election under this subsection subsequently retires under this act, his or her election of option A takes effect at the time of retirement. The member or vested former member, before the effective date of retirement, but not after the effective date of retirement, may revoke his or her previous election of option A and elect to receive his or her retirement allowance as a straight life retirement allowance or under option B as provided for in subsection (1). This subsection does not apply on and after the date the settlement agreement in the case of Michigan judges assn v Treasurer of the State of Michigan, case no. 98-DT-72771-CV (Ed Mi), becomes of no further force or effect, is rendered null and void, or is otherwise terminated.

(7) If a member, vested former member, retiring member, or retiring vested former member is married on the effective date of the retirement allowance, an election under this section, other than an election of a payment option under subsection (1) naming the spouse as retirement allowance beneficiary, shall not be effective unless the election is signed by the spouse. However, this requirement may be waived by the retirement board if the signature of a spouse cannot be obtained because of extenuating circumstances. As used in this subsection, "spouse" means the person to whom the member, vested former member, retiring member, or retiring vested former member is married on the effective date of the retirement allowance.

38.2507 Disability; determination by medical adviser; notice to appeal; determination by medical committee; refusal to submit to medical examination; payment.

Sec. 507. (1) A member who has 8 or more years of credited service and who is physically or mentally totally disabled to perform his or her duties is entitled to retire due to disability as provided in this section. A member who has 8 or more years of credited service agrees to submit himself or herself to a medical examination by or under the direction of the medical adviser as required by the retirement board under this subsection. Upon written application for retirement due to disability filed with the retirement system by the member, the chairperson of the judicial tenure commission, or the chief justice of the supreme court, the retirement board shall request that the member submit to a medical examination by or under the direction of the medical adviser.

(2) The medical adviser, after a medical examination of the member, shall determine if the member is physically or mentally totally disabled to perform his or her duties, if the incapacity is likely to be permanent, and if the member should be retired due to disability. The medical adviser shall file a written report of the medical adviser's findings and shall certify his or her determination to the retirement system. The retirement board shall notify the member of the medical adviser's determination under this subsection by registered mail sent to his or her last known residence address.

(3) The member, before the expiration of 30 days after the date of the notice by the retirement board under subsection (2), may file a written notice to appeal the medical adviser's determination with the retirement system. If a notice to appeal the medical adviser's determination is filed by the member under this subsection, the retirement board shall establish a medical committee to hear the appeal. The medical committee consists of a physician appointed by the retirement board, a physician appointed by the member, and a physician

appointed by the first 2 physicians appointed under this subsection. The medical committee, after a medical examination of the member, shall determine if the member is physically or mentally totally disabled to perform his or her duties, if the incapacity is likely to be permanent, and if the member should be retired due to disability. The medical committee shall file a written report of the medical committee's findings and shall certify the medical committee's determination to the retirement system. The retirement board shall notify the member of the medical committee's determination under this subsection by registered mail sent to his or her last known residence address. The determination by a majority of the medical committee is binding upon the retirement system and the member.

(4) A member who refuses to submit to a medical examination required under this section and the refusal continues for 90 days or more; or a member for whom it is determined under this section that he or she should retire due to disability and who fails to retire before the expiration of 60 days after the retirement board sends notice of that determination under subsection (2) or (3), whichever is later, forfeits for himself or herself and his or her heirs and beneficiaries all rights in and to retirement benefits under this act except the refund of accumulated contributions.

(5) Upon determination under this section that a member who has 8 or more years of credited service is physically or mentally totally disabled to perform his or her duties, the retirement board shall retire the member due to disability. Upon retirement due to disability under this section, the retirement system shall pay to the disability retiree a retirement allowance calculated pursuant to section 503. At the time of retirement under this section, the member may elect to be paid an optional retirement allowance under an optional form of payment provided in section 506 in lieu of the straight life retirement allowance under section 503.

History: 1992, Act 234, Eff. Mar. 31, 1993.

38.2508 Death of member with 8 or more years of credited service or of vested former member before retirement; payment of retirement allowance.

