(2) The commission shall exercise its jurisdiction and authority consistent with this act and all federal telecommunications laws, rules, orders, and regulations.

History: 1991, Act 179, Eff. Jan. 1, 1992;—Am. 2000, Act 295, Imd. Eff. July 17, 2000;—Am. 2005, Act 235, Imd. Eff. Nov. 22, 2005;—Am. 2011, Act 58, Imd. Eff. June 14, 2011.

The commission requirements under this subdivision shall be consistent with any regulations covering the same subject matter made by the federal communications commission.

(b) Except as otherwise provided in this subdivision, require by order that a provider of a regulated service, including access service, make available for public inspection and file with the commission a schedule of the provider's rates, services, and conditions of service, including access service provided by contract. Except for access service, a provider is exempt from any commission order requiring that provider to file with the commission its rates, services, and conditions of regulated service if the provider files a certification with the commission opting out of the filing requirement. Rules promulgated under subsection (1)(c)(ii) shall not apply to the provision of unbundled network elements and local interconnection services subject to quality standards in an interconnection agreement approved by the commission. Any service quality rules promulgated by the commission shall expire within 3 years of the effective date of the rules. The commission may, before the expiration of the rules, promulgate new rules under subsection (1)(c). However, the commission may promulgate new rules under subsection (1)(c)(iii) at any time. Administrative rules: R 484.401 et seq. of the Michigan Administrative Code.

484.2203 Commencement of case; filing; emergency relief order; burden of proof; investigation; hearings; judicial review; continuation of service; posting security; alternative dispute process; additional relief; motion for stay.

Sec. 203. (1) Upon receipt of an application or complaint filed under this act, or on its own motion, the commission may conduct an investigation, hold hearings, and issue its findings and order under the contested hearings provisions of the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328.

(2) If a complaint filed under this section alleges facts that warrant emergency relief, the complainant may request an emergency relief order. On the date of filing, the complaint and request for emergency relief shall be hand-delivered to the respondent at its principal place of business in Michigan. The commission shall allow 5 business days for a filing in response to the request for emergency relief. The commission shall review the complaint, the request for emergency relief, the response, and all supporting materials and determine whether to deny the request for emergency relief or to conduct an initial evidentiary hearing. The initial evidentiary hearing shall be conducted within 5 business days from the date of the notice of hearing and the commission shall issue an order granting or denying the request for emergency relief. An order for emergency relief may require a party to act or refrain from action to protect competition. Any action required by an order for emergency relief shall be technically feasible and economically reasonable and the respondent shall be given a reasonable period of time to comply with the order. At the hearing for emergency relief, the respondent has the burden of showing that the order is not technically feasible and not economically reasonable. If the commission finds that extraordinary circumstances exist that warrant expedited review before the commission's issuance of a final order, it shall set a schedule providing for the issuance of a partial

final order as to all or part of the issues for which emergency relief was granted within 90 days of the issuance of the emergency relief order.

(3) An order for emergency relief may be granted under subsection (2) if the commission finds all of the following:

(a) That the party has demonstrated exigent circumstances that warrant emergency relief.

(b) That the party seeking relief will likely succeed on the merits.

(c) That the party will suffer irreparable harm in its ability to serve customers if emergency relief is not granted.

(d) That the order is not adverse to the public interest.

(4) The commission may require the complainant to post a bond in an amount sufficient to make whole the respondent in the event that the order for emergency relief is later found to have been erroneously granted.

(5) An order for emergency relief shall expire upon the sooner of any of the following:

(a) Ninety days after its issuance.

(b) Issuance of the commission's partial final order.

(c) An earlier date set by the commission. Notwithstanding this subsection, the commission may extend the emergency relief order to a date no later than the date on which the final order in the proceeding is issued.

(6) An order granting or denying emergency relief under subsection (2) shall be subject to immediate review in the court of appeals as a matter of right by the party aggrieved. The review shall be de novo and shall comply with Michigan court rule 7.211(c)(6). The court may stay an order granting emergency relief upon the posting of a bond or other security in an amount and on terms set by the court. Regardless of whether an appeal is made under this subsection, the commission shall proceed with the case and issue a final order as otherwise required under this section.

(7) An application or complaint filed under this section shall contain all information, testimony, exhibits, or other documents and information within the person's possession on which the person intends to rely to support the application or complaint. Applications or complaints that do not meet the requirements of this subsection shall be dismissed or suspended pending the receipt by the commission of the required information. If the complainant or applicant requires information in the possession of the respondent, not within the complainant's or applicant's possession, the commission may allow a reasonable opportunity for discovery to allow the complainant or applicant to provide all relevant information, testimony, exhibits, or other documents on which the complainant or applicant intends to rely to support its application or complaint.

(8) The burden of proving a case filed under this act is with the party filing the application or complaint.

(9) In a contested case under this section, the commission can administer oaths, certify all official acts, and compel the attendance of witnesses and the production of papers, books, accounts, documents, and testimony.

(10) Except as otherwise provided in this section, the commission shall issue a final order in a case filed under this section within 90 days from the date the application or complaint is filed.

(11) Except as provided for a hearing involving a request for emergency relief, if a hearing is required, the applicant or complainant shall publish a notice of hearing as required by the commission within 7 days of the date the application or complaint was filed or as required by the commission. The first hearing shall be held within 10 days after the date of the notice. If a hearing is held, the commission shall have 180 days from the date the application or complaint was filed to issue its final order. If the principal parties of record agree that the complexity of issues involved requires additional time, the commission may have up to 210 days from the date the application or complaint was filed to issue its final order. If the application or complaint is subject to section 203a, the commission shall have an additional 60 days to issue its final order.

