13 with the council, shall select 1 or more prescription drug products  
14 based on any of the following criteria:

15 (a) The prescription drug product is a brand-name drug or a

17 with the Consumer Price Index, has a wholesale acquisition cost of  
18 \$60,000.00 or more per year or course of treatment or has a  
19 wholesale acquisition cost increase of \$3,000.00 or more in any 12-  
20 month period.

21 (b) The prescription drug product is a biosimilar that has a  
22 wholesale acquisition cost that is not at least 15% lower than the

25 adjusted annually for inflation in accordance with the Consumer  
26 Price Index, has a wholesale acquisition cost that meets both of  
27 the following requirements:

28 (i) Is \$100.00 or more for any of the following:

29 (A) A 30-day supply that lasts a patient for a period of 30

1 consecutive days based on the recommended dosage approved for

10 12-month period, as determined by the difference between the  
11 resulting wholesale acquisition cost and the average wholesale  
12 acquisition cost reported over the immediately preceding 12 months.

13 (d) The prescription drug product is a prescription drug  
14 product that may create affordability challenges for health care  
15 systems in this state and patients, including, but not limited to,  
16 a prescription drug product needed to address a public health  
17 emergency.

18 (2) In selecting 1 or more prescription drug products under  
19 subsection (1), the board is not required to identify each  
20 prescription drug product that meets the criteria described in  
21 subsection (1).

22 (3) The board shall determine whether to conduct a cost and  
23 affordability review for each prescription drug product that is  
24 selected under subsection (1). In making a determination under this  
25 subsection, the board shall consider input from the council and the  
26 average patient cost share for each prescription drug product.

27 (4) If the board conducts a cost and affordability review of a  
28 prescription drug product, the board may consider when conducting  
29 the review any document or research related to the manufacturer's

1 selection of the introductory price or price increase of the  
2 prescription drug product, including life cycle management, net  
3 average price in this state, market competition, projected revenue,  
4 and, subject to subsection (7), the estimated cost effectiveness of  
5 the prescription drug product. In its review, the board shall  
6 determine whether the use of a prescription drug product that is  
7 fully consistent with the labeling approved by the United States  
8 Food and Drug Administration or standard medical practice for the  
9 prescription drug product has led to or will lead to affordability  
10 challenges to health care systems in this state or high out-of-  
11 pocket costs for patients in this state. In making its  
12 determination under this subsection, the board shall consider any  
13 information that a manufacturer chooses to provide to the board and  
14 all of the following factors, to the extent practicable:

15 (a) The wholesale acquisition cost for the prescription drug  
16 product sold in this state.

17 (b) The average monetary price concession, discount, or rebate  
18 that the manufacturer provides to health insurers and pharmacy  
19 benefit managers in this state or is expected to provide to health  
20 insurers and pharmacy benefit managers in this state, expressed as  
21 a percent of the wholesale acquisition cost for the prescription  
22 drug product under review.

26 another manufacturer provides or is expected to provide to health  
27 insurers and pharmacy benefit managers in this state for  
28 therapeutic alternatives.

1 consistent with United States Food and Drug Administration labeled  
2 indications or recognized standard medical practice.

3 (f) The impact on patient access resulting from the cost of  
4 the prescription drug product relative to insurance benefit design.

5 (g) The current or expected dollar value of drug-specific  
6 patient access programs that are supported by the manufacturer.

7 (h) The relative financial impact to health, medical, or  
8 social service costs as can be quantified and compared to baseline  
9 effects of existing therapeutic alternatives.

10 (i) The average patient co-pay or other cost-sharing for the  
11 prescription drug product in this state.

12 (j) Any other factor established by the board by rule.

13 (5) If the board determines that spending on a prescription  
14 drug product reviewed under this section has led to or will lead to  
15 affordability challenges to health care systems in this state or  
16 high out-of-pocket costs for patients in this state, the board may,  
17 subject to subsection (6), establish by rule an upper payment limit  
18 for the prescription drug product. In establishing an upper payment  
19 limit under this subsection, the board shall consider all of the  
20 following:

21 (a) Relevant administrative costs related to supplying or  
22 stocking the prescription drug product.