Sec. 508. (1) If a member who has 8 or more years of credited service dies while in office or if a vested former member dies before retirement, the retirement system shall pay the following retirement allowance as applicable:

(a) If a member with 8 or more years of credited service dies while in office, or if a vested former member dies before retirement, and the member has an election of option A in force as provided in section 506(6), then the retirement allowance beneficiary shall receive the retirement allowance that he or she would have been entitled to receive under option A if the member or vested former member had been retired on the date of the member's or vested former member's death.

(b) If a member with 8 or more years of credited service dies while in office, or if a vested former member dies before retirement, and the member or vested former member does not have an election of option A in force as provided in section 506(6), and leaves a surviving spouse, the spouse shall receive a retirement allowance computed in the same manner as if the member had retired effective the day before the date of his or her death, elected option A, and nominated the spouse as retirement allowance beneficiary.

(2) If the deceased vested former member had met the service requirements of section 501(1)(d), the surviving spouse may elect to receive a permanently reduced retirement allowance equal to the amount the deceased vested former member would have received as reduced by section 501(1)(d).

(3) If a retiree dies, the retirement system shall pay the following retirement allowance as applicable:

(a) If the retiree elected a straight life retirement allowance under section 506, the surviving spouse shall receive 1/2 the amount of the retirement allowance computed under section 503, based upon the deceased member's final compensation and credited service.

(b) If the retiree elected an optional retirement allowance under section 506, the retirement allowance beneficiary shall receive a retirement allowance as provided under section 506(1)(a) or (b).

(4) If the deceased member, vested former member, or retiree does not leave a surviving spouse or if the surviving spouse dies after the member's, vested former member's, or retiree's death, the retirement system shall pay to each of the member's, vested former member's, or retiree's unmarried children under the age of 19 years a retirement allowance equal to an equal share of the amount of the retirement allowance payable to a surviving spouse under subsection (1)(b) or subsection (3)(a).

(5) The retirement system shall begin payment of a retirement allowance under this section to a surviving beneficiary of a deceased member or retiree under this section on the first day of the month following the month in which the member or retiree dies. The retirement system shall begin payment of a retirement allowance to a surviving beneficiary of a deceased vested former member on the first day of the month following the month in which the vested former member otherwise would have been eligible to begin receiving benefits under section 501. The retirement system shall terminate payment of a retirement allowance to a surviving beneficiary upon the surviving beneficiary's death.

(6) The retirement system shall begin payment of a retirement allowance to a child of a deceased member or retirant under this section on the first day of the month following the month in which the member or retirant dies without a surviving spouse or the first day of the month following the month in which the surviving spouse dies, whichever is later. The retirement system shall begin payment of a retirement allowance to a child of a deceased vested former member under this section on the first day of the month following the month in which the vested former member dies, the first day of the month following the month in which the vested former member could have retired under section 501 if there is no surviving spouse, or the first day of the month following the month in which the surviving spouse of the vested former member dies, whichever is later. The retirement system shall terminate payment of a retirement allowance to a child upon his or her adoption, marriage, becoming 19 years old, or death, whichever occurs first. However, the retirement system shall continue payment of a retirement allowance to a child who is attending school full-time during the period of full-time school attendance, but in no case beyond the child becoming 25 years old. Upon termination of a child's retirement allowance under this subsection, the retirement system shall divide that portion of the retirement allowance into equal shares and add it to the retirement allowance being paid to the remaining eligible children, if any, effective the first day of the month following termination of payment to the ineligible child.

(7) The retirement system shall not pay a retirement allowance under this section if an optional retirement allowance is being paid or will become payable to an option A beneficiary or option B beneficiary under section 506 or if a refund of accumulated contributions is paid under section 405.

(8) The surviving spouse of a deceased member may elect a refund of accumulated contributions in lieu of a retirement allowance under this section. The surviving spouse of a deceased retirant may elect to be paid a retirement allowance under this section in lieu of the survivor portion of the optional form of payment elected by the retirant under section 506.

