Senate Bill 1359 (as discharged)  
Sponsor: Senator Walter H. North  
Committee: Appropriations

### **CONTENT**

The bill would amend the Corrections Code to increase parole supervision fees.

Parole supervision fees are based on projected monthly income. Executive Order 2001-9 changed the fee structure as shown in Table 1 for FY 2001-02. The bill would make those changes permanent.

Table 1

Offender Monthly Income	Prior Monthly Fee	E.O. 2001-9 Monthly Fee
\$0-\$249.99	\$0	\$0
\$250-\$499.99	\$10	\$10
\$500-\$749.99	\$20	\$25
\$750-\$999.99	\$30	\$40
\$1000 and up	\$30	5% of monthly income. Fee not to exceed \$135.

MCL 791.225a & 791.236a

### **FISCAL IMPACT**

The bill would codify only the parole portion of the temporary increases in probation and parole supervision fees made in Executive Order 2001-9. The Department of Corrections (DOC) FY 2002-03 budget is based on the estimation by the DOC and the State Budget Office that the new fee structure for both the probation and parole populations would increase collections by \$843,800 for a total revenue of \$7,745,100. There are no data currently available to indicate how much of this revenue is from parolees versus probationers. Parolees currently represent 21% of the combined probation and parole population. If one assumes that probationers would provide the same proportion of the increase in supervision fees, then the bill would generate \$177,200 in additional revenue for the DOC.
