

REDISTRICTING PLANS
Act 463 of 1996

AN ACT to establish guidelines for the decennial adoption of redistricting plans for the senate and house of representatives; to provide original jurisdiction to the supreme court to review redistricting plans enacted by the legislature for compliance with those guidelines; and to provide a procedure for the supreme court to use to redistrict the senate and house of representatives under certain circumstances.

History: 1996, Act 463, Eff. Mar. 31, 1997.

The People of the State of Michigan enact:

4.261 Redistricting plan for senate and house of representatives; enactment by legislature; guidelines.

Sec. 1. By November 1, 2001, and every 10 years thereafter, the legislature shall enact a redistricting plan for the senate and house of representatives. Except as otherwise required by federal law for legislative districts in this state, the redistricting plan shall be enacted using only the following guidelines:

- (a) The senate districts shall consist of 38 single-member districts.
- (b) The house of representatives districts shall consist of 110 single-member districts.
- (c) Senate and house of representatives districts shall be areas of convenient territory contiguous by land. Areas that meet only at the points of adjoining corners are not contiguous.
- (d) Senate and house of representatives districts shall have a population not exceeding 105% and not less than 95% of the ideal district size for the senate or the house of representatives unless and until the United States supreme court establishes a different range of allowable population divergence for state legislative districts.
- (e) Senate and house of representatives district lines shall preserve county lines with the least cost to the principle of equality of population provided for in subdivision (d).
- (f) If it is necessary to break county lines to stay within the range of allowable population divergence provided for in subdivision (d), the fewest whole cities or whole townships necessary shall be shifted. Between 2 cities or townships, both of which will bring the districts into compliance with subdivisions (d) and (h), the city or township with the lesser population shall be shifted.
- (g) Within those counties to which there is apportioned more than 1 senate district or house of representatives district, district lines shall be drawn on city and township lines with the least cost to the principle of equality of population between election districts consistent with the maximum preservation of city and township lines and without exceeding the range of allowable divergence provided for in subdivision (d).
- (h) If it is necessary to break city or township lines to stay within the range of allowable divergence provided for in subdivision (d), the number of people necessary to achieve population equality shall be shifted between the 2 districts affected by the shift, except that in lieu of absolute equality the lines may be drawn along the closest street or comparable boundary.
- (i) Within a city or township to which there is apportioned more than 1 senate district or house of representatives district, district lines shall be drawn to achieve the maximum compactness possible within a population range of 98% to 102% of absolute equality between districts within that city or township.
- (j) Compactness shall be determined by circumscribing each district within a circle of minimum radius and measuring the area, not part of the Great Lakes and not part of another state, inside the circle but not inside the district.
- (k) If a discontinuous township island exists within an incorporated city or discontinuous portions of townships are split by an incorporated city, the splitting of the township shall not be considered a split if any of the following circumstances exist:
 - (i) The city must be split to stay within the range of allowable divergence provided for in subdivision (d) and it is practicable to keep the township together within 1 district.
 - (ii) A township island is contained within a whole city and a split of the city would be required to keep the township intact.
 - (iii) The discontinuous portion of a township cannot be included in the same district with another portion of the same township without creating a noncontiguous district.
- (l) Senate and house districts shall not violate the precedents established in Miller v Johnson, 115 S Ct 2475; 132 L Ed 2d 762 (1995); Bush v Vera, 116 S Ct 1941; 135 L Ed 2d 248 (1996); and, Shaw v Hunt, 116 S Ct 1894; 135 L Ed 2d 207 (1996).