(3) This section does not apply to a retirant or beneficiary of a deceased retirant who received an increased annuity under section 16b of the former probate judges retirement system.

ARTICLE VI

38.2601 False statement or violation as misdemeanor; penalty.

Sec. 601. A person who, with intent to deceive, makes a false statement in a report or record required under this retirement system, or who, with intent to deceive, violates this act or a rule promulgated under this act is guilty of a misdemeanor, punishable by imprisonment for not more than 90 days, or a fine of not more than \$500.00, or both.

History: 1992, Act 234, Eff. Mar. 31, 1993.

38.2602 Change or error in records; adjustment.

Sec. 602. If a change or error in the records of the retirement system results in a retiree, retirement allowance beneficiary, or refund beneficiary receiving from the retirement system more or less than the retiree, retirement allowance beneficiary, or refund beneficiary would have been entitled to receive had the records been correct, the retirement system shall as far as practical correct the error, and may adjust the payment to provide an actuarial equivalent of the benefit to which the retiree, retirement allowance beneficiary, refund beneficiary, estate, or legal representative was correctly entitled. The retirement system shall not make an adjustment in benefits for an error totaling \$20.00 or less annually.

History: 1992, Act 234, Eff. Mar. 31, 1993.

38.2603 Retirement board member or employee; prohibited acts.

Sec. 603. Except as provided in this act, a retirement board member or employee of the retirement board shall not have any interest, direct or indirect, in the gains or profits of any investments made of retirement system funds. Except as provided in section 202, a board member shall not, directly or indirectly, receive any pay for his or her services. A board member or person connected with the retirement board directly or indirectly, for himself or herself or as an agent or partner of others, shall not borrow any of the retirement system funds or deposits, or in any manner use retirement system funds except to make current and necessary payments that are authorized by the retirement board. A board member or employee of the retirement board shall not become an endorser of surety or become in any manner an obligor for money loaned by or borrowed from the retirement board.

History: 1992, Act 234, Eff. Mar. 31, 1993.

38.2604 Intent of act; employer-financed benefits; limitations; use of assets; returning post-tax member contributions; beginning date of distributions; minimum distribution requirements; termination of retirement system; election to rollover to retirement plan; interest rate; consideration of compensation; qualified military service.

Sec. 604. (1) This section is enacted under section 401(a) of the internal revenue code, 26 USC 401, which imposes certain administrative requirements and benefit limitations for qualified governmental plans. This state intends that the retirement system be a qualified pension plan created in trust under section 401 of the internal revenue code, 26 USC 401, and that the trust be an organization exempt from taxation under section 501 of the internal revenue code, 26 USC 501. The department shall administer the retirement system to fulfill the intent of this subsection.

(2) The retirement system shall be administered in compliance with the provisions of section 415 of the internal revenue code, 26 USC 415, and regulations under that section that are applicable to governmental

plans and, beginning January 1, 2010, applicable provisions of the final regulations issued by the Internal Revenue Service on April 5, 2007. Employer-financed benefits provided by the retirement system under this act must not exceed the applicable limitations set forth in section 415 of the internal revenue code, 26 USC 415, as adjusted by the commissioner of internal revenue under section 415(d) of the internal revenue code, 26 USC 415, to reflect cost-of-living increases, and the retirement system shall adjust the benefits, including benefits payable to retirants and retirement allowance beneficiaries, subject to the limitation each calendar year to conform with the adjusted limitation. For purposes of section 415(b) of the internal revenue code, 26 USC 415, the applicable limitation applies to aggregated benefits received from all qualified pension plans for which the office of retirement services coordinates administration of that limitation. If there is a conflict between this section and another section of this act, this section prevails.

(3) The assets of the retirement system must be held in trust and invested for the sole purpose of meeting the legitimate obligations of the retirement system and must not be used for any other purpose. The assets must not be used for or diverted to a purpose other than for the exclusive benefit of the members, vested former members, retirants, and retirement allowance beneficiaries before satisfaction of all retirement system liabilities.

