House Resolution No. 310.

A resolution to declare March 5, 2014, as Spread The Word To End The Word Day in the state of Michigan.

Whereas, Respectful and inclusive language is essential to the movement for the dignity and humanity of people with intellectual disabilities. However, much of society does not recognize the hurtful, dehumanizing, and exclusive effects of the words “retard” and “retarded”; and

Whereas, It is time to address the minority slur “retard(ed)” and raise the consciousness of society to its hurtful effects; and

Whereas, The “Spread The Word To End The Word” campaign is an ongoing effort by Special Olympics Michigan and their supporters to raise the consciousness of society about the dehumanizing and hurtful effects of the word “retard(ed)” and encourage people to pledge to stop using the R-word; and

Whereas, The campaign, created by youth with and without developmental disabilities, is intended to engage schools, organizations, and communities to rally and pledge their support at www.r-word.org with a goal of reaching 100,000 pledges; and

Whereas, On March 5, 2014, citizens across the state of Michigan and throughout the United States will lead a day of awareness to “Spread The Word To End The Word”; and

Whereas, The day will be devoted to educating and raising awareness of the positive impact individuals with intellectual and developmental disabilities have in our communities and why the use of the R-word is hurtful, even in casual conversation; now, therefore, be it

Resolved by the House of Representatives, That the members of this legislative body declare March 5, 2014, as Spread The Word To End The Word Day in the state of Michigan.

However, for a public school academy that began operations as a public school academy, or for an achievement school that began operations as an achievement school, after the pupil membership count day of the immediately preceding school year, the basis for the additional allowance under this section shall be the number of actual pupils in membership in the public school academy or the education achievement system who met the income eligibility criteria for free breakfast, lunch, or milk in the current state fiscal year, as determined under the Richard B. Russell national school lunch act and reported to the department not later than the fifth Wednesday after the pupil membership count day.

(2) To be eligible to receive funding under this section, other than funding under subsection (6) or (7), a district or public school academy that has not been previously determined to be eligible or the education achievement system shall apply to the department, in a form and manner prescribed by the department, and a district or public school academy or the education achievement system must meet all of the following:

(b) The district or public school academy or the education achievement system agrees to use the funding only for purposes allowed under this section and to comply with the program and accountability requirements under this section.

A child and adolescent health center program shall recognize the role of a child's parents or legal guardian in the physical and emotional well-being of the child. Funding under this subsection shall be used to support child and adolescent health center services provided to children up to age 21. (8) Each district or public school academy receiving funds under this section and the education achievement system shall submit to the department by July 15 of each fiscal year a report, not to exceed 10 pages, on the usage by the district or public school academy or the education achievement system of funds under this section, which report shall include at least a brief description of each program conducted by the district or public school academy or the education achievement system using funds under this section, the amount of funds under this section allocated to each of those programs, the number of at-risk pupils eligible for free or reduced price school lunch who were served by each of those programs, and the total number of at-risk pupils served by each of those programs. If a district or public school academy or the education achievement system does not comply with this subsection, the department shall withhold an amount equal to the August payment due under this section until the district or public school academy or the education achievement system complies with this subsection. If the district or public school academy or the education achievement system does not comply with this subsection by the end of the state fiscal year, the withheld funds shall be forfeited to the school aid fund.

(9) In order to receive funds under this section, a district or public school academy or the education achievement system shall allow access for the department or the department's designee to audit all records related to the program for which it receives those funds. Subject to subsections (5), (6), (7), (12), and (13), a district may use up to 100% of the funds it receives under this section to reduce the ratio of pupils to teachers in grades K-12, or any combination of those grades, in school buildings in which the percentage of pupils described in subsection (1) is at least 60% of the district's aggregate percentage of those pupils and at least 30% of the total number of pupils enrolled in the school building.

(11) A district or public school academy or the education achievement system may use funds received under this section for adult high school completion, general educational development (G.E.D.) test preparation, adult English as a second language, or adult basic education programs described in section 107.

