The tax on an aircraft shall be collected by the department of treasury. Notwithstanding any limitation contained in section 2, the price tax base of any vehicle, ORV, mobile home, aircraft, snowmobile, or watercraft subject to taxation under this act shall be not less than its retail dollar value at the time of acquisition as fixed pursuant to rules promulgated by the department.

(3) The following transfers or purchases are not subject to use tax:

(a) A nonprofit hospital is an entity described in section 4s(3)(a)(i).

Sec. 8. (1) The commissioner, in his or her discretion, may authorize a person to assume the obligation of self-accruing and remitting use tax due on purchases or leases directly to the department under a direct payment authorization, if the following conditions are met:

(a) The authorization is to be used for the purchase or lease of tangible personal property or services.

(b) The authorization is necessary because it is either impractical at the time of acquisition to determine the manner in which the tangible personal property or services will be used or it will facilitate improved compliance with the tax laws of this state.

(c) The person requesting authorization for direct payment maintains accurate and complete records of all purchases or leases and uses of tangible personal property or services purchased pursuant to the direct payment authorization in a form acceptable to the department.

Sec. 9a. (1) Beginning March 30, 1995, in computing the amount of tax levied under this act for any month, a seller may deduct the amount of bad debts from his or her gross sales, rentals, or services used for the computation of the tax. The amount of gross sales, rentals, or services deducted must be charged off as uncollectible on the books of the seller. If the business consists of taxable and nontaxable transactions, the deduction equals the full amount of the bad debt if

the bad debt is documented as a taxable transaction in the seller's records. If documentation is not available, the maximum deduction from gross sales, rentals, or services for any bad debts equals the amount of the bad debt multiplied by the quotient resulting from dividing the sales, rentals, or services taxed under this act during the preceding calendar year by all sales, rentals, or services during the preceding calendar year, whether or not taxed under this act. If a consumer or other person pays all or part of a bad debt with respect to which a seller claimed a deduction under this section, the seller is liable for the amount of taxes deducted in connection with that portion of the debt for which payment is received and shall remit these taxes in his or her next payment to the department.

(2) Any claim for a bad debt deduction under this section shall be supported by that evidence required by the department. The department shall review any change in the rate of taxation applicable to any taxable sales, rentals, or services by a seller claiming a deduction pursuant to this section and shall ensure that the deduction on any bad debt does not result in the seller claiming the deduction recovering any more or less than the taxes imposed on the sale, rental, or service that constitutes the bad debt.

(3) As used in this section, "bad debt" means any portion of a debt resulting from a seller's collection of the use tax on the purchase of tangible personal property or services that is not otherwise deductible or excludable, that has become worthless or uncollectible in the time period between the date when taxes accrue to the state for the seller's preceding use tax return and the date when taxes accrue to the state for the present return, and that is eligible to be claimed, or could be eligible to be claimed if the seller kept accounts on an accrual basis, as a deduction pursuant to section 166 of the internal revenue code. A bad debt does not include any of the following:

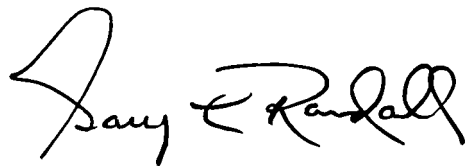

- (a) Interest or use tax on the purchase price.
- (b) Uncollectible amounts on property that remains in the possession of the seller until the full purchase price is paid.
- (c) Expenses incurred in attempting to collect any account receivable or any portion of the debt recovered.
- (d) Any accounts receivable that have been sold to a third party for collection.
- (e) Repossessed property.