23 (b) The impact of an upper payment limit for the prescription  
24 drug product on 340B Program entities.

25 (6) An upper payment limit established under this section must  
26 not include professional dispensing fees.

27 (7) If the board considers the estimated cost effectiveness of  
28 a prescription drug product under this section, the board shall  
29 comply with both of the following:

1 (a) The board shall not use a cost-per-quality adjusted life  
2 year, or a similar measure, to identify a subpopulation for which a  
3 prescription drug product would be less cost effective due to  
4 severity of illness, age, or preexisting disability.

5 (b) If the board uses a cost-effectiveness analysis for a  
6 prescription drug product that extends an individual's life, the  
7 board must use a cost-effectiveness analysis that weighs the value  
8 of all additional lifetime gained equally for any individual, no  
9 matter the severity of illness, age, or preexisting disability.

10 (8) An upper payment limit established under this section  
11 takes effect on the date prescribed by the board by rule but no  
12 sooner than 6 months after the date the upper payment limit is  
13 established.

14 Sec. 12. (1) Except as otherwise provided in subsection (2),  
15 if the board establishes an upper payment limit under section 11  
16 for a prescription drug product intended for use by individuals in  
17 this state, beginning on the effective date of the upper payment  
18 limit, a prescription drug product purchaser or third-party payer  
19 shall not purchase, bill, or reimburse for the prescription drug  
20 product in an amount that exceeds the upper payment limit,  
21 regardless of whether the prescription drug product is dispensed or  
22 distributed in person, by mail, or by other means.

23 (2) A prescription drug product purchaser or third-party payer  
24 shall not reimburse an independent pharmacy licensed under article  
25 15 of the public health code, 1978 PA 368, MCL 333.16101 to  
26 333.18838, for a prescription drug product in an amount less than  
27 an upper payment limit established under section 11 for the  
28 prescription drug product.

29 (3) The attorney general may investigate a violation of this

1 section and may commence a civil action against a person for  
2 appropriate relief, including, but not limited to, injunctive  
3 relief, for a violation of this section.

4 (4) This section does not prohibit any other sanction against  
5 a prescription drug product purchaser or third-party payer as  
6 provided by law.

7 Sec. 13. A person aggrieved by a decision of the board under  
8 this act may request an appeal within 30 days. A hearing and appeal  
9 is subject to the administrative procedures act of 1969, 1969 PA  
10 306, MCL 24.201 to 24.328.

11 Sec. 17. (1) The prescription drug affordability fund is  
12 created within the state treasury.

13 (2) The state treasurer shall deposit money and other assets  
14 from any source into the fund. The state treasurer shall direct the  
15 investment of money in the fund and credit interest and earnings  
16 from fund investments to the fund.

17 (3) Money in the fund at the close of the fiscal year must  
18 remain in the fund and must not lapse to the general fund.

19 (4) The department is the administrator of the fund for audits  
20 of the fund.

21 (5) The department shall expend money from the fund, on  
22 appropriation, only to fund the board and for costs expended by the  
23 department to implement this act.

24 Sec. 19. On or before December 31 of each year, the board  
25 shall submit a written report to the legislature that includes all  
26 of the following information:

27 (a) Price trends for prescription drug products.

28 (b) The number of prescription drug products that were subject  
29 to board review, including the results of the review and the number

1 and disposition of appeals of board decisions.

2 (c) Any recommendations that the board may have on further  
3 legislation to make prescription drug products more affordable in  
4 this state.

5 Sec. 20. The board shall conduct a 1-time study on all of the  
6 following and report its findings to the legislature:

7 (a) The prices of generic drugs on a year-to-year basis.

9 yearly insurance premium charges.

10 (c) Annual changes in insurance cost-sharing for generic  
11 drugs.

12 (d) The potential for and history of drug shortages.

13 (e) The degree to which the prices of generic drugs affect  
14 yearly Medicaid spending in this state.

15 (f) The impact of an upper payment limit on 340B Program  
16 entities.

17 (g) Any other issue that the board considers relevant.

19 and enter into contracts with third parties to assist the board in
