(1) The authority is hereby authorized and empowered to acquire by purchase, whenever it considers such purchase expedient, solely from funds provided under the authority of this act, such lands, structures, property, rights, rights-of-way, franchises, easements, and other interests in lands, including lands lying under water and riparian rights, which are located within or without the state, as it considers necessary or convenient for the construction, repair, improvement, and operation of the project, upon such terms and at such prices as it considers to be reasonable and that can be agreed upon between it and the owner thereof, and to take title thereto in the name of the authority.

(2) Notwithstanding any contrary provision of law, the city of Sault Ste. Marie is authorized and empowered to lease, lend, grant, or convey to the authority at its request upon such terms and conditions as the city considers reasonable and fair and without the necessity for any advertisement, order of court, or other action of formality, other than the regular and formal action of the governing body of the city, any real property which may be necessary or convenient to the effectuation of the authorized purposes of the authority, including public highways and other real property already devoted to public use.

254.225 Revenue bonds; issuance, principal and interest payments, date, form, signatures, coupon or registered, sale, approval, proceeds, use; interim receipts or temporary bonds.

Sec. 5. The authority is hereby authorized to provide for the issuance, at one time or from time to time, of revenue bonds of the authority for the purpose of paying all or any part of the cost of the project. The principal of and the interest on such bonds shall be payable solely from the funds herein provided for such payment. The bonds shall be dated, shall bear interest at such rate or rates not exceeding 6% per annum, shall mature at such time or times not exceeding 40 years from their date, as may be determined by the authority,

and shall be made redeemable before maturity, at the option of the authority, at such price or prices and under such terms and conditions as may be fixed by the authority prior to the issuance of the bonds. The authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the bonds and the place or places of payment of the principal and interest, which may be at any bank or trust company within or without the state. The bonds shall be signed by the chairman of the authority or shall bear his facsimile signature, and the official seal of the authority or a facsimile thereof shall be impressed or imprinted thereon and attested by the secretary-treasurer of the authority, and any coupons attached thereto shall bear the facsimile signature of the chairman of the authority. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. The bonds may be issued in coupon or in registered form, or both, as the authority may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, for the reconversion into coupon bonds of any bonds registered as to both principal and interest, and for the interchange of registered and coupon bonds. The authority may sell such bonds in such manner and for such price as it may determine will best effect the purposes of this act, subject to the approval of the state administrative board of the state of Michigan.

The proceeds of the bonds shall be used solely for the payment of the cost of the project, and shall be disbursed in such manner and under such restrictions, if any, as the authority may provide in the resolution authorizing the issuance of such bonds or in the trust agreement hereinafter mentioned securing the same. If the proceeds of the bonds, by error of estimates or otherwise, shall be less than such cost, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the resolution authorizing the issuance of such bonds or in the trust agreement securing the same, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued. If the proceeds of the bonds shall exceed such cost, the surplus shall be deposited to the credit of the sinking fund for such bonds.

Prior to the preparation of definitive bonds, the authority may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The authority may also provide for the replacement of any bonds which shall become mutilated or shall be destroyed or lost. Bonds may be issued under the provisions of this act without obtaining the consent of any department, division, commission, board, bureau or agency of the state, and without any other proceedings or the happening of any other conditions or things than those proceedings, conditions or things which are specifically required by this act.

254.226 Revenue bonds; secured by trust agreement, pledge, provisions, indemnifying bonds, expenses, approval.

Sec. 6. In the discretion of the authority the bonds issued under the provisions of this act may be secured by a trust agreement by and between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the state. Such trust agreement or the resolution providing for the issuance of such bonds may pledge or assign the tolls and other revenues to be received, but shall not convey or mortgage the project or any part thereof. Such trust agreement or resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the authority in relation to the acquisition of property and the construction, improvement, maintenance, repair, operation and insurance of the project, the rates of toll to be charged, and the custody, safeguarding and application of all moneys. It shall be lawful for any bank or trust company incorporated under the laws of the state which may act as depository of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may be required by the authority. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as a part of the cost of the operation of the project. Such trust agreement or resolution shall be subject to the approval of the state administrative board of the state of Michigan.

254.227 Tolls; collection; contracts with public utilities; appropriation of revenue;

supervision and regulation; sinking fund; pledge.

Sec. 7. The authority is hereby authorized to fix, revise, charge, and collect tolls for the use of the project, and to contract with any person, partnership, association, or corporation for the placing of telephone, telegraph, pipelines, and electric light or power lines, or for any other purpose, and to fix the terms, conditions, rents, and rates of charges for such use. The tolls shall be fixed and adjusted so as to provide a fund sufficient with other revenues, if any, to pay the cost of maintaining, repairing, and operating the project and the principal of and the interest on the bonds as they become due and payable, and to create reserves for these purposes. Revenue collected from the use or disposition of the project is appropriated exclusively for those purposes. The tolls shall not be subject to supervision or regulation by any other commission, board, bureau, or agency of the state. The tolls and all other revenues derived from the project, except that part necessary to pay the cost of maintenance, repair, and operation and to provide reserves as may be provided for in the resolution authorizing the issuance of bonds or in the trust agreement securing the same, shall be set aside at such regular intervals as may be provided in the resolution or trust agreement in a sinking fund that is hereby pledged to, and charged with, the payment of the principal of and the interest on those bonds as they become due, and the redemption price or the purchase price of bonds retired by call or purchase as provided in the resolution or trust agreement. The pledge is valid and binding from the time when the pledge is made. The tolls and other revenues or other money so pledged and thereafter received by the authority shall immediately be subject to the lien of the pledge without any physical delivery or further act, and the lien of the pledge is valid and binding against all parties having claims of any kind in tort, contract, or otherwise against the authority, irrespective of whether the parties have notice of the lien. The resolution or trust agreement by which a pledge is created need not be filed or recorded except in the records of the authority. The use and disposition of money to the credit of the sinking fund are subject to the resolution authorizing the issuance of the bonds or the trust agreement. Except as may otherwise be provided in the resolution or trust agreement, the sinking fund is a fund for all the bonds without distinction or priority of one over another.
