The territory within the external corporate limits of a city, even though it includes and embraces the area of 1 or more separately organized and existing cities, shall be considered a single city. Notwithstanding any other provision of this subdivision, a certificate or permit issued under this act is required for the operation of a vehicle of a motor carrier, including a vehicle transporting household goods, other than a vehicle exempted under subdivisions (b) to (q), in the transportation of property between a city having a population of 500,000 or more and a city or village located within the commercial zone of a city having a population of 500,000 or more, or between cities or villages within that commercial zone. As used in this subdivision, "commercial zone" means the area within an 8-mile radius of a city having a population of 500,000 or more and includes all cities and villages, any part of which are located within that 8-mile radius.

This subdivision shall not exempt a vehicle transporting the commodities described in this subdivision in other than the raw state.

(n) A vehicle transporting recyclable materials to or from a resource recovery facility. The terms "recyclable materials" and "resource recovery facility" have the meanings attributed to these terms in part 115 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.11501 to 324.11550, except that the term recyclable materials does not include industrial scrap metal. (2) As used in subsection (1)(l), "corporate family" means a group of corporations consisting of a parent corporation and all subsidiaries in which the parent corporation owns directly or indirectly a 100% interest.

(3) None of the exemptions in this section, where applicable, apply to a vehicle entering this state from another state, foreign country, or subdivision of a state or foreign country that does not extend similar exemptions to vehicles from this state entering the state, foreign country, or subdivision.
