The authorization shall include the legislative lease approval required for

state building authority financing.

18.1244 Scope of construction appropriation; direct labor charges; resident inspector; indirect or administrative overhead costs; separate accounts; design and construction requirements; contract to complete construction of project; conditions.

Sec. 244. (1) Except as otherwise expressly provided or as provided in section 246, a construction appropriation includes, where applicable, costs for land; professional services, including engineering and inspection services; all construction trades work; utilities; site work; on site supervision; equipment; furniture; and furnishings for a completed facility ready for use. The appropriation for a project authorized in a budget act shall be charged with any direct labor performed on that project by employees of the state agency for which the appropriations are made. For each construction project for which the department is an agent, the department shall determine the need for a resident inspector to provide on site supervision. The department may employ and assign the resident inspector with the inspector's salary to be paid from the project account, or from the account designated by the department. If the department approves, a qualified employee of the state agency's regular staff may be the resident inspector with the inspector's salary to be paid from the state agency's operating funds. This subsection shall apply to all projects regardless of when the appropriations were made for the project. The direct labor charges and corresponding credits shall be made in accordance with the systems and procedures prescribed by the department. Charges shall not be made to projects for any indirect or administrative overhead costs, except professional services by a state agency if the professional services are approved by the department and if the department is the agent for the project and provides professional services or administers and supervises the project. The director may establish separate accounts within an appropriation to permit a state agency, community college, or institution of higher education to make expenditures for equipment, furniture, and furnishings. The director shall carry out this act and shall exercise the best professional judgment in the design and construction of all projects included within a budget act so that the design and construction meets the requirements of the projects in the most economical and efficient manner, with particular emphasis on future maintenance and operating cost.

(2) A contract to complete the construction of a project for which construction appropriations are made in a budget act shall be made upon the conditions that the total cost for the completion of each facility, ready for use, shall not exceed the total cost authorized for each respective project; that the obligations for payments for each project, during the fiscal years subject to this act, shall not exceed the amount appropriated for each specific facility by this and previous budget acts; and that the contract may be awarded before the beginning of the next fiscal year if the terms of the contract provide that payments shall not be made until after the first day of the following fiscal year, except in amounts previously appropriated.

(3) Appropriations made in any budget act for final design and construction shall not lapse to the fund from which they are appropriated at the end of the fiscal year, but shall continue until the purposes for which the sums were appropriated are completed. However, final design and construction authorization for each project where construction has not commenced shall be terminated 36 months after the last day of the fiscal year in which the authorization was originally made, unless the project is specifically reauthorized in a budget act.

(a) A bid for the start of construction of the project is awarded or construction of the project has commenced.

30 days after a final order is entered, whichever is later.

(e) The unobligated balance of the appropriations for the project may continue for 12 months after a project is substantially completed.

(f) Not later than 45 days after the conclusion of the fiscal year, the director shall notify the JCOS and the fiscal agencies of planning and construction authorizations that will continue beyond limitations specified under this section.

(5) An unexpended balance which is to lapse pursuant to this section shall lapse to the fund from which the appropriation is made.

(6) A grant or grant-in-aid appropriated for the demolition, acquisition, construction, repair, or maintenance of capital assets shall not be reduced, adjusted, delayed, impounded, lapsed, or otherwise altered by the director for any purpose without legislative approval and shall be carried forward until the work is completed or for 36 months after the last day of the fiscal year in which the construction appropriation was originally made, whichever comes first.

(2) A state agency, community college, or university shall take the steps necessary to make available federal or other money that may be available and to use all or part of the appropriations to meet matching requirements that are considered to be in the best interest of this state. However, the purpose, scope, and total estimated cost of a project shall not be altered to meet the matching requirements. Any federal matching revenues received to support the construction of a project shall be applied to the total authorized project cost, with state, community college, or university financing shares proportionately adjusted.