(12) For an individual school or schools operated by a district or public school academy receiving funds under this section or the education achievement system that have been determined by the department to meet the adequate yearly progress standards of the no child left behind act of 2001, Public Law 107-110, in both mathematics and English language arts at all applicable grade levels for all applicable subgroups, the district or public school academy or the education achievement system may use not more than 20% of the funds it receives under this section for specific alternative purposes identified by the district or public school academy or the education achievement system that are designed to benefit at-risk pupils in the school, but that may be different from the purposes otherwise allowable under this section. If

a district or public school academy or the education achievement system uses funds for alternative purposes allowed under the flexibility provisions under this subsection, the district or public school academy or the education achievement system shall maintain documentation of the amounts used for those alternative purposes and shall make that information available to the department upon request.

The program shall include literacy and numeracy supports, sensory motor skill development, behavior supports, instructional consultation for teachers, and the development of a parent/school learning plan. Specific support or learning strategies may include support in or out of the general classroom in areas including reading, writing, math, visual memory, motor skill development, behavior, or language development. These would be provided based on an understanding of the individual child's learning needs.

(b) Provides early intervening strategies using school-wide systems of academic and behavioral supports and is scientifically research-based. The strategies to be provided shall include at least pupil performance indicators based upon response to intervention, instructional consultation for teachers, and ongoing progress monitoring. The members of this team could include the principal, special education staff, reading teachers, and other appropriate personnel who would be available to systematically study the needs of the individual child and work with the teacher to match instruction to the needs of the individual child.

(14) If necessary, and before any proration required under section 296, the department shall prorate payments under this section by reducing the amount of the per pupil payment under this section by a dollar amount calculated by determining the amount by which the amount necessary to fully fund the requirements of this section exceeds the maximum amount allocated under this section and then dividing that amount by the total statewide number of pupils who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding fiscal year, as described in subsection (1).

(15) If a district is formed by consolidation after June 1, 1995, and if 1 or more of the original districts was not eligible before the consolidation for an additional allowance under this section, the amount of the additional allowance under this section for the consolidated district shall be based on the number of pupils described in subsection (1) enrolled in the consolidated district who reside in the territory of an original district that was eligible before the consolidation for an additional allowance under this section.

For pupils in grades K-3, at-risk pupil also includes a pupil who is at risk of not meeting the district's core academic curricular objectives in English language arts or mathematics.

"Sec. 20. (1) For 2013-2014, the basic foundation allowance is \$8,049.00.

(2) The amount of each district's foundation allowance shall be calculated as provided in this section, using a basic foundation allowance in the amount specified in subsection (1).

(3) Except as otherwise provided in this section, the amount of a district's foundation allowance shall be calculated as follows, using in all calculations the total amount of the district's foundation allowance as calculated before any proration:

(a) For a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding

state fiscal year in the lowest foundation allowance among all districts, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the sum of the greater of \$6,966.00 or the district's foundation allowance for the immediately preceding state fiscal year plus the difference between twice the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance and [(the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance minus \$10.00) times (the difference between the district's foundation allowance for the immediately preceding state fiscal year and the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts) divided by the difference between the basic foundation allowance for the current state fiscal year and the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts]. For 2011-2012, for a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the district's foundation allowance for 2010-2011, minus \$470.00. However, the foundation allowance for a district that had less than the basic foundation allowance for the immediately preceding state fiscal year shall not exceed the basic foundation allowance for the current state fiscal year.

(b) Except as otherwise provided in this subsection, for a district that in the immediately preceding state fiscal year had a foundation allowance in an amount at least equal to the amount of the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance for 2011-2012 in an amount equal to the district's foundation allowance for 2010-2011, minus \$470.00.

(c) Except as otherwise provided in subdivision (d), for a district that in the 1994-95 state fiscal year had a foundation allowance greater than \$6,500.00, the district's foundation allowance is an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the lesser of the increase in the basic foundation allowance for the current state fiscal year, as compared to the immediately preceding state fiscal year, or the product of the district's foundation allowance for the immediately preceding state fiscal year times the percentage increase in the United States consumer price index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b. Except as otherwise provided in subdivision (d), for 2011-2012, for a district that in the 1994-1995 state fiscal year had a foundation allowance greater than \$6,500.00, the district's foundation allowance is an amount equal to the district's foundation allowance for the 2010-2011 fiscal year minus \$470.00.

(d) For a district that in the 1994-95 state fiscal year had a foundation allowance greater than \$6,500.00 and that had a foundation allowance for the 2009-2010 state fiscal year, as otherwise calculated under this section, that was less than the basic foundation allowance, the district's foundation allowance for 2011-2012 and each succeeding fiscal year shall be considered to be an amount equal to the basic foundation allowance.

