A SUMMARY OF HOUSE BILL 5331 AS INTRODUCED 10-19-05

The Revised School Code provides for immunity from liability for the administration of medications to pupils in schools. Under the code, a student's parent or guardian must provide the school with written permission and request school personnel to administer the medication in compliance with a physician's instructions.

House Bill 5331 would amend the code to require the medication to be administered in compliance with the instructions of a physician or a certified nurse practitioner.
