House of Representatives
100th Legislature
REGULAR SESSION OF 2020

House Chamber, Lansing, Thursday, June 11, 2020.

12:00 Noon.

The House was called to order by the Clerk.

The roll was called by the Clerk of the House of Representatives, who announced that a quorum was not present.

Motions and Resolutions

Reps. Berman, Maddock, Glenn, VanWoerkom, Afendoulis, Meerman, Wozniak, Steven Johnson, Wentworth, Mueller, Griffin, Bollin, Filler, Lightner, Paquette, Bellino, Alexander, Crawford, Farrington, Reilly, Hall, Marino, Frederick, Vaupel, Rendon, Hoitenga, Hauck, Kahle, Huizenga, Calley, Wakeman, O'Malley, Wendzel, Webber, Yaroch, Eisen, Slagh, Allor, VanSingel, Whiteford and Miller offered the following resolution:

House Resolution No. 276.

A resolution to oppose the Governor's policies regarding the placement of COVID-19 patients into nursing homes.

Whereas, Before COVID-19 made its way into Michigan, one of the most important tasks was keeping the virus out of Michigan's long-term care facilities. From a very early point, it was abundantly clear nursing home residents are particularly vulnerable to COVID-19. The average age of Michigan nursing home residents is 82. Many of these elderly Michiganders have underlying health conditions, which make them more susceptible to the serious complications of COVID-19. Given the nature of nursing homes and the vulnerable status of residents, these facilities have become epicenters of COVID-19 in Michigan and across the country; and

Whereas, Despite knowledge of the significant vulnerabilities of residents in nursing homes to COVID-19, the Whitmer administration was one of very few state administrations across the country to implement a reckless and irresponsible policy that placed COVID-19 residents into nursing homes that also housed non-infected residents; and

Whereas, On April 15, 2020, Governor Whitmer signed Executive Order 2020-50, which required long-term care facilities below 80 percent capacity to create "dedicated units" that are isolated wards to treat medically stable COVID-19 residents. Nursing homes without dedicated units were required to send medically stable COVID-19 patients to nearby "regional hubs" if capacity allowed. Under the order, a "regional hub" is "a nursing home that is designated by [the Michigan Department of Health and Human Services (DHHS)] as a dedicated facility to temporarily and exclusively provide care to COVID-affected residents." There are 21 regional hubs across Michigan, more than 50 percent being located in southeast Michigan where COVID-19 has been more prevalent; and

Whereas, The Whitmer administration is in the process of approving two more regional hubs, despite the Governor admitting in her own press conference and during testimony before a U.S. House subcommittee that her nursing home policy has flaws. This puts even more of Michigan's most vulnerable individuals in harm's way; and

Whereas, DHHS has estimated over 3,000 people of all ages who meet eligibility criteria to receive skilled nursing care have been discharged from hospitals or long-term care facilities to a regional hub. Regional hubs also serve as primary residencies for Michiganders; and

Whereas, The Governor's policies placed COVID-19 patients into nursing homes despite a lack of proper equipment, staffing levels, and protocols to protect residents. In the beginning weeks of the COVID-19 outbreak, the supply of personal protective equipment (PPE) for long-term care facilities was severely scarce, and testing capabilities were limited. DHHS has admitted that, prior to new testing efforts, testing of both nursing home residents and caregivers was sporadic early on. Even worse, because nursing homes across the state were not required to provide dedicated staff for COVID-19 units, cross-contamination most likely occurred. Nursing homes with staffing shortages had no other option than to have caregivers alternate between COVID-19 wings and general population wings; and

Whereas, As more data is collected, we fear that hundreds of deaths in nursing homes will be attributed to the Whitmer administration's policies. Recent state reports have indicated nursing home residents account for nearly 25 percent of all COVID-19 deaths in Michigan. This percentage could be much higher, as the Whitmer administration has not been transparent about long-term care facility deaths. Data surrounding long-term care facilities was first reported to be "inaccurate" and "undercounted," and the data available to the public is far from complete; and

Whereas, Better alternatives were available to send COVID-19 patients. Prior to Executive Order 2020-50 being signed, the state entered two separate contracts to open field hospitals to serve as alternate care facilities. The Legislature originally approved the funding to equip the Governor and her administration with the flexibility they needed to care for COVID-19 patients and prevent local hospitals from exceeding capacity. The TCF Center in Detroit and the Suburban Collection Showplace in Novi were leased and retrofitted into field hospitals with the capability of housing up to 1,000 patients each. The monthly cost for each has been roughly \$1.1 million and \$1.32 million per month in taxpayer dollars to lease. The TCF Center closed within a month of opening and after caring for a total of 39 patients. The Suburban Collection Showplace in Novi remains open and has cared for roughly 10 patients; and

Whereas, While the largely unused field hospitals cared for only about 50 patients total, regional hub nursing homes continue to take in COVID-19 patients. This is not just a mistake. It is a fatal error in decision-making. COVID-19 patients should be admitted into field hospitals where millions in taxpayer dollars are being spent to keep the Suburban Collection Showplace field hospital open; and

Whereas, The Governor continues to issue executive orders without changing course on this alarming policy. In fact, Executive Order 2020-95, issued May 20, 2020, stated long-term care facilities that have been deemed regional hubs "must accept COVID-19-affected residents..." This order, which remains in effect today, proves the Whitmer administration remains committed to this practice; and

Whereas, Several unanswered questions remain as to why this policy was ever allowed to exist in the first place. Such a policy is a blatant disregard for human life, and the people of Michigan deserve answers. As duly elected representatives of the people, our top priority is protecting the health and well-being of all Michiganders. These are grandparents, parents, spouses, and siblings being put in danger. We are determined to make sure those involved in this fatal policy are held accountable and that the families impacted by it receive the answers they deserve; now, therefore, be it

Resolved by the House of Representatives, That we oppose the Governor's policies regarding the placement of COVID-19 patients into nursing homes; and be it further

Resolved, That copies of this resolution be transmitted to the Governor.