(e) For a district that has a foundation allowance that is not a whole dollar amount, the district's foundation allowance shall be rounded up to the nearest whole dollar.

(f) For a district that received a payment under section 22c as that section was in effect for 2001-2002, the district's 2001-2002 foundation allowance shall be considered to have been an amount equal to the sum of the district's actual 2001-2002 foundation allowance as otherwise calculated under this section plus the per pupil amount of the district's equity payment for 2001-2002 under section 22c as that section was in effect for 2001-2002.

(g) For a district that received a payment under section 22c as that section was in effect for 2006-2007, the district's 2006-2007 foundation allowance shall be considered to have been an amount equal to the sum of the district's actual 2006-2007 foundation allowance as otherwise calculated under this section plus the per pupil amount of the district's equity payment for 2006-2007 under section 22c as that section was in effect for 2006-2007.

(h) For 2012-2013, for a district that had a foundation allowance for the 2011-2012 state fiscal year of less than \$6,966.00, the district's foundation allowance is an amount equal to \$6,966.00.

(4) Except as otherwise provided in this subsection, the state portion of a district's foundation allowance is an amount equal to the district's foundation allowance or the basic foundation allowance for the current state fiscal year, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership excluding special education pupils. For a district described in subsection (3)(c), the state portion of the district's foundation allowance is an amount equal to \$6,962.00 plus the difference between the district's foundation allowance for the current state fiscal year and the district's foundation allowance

for 1998-99, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership excluding special education pupils. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur. For a receiving district, if school operating taxes continue to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, the taxable value per membership pupil of property in the receiving district used for the purposes of this subsection, does not include the taxable value of property within the geographic area of the dissolved district.

(5) The allocation calculated under this section for a pupil shall be based on the foundation allowance of the pupil's district of residence. For a pupil enrolled pursuant to section 105 or 105c in a district other than the pupil's district of residence, the allocation calculated under this section shall be based on the lesser of the foundation allowance of the pupil's district of residence or the foundation allowance of the educating district. For a pupil in membership in a K-5, K-6, or K-8 district who is enrolled in another district in a grade not offered by the pupil's district of residence, the allocation calculated under this section shall be based on the foundation allowance of the educating district if the educating district's foundation allowance is greater than the foundation allowance of the pupil's district of residence.

(6) Except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a public school academy, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the public school academy equal to the foundation allowance of the district in which the public school academy is located or the state maximum public school academy allocation, whichever is less. However, a public school academy that had an allocation under this subsection before 2009-2010 that was equal to the sum of the local school operating revenue per membership pupil other than special education pupils for the district in which the public school academy is located and the state portion of that district's foundation allowance shall not have that allocation reduced as a result of the 2010 amendment to this subsection. Notwithstanding section 101, for a public school academy that begins operations after the pupil membership count day, the amount per membership pupil calculated under this subsection shall be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the public school academy after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation shall not exceed the amount per membership pupil otherwise calculated under this subsection.

(7) Except as otherwise provided in this subsection, for pupils attending an achievement school and in membership in the education achievement system, other than special education pupils, the allocation calculated under this section is an amount per membership pupil other than special education pupils equal to the foundation allowance of the district in which the achievement school is located, not to exceed the basic foundation allowance. Notwithstanding section 101, for an achievement school that begins operation after the pupil membership count day, the amount per membership pupil calculated under this subsection shall be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the achievement school after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation shall not exceed the amount per membership pupil otherwise calculated under this subsection. For the purposes of this subsection, if a public school is transferred from a district to the state school reform/redesign district or the achievement authority under section 1280c of the revised school code, MCL 380.1280c, that public school is considered to be an achievement school within the education achievement system and not a school that is part of a district, and a pupil attending that public school is considered to be in membership in the education achievement system and not in membership in the district that operated the school before the transfer.

(8) Subject to subsection (4), for a district that is formed or reconfigured after June 1, 2002 by consolidation of 2 or more districts or by annexation, the resulting district's foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the lesser of the sum of the average of the foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district who reside in the geographic area of each of the original or affected districts plus \$100.00 or the highest foundation allowance among the original or affected districts. This subsection does not apply to a receiving district unless there is a subsequent consolidation or annexation that affects the district.

