

Act No. 228
Public Acts of 2003
Approved by the Governor
December 17, 2003
Filed with the Secretary of State
December 18, 2003
EFFECTIVE DATE: December 18, 2003

**STATE OF MICHIGAN
92ND LEGISLATURE
REGULAR SESSION OF 2003**

Introduced by Rep. Ward

ENROLLED HOUSE BILL No. 4667

AN ACT to amend 1943 PA 184, entitled "An act to provide for the establishment in townships of zoning districts within which the proper use of land and natural resources may be encouraged or regulated by ordinance, and for which districts provisions may also be adopted designating the location of, the size of, the uses that may be made of, the minimum open spaces, sanitary, safety, and protective measures that shall be required for, and the maximum number of families that may be housed in dwellings, buildings, and structures, including tents and trailer coaches, that are erected or altered; to designate the use of certain state licensed residential facilities; to provide for a method for the adoption of ordinances and amendments to ordinances; to provide for emergency interim ordinances; to provide for the acquisition by purchase, condemnation, or otherwise of nonconforming property; to provide for the administering of ordinances adopted; to provide for conflicts with other acts, ordinances, or regulations; to provide sanctions for violations; to provide for the assessment, levy, and collection of taxes; to provide for the collection of fees for building permits; to provide for petitions, public hearings, and referenda; to provide for appeals; to authorize the purchase of development rights; to authorize the issuance of bonds and notes; to provide for special assessments; and to prescribe penalties and provide remedies," by amending section 16c (MCL 125.286c).

The People of the State of Michigan enact:

Sec. 16c. (1) As used in this section, "planned unit development" includes cluster zoning, planned development, community unit plan, planned residential development, and other terminology denoting zoning requirements designed to accomplish the objectives of the zoning ordinance through a land development project review process based on the application of site planning criteria to achieve integration of the proposed land development project with the characteristics of the project area.

(2) A township may establish in a zoning ordinance planned unit development requirements which permit flexibility in the regulation of land development; encourage innovation in land use and variety in design, layout, and type of structures constructed; achieve economy and efficiency in the use of land, natural resources, energy, and the provision of public services and utilities; encourage useful open space; and provide better housing, employment, and shopping opportunities particularly suited to the needs of the residents of this state. The review and approval of planned unit developments shall be by the zoning board, an official charged with administration of the ordinance, or the township board.

(3) Within a land development project designated as a planned unit development, regulations relating to the use of land, including permitted uses, lot sizes, setbacks, height limits, required facilities, buffers, open space areas and how they are to be preserved, and land use density, shall be determined in accordance with the planned unit development regulations specified in the zoning ordinance. The planned unit development regulations need not be uniform with regard to each type of land use if equitable procedures recognizing due process principles and avoiding arbitrary decisions have been followed in making regulatory decisions. Unless explicitly prohibited by the planned unit development regulations, if requested by the landowner, a township may approve a planned unit development with open space that is not contiguous with the rest of the planned unit development.

(4) The planned unit development regulations established by a township shall specify:

(a) The body or official which will review and approve planned unit development requests.

(b) The conditions which create planned unit development eligibility, the participants in the review process, and the requirements and standards upon which applications will be judged and approval granted.

(c) The procedures required for application, review, and approval.

(5) Following receipt of a request to approve a planned unit development, the body or official charged in the ordinance with review and approval of planned unit developments shall hold at least 1 public hearing on the request. A zoning ordinance may provide for preapplication conferences before submission of a planned unit development request, and the submission of preliminary site plans before the public hearing. Notification of the public hearing shall be given in the same manner as required by section 16b(3) for public hearings on special land uses. Within a reasonable time following the public hearing, the body or official responsible for approving planned unit developments shall give final consideration to and shall deny, approve, or approve with conditions the request. The body or official shall prepare a report stating its conclusions on the request for a planned unit development, the basis for its decision, the decision, and any conditions relating to an affirmative decision. If the zoning ordinance requires that the township board amend the ordinance to approve the planned unit development request, the zoning board shall hold the hearing as required by section 9, and the report and documents related to the planned unit development request shall be transmitted to the township board for consideration in making a final decision. If amendment of a zoning ordinance is required by the planned unit development regulations of a township zoning ordinance, the requirements of this act for amendment of a zoning ordinance shall be followed, except that the hearing and notice required by this subsection shall be regarded as fulfilling the public hearing and notice requirements of section 9.

(6) If the planned unit development regulations of a township zoning ordinance do not require amendment of the ordinance to authorize a planned unit development, the body or official charged in the zoning ordinance with review and approval of planned unit developments shall approve, approve with conditions, or deny a request.

(7) Final approvals may be granted on each phase of a multiphased planned unit development if each phase contains the necessary components to insure protection of natural resources and the health, safety, and welfare of the users of the planned unit development and the residents of the surrounding area.

(8) In establishing planned unit development requirements, a township may incorporate by reference other applicable ordinances or statutes which regulate land development. The planned unit development regulations contained in a zoning ordinance shall encourage complementary relationships between zoning regulations and other regulations affecting the development of land.

This act is ordered to take immediate effect.