The resolution was referred to the Committee on Health Policy.

Reps. Hoadley, Pohutsky, Clemente, Cherry, Sneller, Pagan, Hood, Koleszar, Brenda Carter, Sabo, Kennedy, Cynthia Neeley, Shannon, Tate, Brixie, Ellison, Hope, Stone, Rabhi, Manoogian, Bolden, Hertel, Kupp, Peterson, Guerra, Elder, Chirkun, Tyrone Carter, Garrett, Anthony, Cynthia Johnson, Wittenberg, Cambensy, Byrd, Garza, Coleman, Haadsma, LaGrand, Greig, Liberati, Camilleri, Gay-Dagnogo, Hammoud, Sowerby, Warren, Whitsett, Inman, Witwer, Jones, Love and Lasinski offered the following concurrent resolution:

House Concurrent Resolution No. 26.

A concurrent resolution to memorialize the Congress of the United States to provide financial relief to state and local governments affected by COVID-19.

Whereas, The COVID-19 Pandemic has significantly impacted Michigan and the United States. Since the first reported cases in Michigan on March 10, 2020, tens of thousands of Michiganders have been infected and more than 5,500 have lost their lives to the virus. Nationally, there have been nearly 2 million infections and more than 100,000 confirmed deaths; and

Whereas, Unprecedented measures have been required to mitigate the virus' spread and protect public health. Governor Gretchen Whitmer, and other public officials across the country, have issued orders prohibiting large gatherings, closing schools, and requiring the temporary closure of nonessential businesses. The White House Coronavirus Task Force's guidelines also recommend the closure of places where people gather when there is evidence of community transmission; and

Whereas, The cost of preventing the spread of COVID-19 and protecting Michigan's citizens has been a dramatic decline in state tax revenue. As businesses are closed and residents are out of work, projected revenue from income, sales, and other taxes has significantly declined. Michigan's projected General Fund revenue has declined by \$2 billion and projected School Aid Fund revenue has declined by \$1.2 billion for the current fiscal year. Even as many businesses resume operations and other restrictions are lifted, the economic devastation from fighting COVID-19 will remain. Significant deficits are also projected for Fiscal Year 2021. Nationally, it is estimated that states could face more than \$500 billion in budget shortfalls; and

Whereas, Local governments are also facing a dire fiscal situation. Falling revenues from property, casino, and other local taxes combined with possible cuts to state revenue sharing have dramatically altered budgetary estimates for local governments, resulting in projected deficits of millions of dollars; and

Whereas, Failing to mitigate these budget shortfalls will result in unprecedented and incredibly damaging cuts to core government functions. Michigan is required to have a balanced budget each year. The cuts necessary to meet this requirement could necessitate severe reductions in funding for critical functions including education, public safety, and a host of other areas. Current projections for the School Aid Fund could require state funding to be cut by about \$700 per pupil, or more than 8 percent, for the current school year. Local units have also begun enacting hundreds of millions of dollars in cuts to prepare for expected shortfalls that could disproportionately impact low-income communities and communities of color; and

Whereas, The cuts necessary to balance state budgets may hamper states' ability to recover from the COVID-19 Pandemic. With cuts necessary across state budgets, health care; economic development programs including neighborhood development and relief for small businesses; investments in critical infrastructure such as dams; and PFAS cleanup and other cleanup efforts may also be eliminated or face funding reductions. Cutting these programs during the public health emergency and economic devastation brought by COVID-19 will make it much more difficult for states to recover from the crisis; and

Whereas, State taxpayers also pay federal taxes, and the federal government should provide support in times of crisis. According to federal data, Michigan residents paid nearly \$40 billion in federal individual income taxes, the thirteenth most of any state, during the 2017 Tax Year, the last year for which data is available. It is fair to expect that the federal government will provide support in return during times of extreme financial stress; and

Whereas, While some federal aid has already been provided to states, it will not be enough to weather the effects of the Pandemic. Michigan is receiving about \$3.8 billion from the federal Coronavirus Aid, Relief, and Economic Security (CARES) Act, but these funds may only be used for expenses related to the Pandemic. Further, the act only provides direct aid to local governments with populations over 500,000, meaning that the vast majority of Michigan's nearly 2,000 local units of government will be excluded; and

Whereas, Future relief funds should allow for flexibility in how they can be used. The deficits that states are facing are vast and may require adaptive decision making. Placing restrictions on how relief funds can be used will limit their effectiveness in helping states mitigate the fiscal impacts of the COVID-19 Pandemic; now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That we memorialize the Congress of the United States to provide continued and flexible financial relief to state and local governments affected by COVID-19; and be it further

Resolved, That copies of this resolution be transmitted to the Speaker of the United States House of Representatives, the Majority Leader of the United States Senate, and the members of the Michigan congressional delegation.

The concurrent resolution was referred to the Committee on Appropriations.