18.1261 Supplies, materials, services, insurance, utilities, third party financing, equipment, printing, and other items; purchase; contract; preference; discretionary decisions by department; competitive solicitation; exceptions; delegation of procurement authority; lease or installment purchases; directives; cooperative purchasing agreement; preference to disabled veteran; representation in contract that person not engaged in boycott; exemption from freedom of information act; performance-related damages or targets; definitions.

Sec. 261. (1) The department shall provide for the purchase of, the contracting for, and the providing of supplies, materials, services, insurance, utilities, third party financing, equipment, printing, and all other items as needed by state agencies for which the legislature has not otherwise expressly provided. If consistent with federal statutes, in all purchases made by the department, all other things being equal, preference shall be given to products manufactured or services offered by Michigan-based firms or by facilities with respect to which the operator is designated as a clean corporate citizen under part 14 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.1401 to 324.1429, or to biobased products whose content is sourced in this state. The department shall solicit competitive bids from the private sector whenever practicable to efficiently and effectively meet the state's needs. The department shall first determine that competitive solicitation of bids in the private sector is not appropriate before using any other procurement method for an acquisition.

(2) The department shall make all discretionary decisions concerning the solicitation, award, amendment, cancellation, and appeal of state contracts.

(3) The department shall utilize competitive solicitation for all purchases authorized under this act unless 1 or more of the following apply:

(a) Procurement of goods or services is necessary for the imminent protection of public health or safety or to mitigate an imminent threat to public health or safety, as determined by the director or his or her designated representative.

(b) Procurement of goods or services is for emergency repair or construction caused by unforeseen circumstances when the repair or construction is necessary to protect life or property.

(c) Procurement of goods or services is in response to a declared state of emergency or state of disaster under the emergency management act, 1976 PA 390, MCL 30.401 to 30.421.

(d) Procurement of goods or services is in response to a declared state of emergency under 1945 PA 302, MCL 10.31 to 10.33.

(f) Procurement of goods or services is within a state agency's purchasing authority delegated under subsection (4), and the state agency has established policies or procedures approved by the department to ensure that goods or services are purchased by the state agency at fair and reasonable prices.

(4) The department may delegate its procurement authority to other state agencies within dollar limitations and for designated types of procurements. The department may withdraw delegated authority upon a finding that a state agency did not comply with departmental procurement directives. If a state agency has the department's procurement authority delegated to it under this subsection and if it chooses to exercise an option under an existing procurement contract to continue that procurement contract, before exercising that option, the state agency shall first obtain written approval from the department that exercising the option is in the best interest of this state.

(5) The department may enter into lease purchases or installment purchases for periods not exceeding the anticipated useful life of the items purchased unless otherwise prohibited by law.

(6) The department shall issue directives for the procurement, receipt, inspection, and storage of supplies, materials, and equipment, and for printing and services needed by state agencies. The department shall provide standard specifications and standards of performance applicable to purchases.

(7) The department may enter into a cooperative purchasing agreement with 1 or more other states or public entities for the purchase of goods, including, but not limited to, recycled goods, and services necessary for state programs.

(8) In awarding a contract under this section, the department shall give a preference of up to 10% of the amount of the contract to a qualified disabled veteran. If the qualified disabled veteran otherwise meets the requirements of the contract solicitation and with the preference is the lowest bidder, the department shall enter into a procurement contract with the qualified disabled veteran under this act. If 2 or more qualified disabled veterans are the lowest bidders on a contract, all other things being equal, the qualified disabled veteran with the lowest bid shall be awarded the contract under this act.

(9) It is the goal of the department to award each year not less than 5% of its total expenditures for construction, goods, and services to qualified disabled veterans. The department may count toward its 5% yearly goal described in this subsection that portion of all procurement contracts in which the business entity that received the procurement contract subcontracts with a qualified disabled veteran. Each year, the department shall report to each house of the legislature on all of the following for the immediately preceding 12-month period:

(a) The number of qualified disabled veterans who submitted a bid for a state procurement contract.

(b) The number of qualified disabled veterans who entered into procurement contracts with this state and the total value of those procurement contracts.

(c) Whether the department achieved the goal described in this subsection.

(d) The recommendations described in subsection (10).

