209.4 Tabular statement showing assessed and equalized valuations; preparation; copies; session; meeting of board; determination whether relative valuation between several counties equal and uniform; equalization; certification of equalized valuation; basis for apportionment; certified transcript of determination; determining level of state equalized valuation of class of property; order.

Sec. 4. (1) After the state board of equalization has been organized, it shall proceed to examine the tabular statements and data furnished by the county boards of commissioners and state tax commission. The state board of equalization shall then prepare and print a tabular statement showing, by county in an aggregate amount, and by county for personal property and each classification of real property, the total assessed valuation, the valuation as equalized by the county board of commissioners for the current year, the valuation as equalized at the last preceding session of the state board of equalization, and the valuation recommended by the state tax commission. The state board of equalization shall direct the secretary to forward a copy of the statement to the director of the tax or equalization department of each county in this state immediately. Except as provided in subsection (2), the state board of equalization may continue in session until the fourth Monday in May for the purpose of considering the reports from the assessing officers, county boards of commissioners, and the state tax commission. The state board of equalization shall meet in the city of Lansing on the fourth Monday in May to hear the representatives of the several counties as provided in this act. The state board of equalization shall determine whether the relative valuation between the several counties of the property within classifications used for equalization by the counties under section 34 of the general property tax act, 1893 PA 206, MCL 211.34, is equal and uniform, taking into consideration the location, soil, mineral wealth, improvements, productions, and facilities. The state board of equalization shall also determine whether the value of personal property in the several counties has been uniformly estimated and determined according to the best information that can be derived from this state or from any other source. After examination of the data and evidence furnished, if the valuation of the applicable classification of property in any county is determined to be at more or less than the true cash value of the property in that classification within the county, the state board of equalization shall equalize real and personal property in the same manner as required of county boards of commissioners under section 34 of the general property tax act, 1893 PA 206, MCL 211.34, by adding to or deducting from the applicable valuations in a county those amounts that will produce a sum that represents the proportion of true cash value established by the legislature. If equalization is required under this section according to classifications of real or personal property, or both, the state board of equalization shall retain property within the classifications established for purposes of the county equalization pursuant to section 34 of the general property tax act, 1893 PA 206, MCL 211.34. The valuation of the several counties as equalized shall be certified by the chairperson and secretary of the state board of equalization and filed in the office of the state treasurer and the state tax commission, and shall be the basis for apportionment of all state taxes until another equalization is made. The secretary of the state tax commission after the determination of the state board of equalization has been filed in his or her office, immediately shall send a certified transcript of the determination to the treasurer of each county, who shall cause the certified transcript to be placed on file in his or her office available for public inspection.

(2) Within 90 days after receiving the findings and determination of the tax tribunal pursuant to section 34(4) of the general property tax act, 1893 PA 206, MCL 211.34, the state tax commission acting as the state board of equalization shall determine whether the state equalized valuation of that class of property in the county was set at the level prescribed by law or should be revised to provide uniformity among the counties and shall enter an order consistent with the findings.