(4) The retirement system shall return post-tax member contributions made by a member and received by the retirement system to a member on retirement, under Internal Revenue Service regulations and approved Internal Revenue Service exclusion ratio tables.

(5) The required beginning date for retirement allowances and other distributions must not be later than April 1 of the calendar year following the calendar year in which the employee attains age 70-1/2 or April 1 of the calendar year following the calendar year in which the employee retires. The required minimum distribution requirements imposed by section 401(a)(9) of the internal revenue code, 26 USC 401, apply to this act and must be administered in accordance with a reasonable and good faith interpretation of the required minimum distribution requirements for all years in which the required minimum distribution requirements apply to this act.

(6) If the retirement system is terminated, the interest of the members, vested former members, retirants, and retirement allowance beneficiaries in the retirement system is nonforfeitable to the extent funded as described in section 411(d)(3) of the internal revenue code, 26 USC 411, and related Internal Revenue Service regulations applicable to governmental plans.

(7) Notwithstanding any other provision of this act to the contrary that would limit a distributee's election under this act, a distributee may elect, at the time and in the manner prescribed by the retirement board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover. This subsection applies to distributions made after December 31, 1992.

(8) For purposes of determining actuarial equivalent retirement allowances under sections 506(1)(a) and (b) and 602, the actuarially assumed interest rate must be determined by the director of the department and the retirement board in consultation with the actuary using the mortality tables adopted by the department and the retirement board.

(9) Notwithstanding any other provision of this act, the compensation of a member of the retirement system must be taken into account for any year under the retirement system only to the extent that it does not exceed the compensation limit established in section 401(a)(17) of the internal revenue code, 26 USC 401, as adjusted by the commissioner of internal revenue. This subsection applies to an individual who first becomes a member of the retirement system after September 30, 1996.

(10) Notwithstanding any other provision of this act, contributions, benefits, and service credit with respect to qualified military service will be provided under the retirement system in accordance with section 414(u) of the internal revenue code, 26 USC 414. This subsection applies to all qualified military service after December 11, 1994. Beginning on January 1, 2007, in accordance with section 401(a)(37) of the internal revenue code, 26 USC 401, if a member dies while performing qualified military service, for purposes of determining any death benefits payable under this act, the member is treated as having resumed and then terminated employment on account of death.

38.2605 Effect of proceedings, rights, and liabilities existing under former judges retirement system or former probate judges retirement system.

Sec. 605. All proceedings pending and all rights and liabilities existing, acquired, or incurred under the former judges retirement system or former probate judges retirement system at the time this act takes effect are saved. Those proceedings shall be consummated pursuant to the law in effect when the proceedings were commenced. Those rights and liabilities shall be preserved pursuant to the law in effect on the day

immediately preceding the effective date of this act. To the extent that either the kinds of benefits available under the former judges retirement system or former probate judges retirement system as in effect on the day immediately before the effective date of this act or the manner of calculating those benefits under the former judges retirement system or former probate judges retirement system results in a greater benefit of any kind than would otherwise be available under this act or include a benefit not otherwise available under this act, the determinations of those kinds of benefits available and the manner of calculating those benefits shall be made pursuant to the former judges retirement system or former probate judges retirement system for those members who participated in the retirement system as set forth in the former judges retirement system or former probate judges retirement system before the effective date of this act.

History: 1992, Act 234, Eff. Mar. 31, 1993.

38.2606 Transfer of assets, rights, and obligations under former retirement systems to judges retirement system.

Sec. 606. All assets, rights, and obligations under the former judges retirement system and former probate judges retirement system are transferred to this retirement system. These assets, rights, and obligations shall continue to be accounted for in the various reserves created under this retirement system and all rights and liabilities existing under the former judges retirement system and former probate judges retirement system are preserved.

The retirement system shall accept written elections under this subsection from members during the period beginning on January 2, 1998 and ending on May 31, 1998. A member who does not make a written election or who does not file the election during the period specified in this subsection continues to be a member of Tier 1.
