Complete to 1-14-94

A SUMMARY OF HOUSE BILL 4916 AS INTRODUCED 7-1-93

The bill would amend the Paternity Act to require that a court issue a child custody order in conjunction with an order of filiation (which is the court order that establishes paternity). In an order of filiation and support issued or modified under the act, the circuit court would have to provide for the custody and visitation of the child as provided under the Child Custody Act. A dispute regarding custody or visitation would have to be referred to the friend of the court for a report and recommendation.
