Any interest or other income from the investment of the funds held in the trust account shall accrue to the benefit of the member. The department may, by rule or order, determine the conditions of the trust account. Funds placed with a continuing care community for continuing care at home are not subject to the requirements of this subsection.

(2) The department may require a deposit with an escrow agent acceptable to the department of an amount the department considers necessary for the continuing care community to fulfill its obligations if both of the following apply:

- (a) The department finds 1 or more of the following:

(i) An amount up to 75% of the funds as a result of occupancy of at least 75% of living units in the continuing care community. The continuing care community may request release of an additional 5% of the funds in proportion to each 5-percentage-point increase in occupancy. (c) Be in an amount that is at least equal to the total entrance fees that would be collected for the continuing care community and that allows the continuing care community to fulfill its obligations to members consistent with the purpose for imposition of the arrangement.

(d) Require that all proceeds deposited, held, or guaranteed under the arrangement remain the property of the respective members for whose account the proceeds were deposited and are not subject to any liens or charges by the escrow agent or to judgments, garnishments, or creditor's claims against the continuing care community until the proceeds are released pursuant to this section.

(e) Provide that, upon order of the department or a court of competent jurisdiction, the appropriate amount of funds described in this section shall be released and paid to the continuing care community or member as ordered.

(f) Require that quarterly balance statements be provided to the department directly from the escrow agent, financial institution, or other entity with custody of the funds and authorize the department to inspect the records pertinent to the arrangement.

(g) Comply with such other terms or conditions imposed by the department by rule or order.

(4) If a continuing care community fails to complete its obligations under a continuing care agreement, the financial institution that is a party to the alternative financial arrangement with the continuing care community shall, upon order of the department, pay funds to the department or its designee for the benefit of all members.

(5) If an instrument comprising an alternative financial arrangement expires or is canceled and the continuing care community is still under an obligation to provide certain items under the continuing care agreement, the continuing care community, at its option, may either establish a new alternative financial arrangement under subsection (1) or have the department impose under section 45(2) an escrow of entrance and other fees. Until an alternative financial arrangement acceptable to the department is established or escrow is imposed, the continuing care community shall not enter into any additional continuing care agreements. An alternative financial arrangement approved under this section may be released in whole or in part by order of the department, subject to the requirements for release of escrow funds pursuant to section 45.

554.963 Investigations.

Sec. 63. (1) The department may conduct investigations within or outside this state to determine if any of the following apply:

(a) An offering of a continuing care agreement under this act poses or may pose an unreasonable risk as described in subsection (3).

(b) A person has violated or is about to violate this act or a rule promulgated or order issued under this act.

(2) The department may require or permit a person to file a written statement under oath or otherwise as to all the facts and circumstances concerning the matter to be investigated under subsection (1). If the person fails to reply with all required information to a written request from the department within 15 days after receipt of the letter, the department may issue a cease and desist order.

(3) The department may determine that an offering creates an unreasonable risk to members under this act if any of the following apply:

(a) Monthly service fees or assessments are not used for the purpose designated.

(b) With respect to an offering by a continuing care community seeking registration or exemption, the offering fails to provide for adequate reserves or other adequate revenue sources for operations, repairs, and renovations. The department may utilize an industry representative or accounting representative to determine the adequacy of revenue sources.

(c) With respect to a continuing care community making an offering, the continuing care community has been in operation less than 1 year or is in the development stage at the time of registration and has failed to achieve reservations for 75% of the living units at the date of first occupancy, unless the department finds that the financial condition of the continuing care community or the escrow arrangements established in connection with the offering are such as to outweigh any special risk.

(4) For the purpose of an investigation or proceeding under this act, the department may administer oaths and affirmations and receive evidence. To subpoena witnesses or require the production of books, papers, or other documents or records, the department must obtain an order of the circuit court by a showing that there is good cause to believe that a violation has taken place or is about to take place. However, in a contested case, the department itself may issue subpoenas and is subject to section 73 of the administrative procedures act of 1969, 1969 PA 306, MCL 24.273.