(10) Each year, the department shall review the progress of all state agencies in meeting the 5% goal with input from statewide veterans service organizations and from the business community, including businesses owned by qualified disabled veterans, and shall make recommendations to each house of the legislature regarding continuation, increases, or decreases in the percentage goal. The recommendations shall be based upon the number of businesses that are owned by qualified disabled veterans and on the continued need to encourage and promote businesses owned by qualified disabled veterans.

(11) To assist the department in reaching the goal described in subsection (9), the governor shall recommend to the legislature changes in programs to assist businesses owned by qualified disabled veterans.

(12) Beginning October 1, 2017, the department and all state agencies may not enter into a contract with a person to acquire or dispose of supplies, services, or information technology unless the contract includes a

representation that the person is not currently engaged in, and an agreement that the person will not engage in, the boycott of a person based in or doing business with a strategic partner.

(a) A bid, quote, or proposal submitted in connection with the authority granted under this section, and records created in the preparation for and evaluation of the bid, quote, or proposal until the time of final notification of award of the contract.

(b) Records containing a trade secret as defined under section 2 of the uniform trade secrets act, 1998 PA 448, MCL 445.1902, or financial or proprietary information submitted in connection with the authority granted under this section.

(14) The department shall develop policies and procedures that require all procurement contracts entered into by the department or a state agency, including departments that have delegated procurement authority under this act, to include performance-related liquidated damages or performance targets with incentives in all procurement contracts. The department shall also develop policies and procedures that require the department or state agency to enforce these provisions. Departments or state agencies acting under delegated authority shall inform the department of relevant performance issues. Exceptions to the inclusion or enforcement of performance-related contract provisions may only be granted by the department as provided in a written or electronic record by the department.

recommending reduction of expenditures; review of recommendations; order containing reductions; notice; meeting; approval or disapproval of order; implementation of order; filing order and resolutions; special lapse accounts.

Sec. 391. (1) When it appears to the governor, based upon written information received by the governor from the budget director and the department of treasury, that actual revenues for a fiscal period will fall below the revenue estimates on which appropriations for that period were based, the estimates being as determined by the legislature in accordance with section 31 of article IV of the state constitution of 1963, the governor shall order the director to review all appropriations made by the legislature, except those made for the legislative and judicial branches of government or from funds constitutionally dedicated to specific purposes.

(2) Based upon needs, the director shall recommend to the governor a reduction of expenditures authorized by the appropriations, either direct or open-ended, for that fiscal year. The governor shall review the recommendations of the director and shall prepare an order containing reductions in expenditures authorized so that actual revenues for the fiscal period will be sufficient to equal the expenditures. The governor shall give not less than 5 days' written notice to the members of the appropriations committees specifying a time and place for a joint meeting of the governor and the appropriations committees, at which the governor shall present to the appropriations committees the governor's recommendations and copies of the governor's proposed order.

Expenditures authorized by appropriations shall not be reduced unless approved by both appropriations committees. Upon approval by both appropriations committees, the director shall implement the order.

(4) If either appropriation committee disapproves the order, the order is without force and effect. Not later than 30 days after a proposed order is disapproved, the governor may give reasonable written notice of the time and place of a further joint meeting of the appropriations committees, at which time the governor shall submit another order reducing expenditures authorized by appropriations. Within 10 days after the receipt of that order by the appropriations committees, each appropriations committee, by a majority of its members elected and serving, shall approve or disapprove the order. Upon approval by both appropriations committees, the director shall implement the order.

(5) After the approval by both appropriations committees pursuant to subsection (3) or (4), a copy of the order of the governor and resolutions of both appropriations committees approving it shall be filed with the secretary of state and the order shall become effective.

Administrative transfers shall not include adjustments that have policy implications or that have the effect of creating, expanding, or reducing programs within that department. Those transfers may be disapproved by either appropriations committee within the 30 days and, if disapproved within that time, shall not be effective.

