

**SUBSTITUTE FOR  
SENATE BILL NO. 272**

A bill to amend 1984 PA 270, entitled  
"Michigan strategic fund act,"  
by amending sections 4, 5, and 23 (MCL 125.2004, 125.2005, and  
125.2023), section 4 as amended by 2012 PA 145, section 5 as  
amended by 2011 PA 251, and section 23 as amended by 2009 PA 85,  
and by adding section 7b.

**THE PEOPLE OF THE STATE OF MICHIGAN ENACT:**

1           Sec. 4. As used in this act:

2           (a) "Board" means the board of directors of the Michigan  
3 strategic fund, except where the context clearly requires a  
4 different definition.

5           (b) "Economic development project" means an endeavor related  
6 to industrial, commercial, or agricultural enterprise. Economic

1 development project includes, but is not limited to, a theme or  
2 recreation park; agricultural or forestry production, harvesting,  
3 storage, or processing facilities or equipment; **PORT FACILITIES**;  
4 and the use of equipment or facilities designed to produce energy  
5 from renewable resources. Economic development project does not  
6 include that portion of an endeavor devoted to the sale of goods at  
7 retail, except that, as used in relation to the fund insuring a  
8 transaction entered into by a depository institution, and as used  
9 in relation to a loan by the fund to a minority owned business, an  
10 economic development project may include that portion of an  
11 endeavor devoted to the sale of goods at retail. Economic  
12 development project does not include that portion of an endeavor  
13 devoted to housing or a program or activity authorized under  
14 chapter 8A.

15 (c) "Financial institution" means a state or nationally  
16 chartered bank or a state or federally chartered savings and loan  
17 association, savings bank, or credit union whose deposits are  
18 insured by an agency of the United States government and that  
19 maintains a principal office or branch office in this state under  
20 the laws of this state or the United States.

21 (d) "Fund" means the Michigan strategic fund created under  
22 section 5, except where the context clearly requires a different  
23 definition.

24 (e) "Green chemistry" means chemistry and chemical engineering  
25 to design chemical products or processes that reduce or eliminate  
26 the use or generation of hazardous substances, while producing  
27 high-quality products through safe and efficient manufacturing

1 processes. Green chemistry is guided by the following 12  
2 principles:

3 (i) Prevent waste: Design chemical syntheses to prevent waste,  
4 leaving no waste to treat or clean up.

5 (ii) Design safer chemicals and products: Design chemical  
6 products to be fully effective, yet have little or no toxicity.

7 (iii) Design less hazardous chemical syntheses: Design syntheses  
8 to use and generate substances with little or no toxicity to humans  
9 and the environment.

10 (iv) Use renewable feedstocks: Use raw materials and feedstocks  
11 that are renewable rather than depleting. Renewable feedstocks are  
12 often made from agricultural products or are the wastes of other  
13 processes; depleting feedstocks are made from fossil fuels,  
14 including petroleum, natural gas, or coal, or are mined.

15 (v) Use catalysts, not stoichiometric reagents: Minimize waste  
16 by using catalytic reactions. Catalysts are used in small amounts  
17 and can carry out a single reaction many times. They are preferable  
18 to stoichiometric reagents, which are used in excess and work only  
19 once.

20 (vi) Avoid chemical derivatives: Avoid using blocking or  
21 protecting groups or any temporary modifications if possible.  
22 Derivatives use additional reagents and generate waste.

23 (vii) Maximize atom economy: Design syntheses so that the final  
24 product contains the maximum proportion of the starting materials.  
25 There should be few, if any, wasted atoms.

26 (viii) Use safer solvents and reaction conditions: Avoid using  
27 solvents, separation agents, or other auxiliary chemicals. If these

1 chemicals are necessary, use innocuous chemicals.

2 (ix) Increase energy efficiency: Run chemical reactions at  
3 ambient temperature and pressure whenever possible.

4 (x) Design chemicals and products to degrade after use: Design  
5 chemical products to break down to innocuous substances after use  
6 so that they do not accumulate in the environment.

7 (xi) Analyze in real-time to prevent pollution: Include in-  
8 process real-time monitoring and control during syntheses to  
9 minimize or eliminate the formation of by-products.

10 (xii) Minimize the potential for accidents: Design chemicals  
11 and their forms, including solid, liquid, or gas, to minimize the  
12 potential for chemical accidents, including explosions, fires, and  
13 releases to the environment.

