22 March 1 of each year or after March 1 of the renewal year in the  
23 case of electrical contractors, fire alarm contractors, or sign  
24 specialty contractors, a license that is not renewed is void and  
25 may only be reinstated if an application for reinstatement is

1 submitted and the appropriate license fee for the appropriate  
2 class is paid.

3 (8) A license for an electrical contractor, fire alarm

14 specialty contractors.

15 (9) If a person applying for an initial or reinstatement  
16 contractor's license at a time other than between December 31 and  
17 March 1 of the year in which the department issues renewal  
18 licenses, the department of licensing and regulatory affairs  
19 shall compute and charge the 3-year license fee described in  
20 subsection (8) on a yearly pro rata basis beginning in the year  
21 of the application until the last year of the 3-year license  
22 cycle.

23 (10) The department of licensing and regulatory affairs  
24 shall issue an initial or renewal license for an electrical  
25 contractor, fire alarm contractor, or sign specialty contractor  
26 not later than 90 days after the applicant files a completed  
27 application. The date of filing of the application is considered

1 the date the application is received by any agency or department  
2 of this state. If the application is considered incomplete by the  
3 department of licensing and regulatory affairs, the department of  
4 licensing and regulatory affairs shall notify the applicant in  
5 writing, or make the information electronically available to the  
6 applicant, within 30 days after the date of filing of the  
7 incomplete application, describing the deficiency and requesting  
8 the additional information. The 90-day period is tolled from the  
9 date of notification by the department of licensing and  
10 regulatory affairs of a deficiency until the date the requested  
11 information is received by the department of licensing and  
12 regulatory affairs. The determination of the completeness of an  
13 application does not operate as an approval of the application  
14 for the license and does not confer eligibility of an applicant  
15 determined otherwise ineligible for issuance of a license.

16 (11) If the department of licensing and regulatory affairs  
17 fails to issue or deny a license within the time required by this  
18 section, the department of licensing and regulatory affairs shall  
19 return the license fee and shall reduce the license fee for the  
20 applicant's next renewal application, if any, by 15%. The failure  
21 to issue a license within the time required under this section  
22 does not allow the department of licensing and regulatory affairs  
23 to otherwise delay the processing of the application, and the  
24 department shall place that application, when completed, in  
25 sequence with other completed applications received at that same  
26 time. The department of licensing and regulatory affairs shall  
27 not discriminate against an applicant in the processing of the

1 application based on the fact that the license fee was refunded  
2 or discounted under this subsection.

3 (12) The director of the department of licensing and  
4 regulatory affairs shall submit a report by December 1 of each  
5 year to the standing committees and appropriations subcommittees  
6 of the senate and house of representatives concerned with  
7 occupational issues. The director shall include all of the  
8 following information in the report concerning the preceding  
9 fiscal year:

11 department received and completed within the 90-day time period  
12 described in subsection (10).

15 within the 90-day time period and the amount of money returned to  
16 licensees under subsection (11).

17 (13) The board shall provide for the examinations required  
18 under sections 3b to 3k. The board and department of licensing  
19 and regulatory affairs, acting jointly, may develop an  
20 examination or contract for the use of an examination developed  
21 by another governmental subdivision or any other entity,  
22 including, but not limited to, the national assessment institute,  
23 that the department of licensing and regulatory affairs and the  
24 board, acting jointly, review and determine is designed to test  
25 the qualifications and competency of applicants seeking a license  
26 under this act. All of the following apply to the examinations  
27 described in this subsection:

1           (a) The examination for electrical journeymen under section  
2 3d and master electricians under section 3c shall include, but

5 Stille-DeRossett-Hale single state construction code act, any  
6 code adopted under section 4 of that act, MCL 125.1504, any code

8 theory relative to those codes.

9           (b) The examination for electrical contractors under section  
10 3b shall include, but not be limited to, questions designed to  
11 test an individual's knowledge of this act, any rules promulgated  
12 under this act, the Stille-DeRossett-Hale single state  
13 construction code act, and the administration and enforcement  
14 procedures of any code adopted under section 8a of that act, MCL  
15 125.1508a.

16           (c) The examination for fire alarm specialty licenses under  
17 section 3f, 3g, or 3h shall include questions designed to test an  
18 individual's knowledge of this act, any rules promulgated under  
19 this act, and the Stille-DeRossett-Hale single state construction  
20 code act, as relating to fire alarm systems. The board and  
21 department of licensing and regulatory affairs, acting jointly,  
22 may require, as a condition for licensure, certification of the  
23 applicant in the field of fire alarm systems technology by the  
24 national institution for certification in engineering technology  
25 or equivalent certification as determined by the board.

26           (d) The examination for sign specialty licenses under  
27 section 3j or 3k shall include, but not be limited to, questions

1 designed to test an individual's knowledge of this act and any  
2 rules promulgated under this act relating to electric signs and  
3 applicable sections of the code.

4 (e) Examinations shall be offered at locations throughout  
5 the state as determined by the board. The department of licensing  
6 and regulatory affairs in consultation with the board may  
7 designate a person to give the examination at any location.  
8 Copies of examinations developed by a governmental subdivision  
9 shall be presented for board approval, shall remain the property  
10 of the governmental subdivision, and shall be returned to that  
11 governmental subdivision without having been copied or reproduced  
12 in any manner.

13 (14) The department of licensing and regulatory affairs  
14 shall annually submit to the members of the legislature a  
15 comprehensive report detailing the expenditure of the additional  
16 money resulting from the 1989 amendatory act that increased the  
17 fees contained in this section.

18 (15) The department of licensing and regulatory affairs  
19 shall waive any fee otherwise required under this section if the  
20 person responsible for paying the fee meets any of the following:

21 (a) If the person is an individual, he or she is, and  
22 provides proof satisfactory to the department that he or she is,  
23 an honorably discharged veteran of the armed forces of the United  
24 States.

25 (b) If the person is a nonprofit corporation organized on a  
26 membership or directorship basis, a majority of the members or

12 any applicable licensing fees and any other information, records,  
13 approval, security, or similar item required by law or rule from

15 but not from another department or agency of this state.

16 Enacting section 1. This amendatory act takes effect October  
17 1, 2015.
