3 beginning of the state fiscal year.

4 (8) Money deposited in, or becoming a part of the county road

6 first for the payment of principal and interest on the bonds, for

9 contributions pledged for the payment of bonds, and for debt
10 service requirements for the payment of notes and loans in the
11 following order of priority:

12 (a) For the payment of contributions required to be made by a
13 board of county road commissioners under a contract entered into
14 under 1941 PA 205, MCL 252.51 to 252.64, which contributions have
15 been pledged for the payment of the principal and interest on bonds
16 issued under that act, or for the payment of total debt service

25 executed pursuant to its provisions.

26 (c) For the payment of principal and interest upon loans

5 county. Not to exceed 15% per year of the amount returned to a
6 county for expenditure on the county local road system may be used,
7 with or without matching, on the county primary road system of that
8 county, and not to exceed an additional 15% per year of the amount
9 returned to a county for expenditure on the county local road

11 state transportation department, be expended, with or without
12 matching, on the county primary road system of that county. An
13 amount returned to a county for and on account of county local
14 roads, under this section, in excess of the total amount paid into
15 the county treasury each year by all of the townships of that

17 section 14(6) may be transferred to and expended on the county
18 primary road system of that county.

19 (10) Not less than 20% per year of the funds returned to a
20 county by this section shall be expended for snow and ice removal,
21 the construction or reconstruction of a new highway or existing
22 highway, and the acquisition of a necessary right of way for those

24 servicing of bonds issued by the county for these purposes. Surplus
25 funds may be expended for the development, construction, or repair
26 of an off-street parking facility.

27 (11) Not more than 5% per year of the funds returned to a

1 county for the county primary road system and the county local road
2 system shall be expended for the maintenance, improvement, or
3 acquisition of appurtenant roadside parks and motor parkways.

4 (12) Funds returned to a county shall be expended by the
5 county road commission for the purposes provided in this section
6 and shall be deposited by the county treasurer in a designated
7 county depository, in a separate account to the credit of the
8 county road fund, and shall be paid out only upon the order of the
9 county road commission, and interest accruing on the money shall
10 become a part of, and be deposited with the county road fund.

11 (13) In a county to which the funds are returned the function
12 of the county road commission shall be limited to the formation of
13 policy and the performance of the official duties imposed by law
14 and delegated by the county board of commissioners. A member of the
15 county road commission shall not be employed individually in any
16 other capacity for other duties with the county road commission.

17 (14) A county road commission may enter into an agreement with
18 a county road commission of an adjacent county and with a city or
19 village to perform work on a highway, road, or street, and with the
20 state transportation department with respect to a state trunk line
21 and connecting links of the state trunk line within the limits of
22 the county or adjacent to the county. The agreement may provide for
23 the performance by each contracting party of the work contemplated
24 by the contract including engineering services and the acquisition
25 of rights of way in connection with the work contemplated, by
26 purchase or condemnation, by any of the contracting parties in its
27 own name and the agreement may provide for joint participation in

1 the costs.

2 (15) Money distributed from the Michigan transportation fund
3 may be expended for construction purposes on county local roads
4 only to the extent matched by money from other sources. However,
5 Michigan transportation funds may be expended for the construction
6 of bridges on the county local roads in an amount not to exceed 75%
7 of the cost of the construction of local road bridges. This
8 subsection does not apply to section 11b.

9 (16) Notwithstanding any other provision of this act, at least
10 90% of the state revenue returned annually to the county road
11 commission from the Michigan transportation fund less the amounts
12 described in subdivisions (a) to (e) shall be expended annually by
13 the county road commission for the preservation of highways, roads,
14 streets, and bridges, and for the payment of contractual
15 contributions pledged for the payment of bonds or portions of
16 bonds, debt service requirements for the payment of bonds or
17 portions of bonds, and debt service requirements for the payment of
18 notes and loans or portions of notes and loans issued or received
19 after July 1, 1983, for the purpose of providing funds for the
20 preservation of highways, roads, streets, and bridges. If an
21 appropriate certificate is filed under subsection (19) but only to
22 the extent necessary, this subsection shall not prohibit the use of
23 any amount of state revenue returned annually to the county road
24 commissions for the payment of contractual contributions pledged
25 for the payment of bonds, for debt service requirements for the
26 payment of bonds, and for debt service requirements for the payment
27 of notes or loans, whenever issued or received, as specified under

1 subsection (8). The amounts which are deducted from the state
2 revenue returned to a county road commission from the Michigan
3 transportation fund, for the purpose of the calculation required by
4 this subsection are as follows:

5 (a) Amounts expended for the purposes described in subsection
6 (8) for bonds, notes, loans, or other obligations issued or
7 received before July 2, 1983.