14 (f) "Michigan economic development corporation" or "MEDC"  
15 means the Michigan economic development corporation, the public  
16 body corporate created under section 28 of article VII of the state  
17 constitution of 1963 and the urban cooperation act of 1967, 1967  
18 (Ex Sess) PA 7, MCL 124.501 to 124.512, by a contractual interlocal  
19 agreement effective April 5, 1999, and subsequently amended,  
20 between local participating economic development corporations  
21 formed under the economic development corporations act, 1974 PA  
22 338, MCL 125.1601 to 125.1636, and the fund.

23 (g) "Municipality" means a county, city, village, township,  
24 port district, development organization, institution of higher  
25 education, community or junior college, or subdivision or  
26 instrumentality of any of the legal entities listed in this  
27 subdivision.

1 (h) "Person" means an individual, sole proprietorship,  
2 partnership, limited partnership, limited liability partnership,  
3 limited liability company, joint venture, profit or nonprofit  
4 corporation including a public or private college or university,  
5 public utility, municipality, local industrial development  
6 corporation, economic development corporation, ~~or~~ other association  
7 of persons organized for agricultural, commercial, or industrial  
8 purposes, **A LENDER, OR ANY OTHER ENTITY APPROVED BY THE BOARD.**

9 (I) **"PORT FACILITIES" MEANS SEAWALL JETTIES; PIERS; WHARVES;  
10 DOCKS; BOAT LANDINGS; MARINAS; WAREHOUSES; STOREHOUSES; ELEVATORS;  
11 GRAIN BINS; COLD STORAGE PLANTS; BUNKERS; OIL TANKS; FERRIES;  
12 CANALS; LOCKS; BRIDGES; TUNNELS; SEAWAYS; CONVEYORS; MODERN  
13 APPLIANCES FOR THE ECONOMICAL HANDLING, STORAGE, AND TRANSPORTATION  
14 OF FREIGHT AND HANDLING OF PASSENGER TRAFFIC; TRANSFER AND TERMINAL  
15 FACILITIES REQUIRED FOR THE EFFICIENT OPERATION AND DEVELOPMENT OF  
16 PORTS AND HARBORS; OTHER HARBOR IMPROVEMENTS; OR IMPROVEMENTS,  
17 ENLARGEMENTS, REMODELING, OR EXTENSIONS OF ANY OF THESE BUILDINGS  
18 OR STRUCTURES. PORT FACILITIES DO NOT INCLUDE AN INTERNATIONAL  
19 BRIDGE OR INTERNATIONAL TUNNEL.**

20 (J) ~~(i)~~—"Project" means an economic development project and,  
21 in addition, means the acquisition, construction, reconstruction,  
22 conversion, or leasing of an industrial, commercial, retail,  
23 agricultural, or forestry enterprise, or any part of these, to  
24 carry out the purposes and objectives of this act and of the fund,  
25 including, but not limited to, acquisition of land or interest in  
26 land, buildings, structures, or other planned or existing planned

1 equipment, or furnishings which include, but are not limited to,  
2 the following: research parks; office facilities; engineering  
3 facilities; research and development laboratories; warehousing  
4 facilities; parts distribution facilities; depots or storage  
5 facilities; port facilities; railroad facilities, including

1 balances of appropriations, allocations, and other funds of the  
2 fund, including the functions of budgeting, procurement, personnel,  
3 and management-related functions, shall be retained by the fund,  
4 and the fund shall be an autonomous entity within the department of  
5 treasury in the same manner as the Michigan employment security  
6 commission was designated an autonomous entity within the Michigan  
7 department of labor under section 379 of the executive organization  
8 act of 1965, 1965 PA 380, MCL 16.479.

24 information submitted by the applicant that is considered by the  
25 applicant and acknowledged by the board or a designee of the board  
26 as confidential shall not be subject to the disclosure requirements  
27 of the freedom of information act, 1976 PA 442, MCL 15.231 to

1 15.246. The disclosure of a record concerning investment  
2 information described in section 88c under the freedom of  
3 information act, 1976 PA 442, MCL 15.231 to 15.246, is subject to  
4 the limitations provided in section 88c. The board may also meet in  
5 closed session pursuant to the open meetings act, 1976 PA 267, MCL

8 information submitted by the applicant and considered by the  
9 applicant as confidential. Unless considered proprietary  
10 information, the board shall not acknowledge routine financial  
11 information as confidential. If the board determines that  
12 information submitted to the fund is financial or proprietary  
13 information and is confidential, the board shall release a written  
14 statement, subject to disclosure under the freedom of information  
15 act, 1976 PA 442, MCL 15.231 to 15.246, that states all of the

2 agreement the fund is authorized to enter into shall not be  
3 considered financial or proprietary information that may be exempt  
4 from disclosure under subsection (9).

5 (12) For purposes of subsections (9), (10), and (11),  
6 "financial or proprietary information" means information that has  
7 not been publicly disseminated or which is unavailable from other
