Senate Bill 479 (as introduced 5-14-03)
Sponsor: Senator Raymond E. Basham
Committee: Education

Date Completed: 10-2-03

CONTENT

The bill would amend the Pupil Transportation Act to permit a school to determine the number and location of stops necessary for the receipt and discharge of pupils from school buses in a manufactured home park. The school first would have to consult with the parents of the pupils who would be affected, as well as the owners of the park.

MCL 257.1809

Legislative Analyst: Claire Layman

FISCAL IMPACT

The bill would have no fiscal impact on the State.

A local school district could experience minimal increases in costs related to this legislation if the district chose to add additional stops within a manufactured home park, which the park owners presently may disallow on their property. Such increased costs would consist of the additional gasoline and other mileage-related factors needed to complete the new bus stops.