8 (b) Amounts expended for the administrative costs of the
9 county road commission.

10 (c) Amounts expended for capital outlay projects for equipment
11 and buildings, and for the payment of contractual contributions
12 pledged for the payment of bonds, for debt service requirements for
13 the payment of bonds, and for debt service requirements for the
14 payment of notes and loans issued or received after July 1, 1983,
15 for the purpose of providing funds for capital outlay projects for
16 equipment and buildings.

17 (d) Amounts expended for projects vital to the economy of the
18 local area or the safety of the public in the local area. Before
19 these amounts can be deducted, the governing body over the county
20 road commission or the county road commission, as applicable, shall
21 pass a resolution approving these projects. This resolution shall
22 state which projects will be funded and the cost of each project. A
23 copy of each approved resolution shall be forwarded immediately to
24 the department.

25 (e) Amounts expended in urban areas as determined pursuant to
26 section 12b.

27 (17) As used in this subsection, "urban routes" means those

1 portions of 2-lane county primary roads within an urban area which
2 has average daily traffic in excess of 15,000. Notwithstanding any
3 other provision of this act, except as provided in this subsection,
4 a county road commission shall expend annually at least 90% of the
5 federal revenue distributed to the use of the county road
6 commission for highways, roads, streets, and bridges, less the
7 amount expended on urban routes for other than preservation
8 purposes and the amount expended for hard-surfacing of gravel roads
9 on the federal-aid system, on the preservation of highways, roads,
10 streets, and bridges. A county road commission may expend in a year
11 less than 90% of the federal revenue distributed to the use of the
12 county road commission for highways, roads, streets, and bridges,
13 less the amount expended on urban routes for other than
14 preservation purposes and the amount expended for hard-surfacing of
15 gravel roads on the federal-aid system, on the preservation of
16 highways, roads, streets, and bridges, if that year is part of a 3-
17 year period in which at least 90% of the total federal revenue
18 distributed in the 3-year period to the use of the county road
19 commission for highways, roads, streets, and bridges, less the
20 amount expended on urban routes for other than preservation
21 purposes and the amount expended for hard-surfacing of gravel roads
22 on the federal-aid system, is expended on the preservation of
23 highways, roads, streets, and bridges. If a county road commission
24 expends in a year less than 90% of the federal revenue distributed
25 to the use of the county road commission for highways, roads,
26 streets, and bridges, less the amount expended on urban routes for
27 other than preservation purposes and the amount expended for hard-

1 surfacing of gravel roads on the federal-aid system, on the
2 preservation of highways, roads, streets, and bridges and that year
3 is not a part of a 3-year period in which at least 90% of the total
4 federal revenue distributed in the 3-year period to the use of the
5 county road commission for highways, roads, streets, and bridges,
6 less the amount expended on urban routes for other than
7 preservation purposes and the amount expended for hard-surfacing of
8 gravel roads on the federal-aid system, is expended on the
9 preservation of highways, roads, streets, and bridges, the county
10 road commission shall expend in each year subsequent to the 3-year
11 period 100%, or less in 1 year if sufficient for the purposes of
12 this subsection, of the federal revenue distributed to the use of
13 the county road commission for highways, roads, streets, and
14 bridges, less the amount expended on urban routes for other than
15 preservation purposes and the amount expended for hard-surfacing of
16 gravel roads on the federal-aid system, on the preservation of
17 highways, roads, streets, and bridges until the average percentage
18 spent on the preservation of highways, roads, streets, and bridges
19 in the 3-year period and the subsequent years, less the amount
20 expended on urban routes for other than preservation purposes and
21 the amount expended for hard-surfacing of gravel roads on the
22 federal-aid system, is at least 90%. A year may be included in only
23 one 3-year period for the purposes of this subsection. The
24 requirements of this subsection shall be waived if compliance would
25 cause the county road commission to be ineligible according to
26 federal law for federal revenue, but only to the extent necessary
27 to make the county road commission eligible according to federal

