(c) At least 80% of its income is active foreign business income as defined in section 861(c)(1)(B) of the internal revenue code.

Sec. 403. (1) Notwithstanding any other provision in this act, the credits provided in this section shall be taken before any other credit under this act. Except as otherwise provided in subsection (6), for the 2008 tax year, the total combined credit allowed under this section shall not exceed 50% of the tax liability imposed under this act before the imposition and levy of the surcharge under section 281. For the 2009 tax year and each tax year after 2009, the total combined credit allowed under this section shall not exceed 52% of the tax liability imposed under this act before the imposition and levy of the surcharge under section 281.

(2) Subject to the limitation in subsection (1), for the 2008 tax year a taxpayer may claim a credit against the tax imposed by this act equal to 0.296% of the taxpayer's compensation in this state. For the 2009 tax year and each tax year after 2009, subject to the limitation in subsection (1), a taxpayer may claim a credit against the tax imposed by this act equal to 0.370% of the taxpayer's compensation in this state. For purposes of this subsection, a taxpayer includes a person subject to the tax imposed under chapter 2A and a person subject to the tax imposed under chapter 2B. A professional employer organization shall not include payments by the professional employer organization to the officers and employees of a client of the professional employer organization whose employment operations are managed by the professional employer organization. A client may include payments by the professional employer organization to the officers and employees of the client whose employment operations are managed by the professional employer organization.

(3) Subject to the limitation in subsection (1), for the 2008 tax year a taxpayer may claim a credit against the tax imposed by this act equal to 2.32% multiplied by the result of subtracting the sum of the amounts calculated under subdivisions (d), (e), and (f) from the sum of the amounts calculated under subdivisions (a), (b), and (c). Subject to the limitation in subsection (1), for the 2009 tax year and each tax year after 2009, a taxpayer may claim a credit against the tax imposed by this act equal to 2.9% multiplied by the result of subtracting the sum of the amounts calculated under subdivisions (d), (e), and (f) from the sum of the amounts calculated under subdivisions (a), (b), and (c):

(a) Calculate the cost, including fabrication and installation, paid or accrued in the taxable year of tangible assets of a type that are, or under the internal revenue code will become, eligible for depreciation, amortization, or accelerated capital cost recovery for federal income tax purposes, provided that the assets are physically located in this state for use in a business activity in this state and are not mobile tangible assets.

(b) Calculate the cost, including fabrication and installation, paid or accrued in the taxable year of mobile tangible assets of a type that are, or under the internal revenue code will become, eligible for depreciation, amortization, or accelerated capital cost recovery for federal income tax purposes. This amount shall be multiplied by the apportionment factor for the tax year as prescribed in chapter 3.

(c) For tangible assets, other than mobile tangible assets, purchased or acquired for use outside of this state in a tax year beginning after December 31, 2007 and subsequently transferred into this state and purchased or acquired for use in a business activity, calculate the federal basis used for determining gain or loss as of the date the tangible assets were physically located in this state for use in a business activity plus the cost of fabrication and installation of the tangible assets in this state.

(d) If the cost of tangible assets described in subdivision (a) was paid or accrued in a tax year beginning after December 31, 2007, or before December 31, 2007 to the extent the credit is used and at the rate at which the credit was used under former 1975 PA 228 or this act, calculate the gross proceeds or benefit derived from the sale or other disposition of the tangible assets minus the gain, multiplied by the apportionment factor for the taxable year as prescribed in chapter 3, and plus the loss, multiplied by the apportionment factor for the taxable year as prescribed in chapter 3 from the sale or other disposition reflected in federal taxable income and minus the gain from the sale or other disposition added to the business income tax base in section 201.

(e) If the cost of tangible assets described in subdivision (b) was paid or accrued in a tax year beginning after December 31, 2007, or before December 31, 2007 to the extent the credit is used and at the rate at which the credit was used under former 1975 PA 228 or this act, calculate the gross proceeds or benefit derived from the sale or other disposition of the tangible assets minus the gain and plus the loss from the sale or other disposition reflected in federal taxable income and minus the gain from the sale or other disposition added to the business income tax base in section 201. This amount shall be multiplied by the apportionment factor for the tax year as prescribed in chapter 3.

(f) For assets purchased or acquired in a tax year beginning after December 31, 2007, or before December 31, 2007 to the extent the credit is used and at the rate at which the credit was used under former 1975 PA 228 or this act, that were eligible for a credit under subdivision (a) or (c) and that were transferred out of this state, calculate the federal basis used for determining gain or loss as of the date of the transfer.

(4) For a tax year in which the amount of the credit calculated under subsection (3) is negative, the absolute value of that amount is added to the taxpayer's tax liability for the tax year.

(5) A taxpayer that claims a credit under this section is not prohibited from claiming a credit under section 405. However, the taxpayer shall not claim a credit under this section and section 405 based on the same costs and expenses.

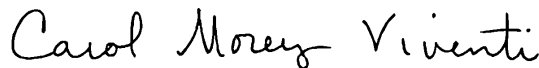

(6) For a taxpayer primarily engaged in furnishing electric and gas utility service that makes capital investments in electric and gas distribution assets for which a portion of the credit provided under subsection (3) would be denied for the 2008 tax year by reason of the 50% limitation of subsection (1), the 50% limitation on the total combined credit for the 2008 tax year provided in subsection (1) shall be increased by an amount not to exceed the lesser of the amount of the denied credit or 50% of the tax increase under this act accrued for financial reporting purposes due to the elimination of the deduction under section 168(k) of the internal revenue code by the amendatory act that added this subsection. Provided, however, that the total combined credit allowed under this section for the 2008 tax year shall not exceed 80% of the tax liability imposed under this act after the imposition and levy of the surcharge under section 281.

Sec. 461. For tax years beginning after December 31, 2008 and ending before January 1, 2011, a taxpayer other than a regulated utility may claim a credit under this act equal to 0.42% of the amount of the deduction claimed for the 2008 tax year for bonus depreciation under section 168(k) of the internal revenue code apportioned as the tax base is apportioned under this act. If the amount of the credit exceeds the liability of the taxpayer, the excess shall not be refunded but may be carried forward for 10 years or until used up, whichever occurs first.

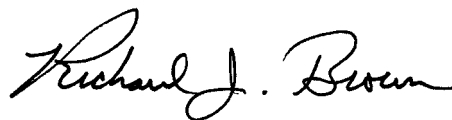

Enacting section 1. This amendatory act is retroactive and is effective January 1, 2008.

Enacting section 2. This amendatory act does not take effect unless Senate Bill No. 1038 of the 94th Legislature is enacted into law.

This act is ordered to take immediate effect.