(9) Each fraction used in making calculations under this section shall be rounded to the fourth decimal place and the dollar amount of an increase in the basic foundation allowance shall be rounded to the nearest whole dollar.

(10) State payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated under section 51a.

(11) To assist the legislature in determining the basic foundation allowance for the subsequent state fiscal year, each revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b, shall calculate a pupil membership factor, a revenue adjustment factor, and an index as follows:

(a) The pupil membership factor shall be computed by dividing the estimated membership in the school year ending in the current state fiscal year, excluding intermediate district membership, by the estimated membership for the school year ending in the subsequent state fiscal year, excluding intermediate district membership. If a consensus membership factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(b) The revenue adjustment factor shall be computed by dividing the sum of the estimated total state school aid fund revenue for the subsequent state fiscal year plus the estimated total state school aid fund revenue for the current state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund and excluding money transferred into that fund from the countercyclical budget and economic stabilization fund under the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594, by the sum of the estimated total school aid fund revenue for the current state fiscal year plus the estimated total state school aid fund revenue for the immediately preceding state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund. If a consensus revenue factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(c) The index shall be calculated by multiplying the pupil membership factor by the revenue adjustment factor. If a consensus index is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(12) For a district that received a grant under former section 32e for 2001-2002, the district's foundation allowance for 2002-2003 and each succeeding fiscal year shall be adjusted to be an amount equal to the sum of the district's foundation allowance, as otherwise calculated under this section, plus the quotient of 100% of the amount of the grant award to the district for 2001-2002 under former section 32e divided by the number of pupils in the district's membership for 2001-2002 who were residents of and enrolled in the district. All of the following apply to districts receiving a foundation allowance adjustment under this subsection:

(a) Except as otherwise provided in this subdivision, a district qualifying for a foundation allowance adjustment under this subsection shall use the funds resulting from this adjustment for at least 1 of grades K to 3 for purposes allowable under former section 32e as in effect for 2001-2002. For an individual school or schools operated by a district qualifying for a foundation allowance adjustment under this subsection that have been determined by the department to meet the adequate yearly progress standards of the federal no child left behind act of 2001, Public Law 107-110, in both mathematics and English language arts at all applicable grade levels for all applicable subgroups, the district may submit to the department an application for flexibility in using the funds resulting from this adjustment that are attributable to the pupils in the school or schools. The application shall identify the affected school or schools and the affected funds and shall contain a plan for using the funds for specific purposes identified by the district that are designed to reduce class size, but that may be different from the purposes otherwise allowable under this subdivision. The department shall approve the application if the department determines that the purposes identified in the plan are reasonably designed to reduce class size. If the department does not act to approve or disapprove an application within 30 days after it is submitted to the department, the application is considered to be approved. If an application for flexibility in using the funds is approved, the district may use the funds identified in the application for any purpose identified in the plan.

(b) A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds ~~68.5%~~ **79.0%** of the amount the district received as a result of this adjustment for 2010-2011.

(c) Notwithstanding subsection (8), for a district that is formed or reconfigured by consolidation of 2 or more districts, 1 of which received an adjustment under this subsection for 2012-2013, the resulting district's foundation allowance for 2013-2014 and each succeeding fiscal year shall be adjusted to be an amount equal to the sum of the resulting district's foundation allowance as calculated under subsection (8) excluding any adjustment calculated under this subsection plus [(the original district's adjustment under this subsection in 2012-2013 times the number of pupils in the original district's membership for 2012-2013) divided by the number of pupils in the resulting district's membership for 2013-2014].

(d) Beginning in 2013-2014, for a district that received an adjustment for the immediately preceding fiscal year and that had a foundation allowance as adjusted by this subsection for the immediately preceding fiscal year equal to \$6,966.00, the district shall not receive an adjustment under this section for the current fiscal year.

(13) Payments to districts, public school academies, or the education achievement system shall not be made under this section. Rather, the calculations under this section shall be used to determine the amount of state payments under section 22b.

(14) If an amendment to section 2 of article VIII of the state constitution of 1963 allowing state aid to some or all nonpublic schools is approved by the voters of this state, each foundation allowance or per pupil payment calculation under this section may be reduced.