1 law for that revenue. For the purpose of the calculations required
2 by this subsection, the amount expended on urban routes by a county
3 road commission for other than preservation purposes and the amount
4 expended for hard-surfacing of gravel roads on the federal-aid
5 system shall be deducted from the total federal revenue distributed
6 to the use of the county road commission.

7 (18) A county road commission shall certify, which
8 certification shall, for purposes of the validity of bonds and
9 notes, be conclusive as to the matters stated therein, to the state
10 transportation department on or before the issuance of any bonds or
11 notes issued after July 1, 1983, pursuant to 1943 PA 143, MCL
12 141.251 to 141.254, 1941 PA 205, MCL 252.51 to 252.64, or section
13 18c or 18d, for purposes other than the preservation of highways,
14 roads, streets, and bridges and purposes other than the purposes
15 specified in subsection (16)(c) that its average annual debt
16 service requirements for all bonds and notes or portions of bonds
17 and notes issued after July 1, 1983, for purposes other than the
18 preservation of highways, roads, streets, and bridges and other
19 than for the purposes specified in subsection (16)(c), including
20 the bond or note to be issued does not exceed 10% of the funds
21 returned to the county road commission pursuant to this act, less
22 the amounts specified in subsection (16)(a), (b), and (c) during
23 the last completed fiscal year of the county road commission. If
24 the purpose for which the bonds or notes are issued is changed
25 after the issuance of the notes or bonds, the change shall be made
26 in such a manner to maintain compliance with the certification
27 required by this subsection, as of the date the certificate was

1 originally issued, but no such change shall invalidate or otherwise
2 affect the bonds or notes with respect to which the certificate was
3 issued or the obligation to pay debt service on the bonds or notes.

4 (19) In each charter county to which funds are returned under
5 this section, the responsibility for road improvement,
6 preservation, and traffic operation work, and the development,
7 construction, or repair of off-road parking facilities and
8 construction or repair of road lighting shall be coordinated by a
9 single administrator to be designated by the county executive who
10 shall be responsible for and shall represent the charter county in
11 transactions with the state transportation department pursuant to
12 this act.

13 (20) Not more than 10% per year of all of the funds received
14 by and returned to a county from any source for the purposes of
15 this section may be expended for administrative expenses. A county
16 that expends more than 10% for administrative expenses in a year
17 shall be subject to section 14(5) unless a waiver is granted by the
18 department of treasury. As used in this subsection, "administrative
19 expenses" means those expenses that are not assigned including, but
20 not limited to, specific road construction or preservation projects
21 and are often referred to as general or supportive services.

22 Administrative expenses shall not include net equipment expense,
23 net capital outlay, debt service principal and interest, and
24 payments to other state or local offices which are assigned, but
25 not limited to, specific road construction projects or preservation
26 activities.

27 (21) In addition to the financial compliance audits required

1 by law, the department of treasury shall conduct performance audits
2 and make investigations of the disposition of all state funds
3 received by county road commissions, county boards of
4 commissioners, or any other county governmental agency acting as
5 the county road authority, for transportation purposes to determine
6 compliance with the terms and conditions of this act. Performance
7 audits shall be conducted according to government auditing
8 standards issued by the United States general accounting office.
9 The department of treasury shall provide 6 months notice to the
10 county road commission or county board of commissioners, as
11 applicable, of the standards to be used for audits performed under
12 this subsection prior to the fiscal year in which the audit is
13 conducted. The department shall notify the county road commission
14 or county board of commissioners of any subsequent changes to the
15 standards. County road commissions or county boards of
16 commissioners, as applicable, shall make available to the
17 department of treasury the pertinent records for the audit.