(2) A transfer of appropriations within any department other than an administrative transfer pursuant to subsection (1) shall not be made by the state budget director unless approved by both the senate and house appropriations committees. If the state budget director does not approve transfers adopted by both the senate

(3) A transfer approved by the appropriations committees shall not be effective unless it is identical in terms of funding sources and dollar amounts.

(4) A transfer approved pursuant to this section shall constitute authorization to transfer the amount recommended and approved. However, the amount shall be reduced by the state budget director to be within the current unobligated amount of the appropriation.

(5) Capital outlay appropriations may be transferred from a state agency, community college, or institution of higher education to provide necessary funds for the completion of an authorized capital outlay project. 18.1395 Financing from federal, state restricted, local, or private funding; financing by multiple fund sources; spending of state matching money; reductions; notice; adjustments; corrective action; prohibited transfer.

Sec. 395. (1) Appropriation line items in a budget act financed from federal, state restricted, local, or private funding authorize spending only for the amount of the funds actually earned up to the amount appropriated. When an appropriation line item that is financed from federal, state restricted, local, or private funding sources is earning funds less than the appropriated amount, the department shall reduce the overall level of expenditures from the appropriation line item to reflect the estimated funding shortfall. In an appropriation line item financed by multiple fund sources, any state general fund/general purpose appropriation shall be used only after the federal, state restricted, local, or private funds have been expended.

(2) Except as otherwise provided in this section, spending of state matching money in an appropriation shall be maintained in the proportion appropriated. When federal money is earned in an amount less than appropriated and the matching requirements have not been reduced, spending of any state matching appropriation shall be reduced accordingly.

(3) When federal matching formulas are adjusted to increase the federal share of the costs of a program, spending of any state matching appropriation shall be reduced accordingly. Within 15 days after receipt of a notice of such a change, the state agency shall notify the state budget director. The state budget director shall within 15 days make a recommendation to the senate and house appropriations committees and the fiscal agencies to adjust existing appropriations to implement the change in the federal matching rate.

(4) When federal matching formulas are adjusted to reduce the federal share of the costs of a program, the affected state agency shall notify the department. After receipt of the notice of such a change the state budget director shall take appropriate corrective action. For purposes of this subsection, a transfer to increase the state matching appropriations shall not be permitted under section 393(1).

Sec. 421. (1) In order to establish strong internal control in the management of the state's financial transactions, the state budget director may do any of the following:

(a) Issue directives for the accountability, custody, periodic inventory, and maintaining departmental records of the real and personal property and supplies and materials of the state.

(b) Issue directives relative to the formulation and control of a state central accounting system.

(c) Monitor, approve or disapprove, and assist in the development and enhancement of agency accounting systems. Except for investment transactions, lottery prize awards, and refund of taxes, a payment shall not be made from the state treasury except upon certification of the state budget director.

(e) Issue directives for the refund to payers of money which has been deposited in the state treasury through misunderstanding, inadvertence, or mistake and to which the state does not have a claim. The refunds shall be made pursuant to the directives except as otherwise provided in this act.

Changes in generally accepted accounting principles which require budgetary revisions shall be incorporated not later than the next executive budget after the change is issued. The state budget director shall issue directives to incorporate any changes, additions, and rescissions made to the generally accepted accounting principles as they affect the accounting of state government. If an item is not covered by an existing generally accepted accounting principle, the state budget director shall issue a directive which shall not be effective until 30 days after the directive is reported to the appropriations committee and the auditor general.

(3) The state budget office shall not change an accounting principle, or the application of an accounting principle, from that which was followed in the preceding fiscal year if the change will materially affect the final year-end balance of an appropriated operating fund, unless the change in the accounting principle or the application of the accounting principle is reported to the senate and house appropriations committees not later

than 120 days after the end of the fiscal year for which the change is to be implemented. However, the 120-day notice requirement shall not apply to a change in an accounting principle or the application of an accounting principle which is implemented to conform with requirements promulgated by the governmental accounting standards board, or its successor.

(4) The state budget director shall determine and authorize the most efficient manner possible for handling financial transactions and records in the state's financial management system necessary to implement executive reorganization orders as provided under section 2 of article V of the state constitution of 1963.