(12) An order of the commission under this act is subject to appellate review as of right in the court of appeals. The appeal shall be initiated by the filing of a claim of appeal with the court of appeals within 30 days of the issuance of an order or within 30 days of an order issued on a petition for rehearing of an order.

(13) If a complaint is filed under this section by a provider against another provider, the provider of service shall not discontinue service during the period of the contested case, including the alternative dispute process, if the provider receiving the service has posted a surety bond, provided an irrevocable letter of credit, or provided other adequate security in an amount and on a form as determined by the commission.

(14) Except if there is a request for emergency relief under this section, if the complaint filed under this section involves an interconnection dispute between providers, the commission shall require the parties to utilize the alternative dispute process under section 203a.

(15) In addition to any other relief provided by this act, the commission or a party may seek to compel compliance with a commission order by proceedings in mandamus, injunction, or by other appropriate civil remedies in the circuit court or other court of proper jurisdiction.

(16) Upon the filing of a motion for stay, the commission may, on terms as it considers just, stay the effect or enforcement of an order, except an order regarding rates or cost studies. A motion for stay, including a

request for setting the amount of any appeal bond, are governed by the provisions for obtaining a stay of a civil action set forth in R 7.209 of the Michigan court rules. The commission shall decide a motion for stay within 10 days from the date the motion is filed with the commission.

History: 1991, Act 179, Eff. Jan. 1, 1992;—Am. 1995, Act 216, Imd. Eff. Nov. 30, 1995;—Am. 2000, Act 295, Imd. Eff. July 17, 2000;—Am. 2005, Act 235, Imd. Eff. Nov. 22, 2005.

484.2203a Resolution of complaint by alternative means.

Sec. 203a. (1) For all complaints involving a dispute of \$1,000.00 or less, a dispute under section 203(14), or upon the consent of all parties after the complaint is filed, for a period of 60 days after the date the complaint is filed under section 203, the parties shall attempt alternative means of resolving the complaint.

(2) Any alternative means that will result in a recommended settlement may be used that is agreed to by the principal parties of record, including, but not limited to, settlement conferences, mediation, and other informal dispute resolution methods. If the parties cannot agree on an alternative means within 10 days after the date the complaint is filed, the commission shall order mediation. Within the 60-day period required under subsection (1), a recommended settlement shall be made to the parties.

(3) Within 7 days after the date of the recommended settlement, each party shall file with the commission a written acceptance or rejection of the recommended settlement. If the parties accept the recommendation, then the recommendation shall become the final order in the contested case under section 203.

(4) If a party rejects or fails to respond within 7 days to the recommended settlement, then the application or complaint shall proceed to a contested case hearing under section 203.

(5) The party that rejects the recommended settlement shall pay the opposing party's actual costs of proceeding to a contested case hearing, including attorney fees, unless the final order of the commission is more favorable to the rejecting party than the recommended settlement under this section. A final order is considered more favorable if it differs by 10% or more from the recommended settlement in favor of the rejecting party.

(6) If the recommendation is not accepted under subsection (3), the individual commissioners shall not be informed of the recommended settlement until they have issued their final order under section 203.

(7) An attempt to resolve a contested case under this section is exempt from the requirements of section 203 and the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328.

B. TOLL ACCESS SERVICE

484.2310 Rates for toll access services; intrastate switched toll access rate; restructuring mechanism; establishment; administration; report; size; mandatory monthly contributions; modifications to size, operation, or composition of restructuring mechanism; proceedings; disputes; resolution; enforcement; information to be provided by providers; definitions.

Sec. 310. (1) Except as provided by this section, the commission shall not review or set the rates for toll access services.

(2) A provider of toll access services shall set the rates for intrastate switched toll access services at rates that do not exceed the rates allowed for the same interstate services by the federal government and shall use the access rate elements for intrastate switched toll access services that are in effect for that provider and are allowed for the same interstate services by the federal government. Eligible providers shall comply with this subsection as of the date established for the commencement of the operation of the restructuring mechanism under subsection (9). Providers other than eligible providers shall not charge intrastate toll access service rates in excess of those rates in effect as of July 1, 2009 and shall reduce the differential, if any, between intrastate and interstate switched toll access service rates in effect as of July 1, 2009 in no more than 5 steps of at least 20% each of the differential on the following dates: January 1, 2011; January 1, 2012; January 1, 2013; January 1, 2014; and January 1, 2015. Providers may agree to a rate that is less than the rate allowed by the federal government.

(3) Two or more providers that each have less than 250,000 access lines may agree to joint toll access service rates and pooling of intrastate toll access service revenues.

(4) A provider of toll access services shall make available for intrastate access services any technical interconnection arrangements, including colocation required by the federal government for the identical interstate access services.

(5) A provider of toll access service, whether under tariff or contract, shall offer the services under the same rates, terms, and conditions, without unreasonable discrimination, to all providers. All pricing of special toll access services and switched access services, including volume discounts, shall be offered to all providers under the same rates, terms, and conditions.

(6) If a toll access service rate is reduced, then the provider receiving the reduced rate shall reduce its rate to its customers by an equal amount. The commission may investigate and ensure that the provider has complied with this subsection.

(7) In order to restructure intrastate switched toll access service rates, there is hereby established in the

department of licensing and regulatory affairs an intrastate switched toll access rate restructuring mechanism as a separate interest-bearing fund. The state treasurer shall direct the investment of the restructuring mechanism. Money in the restructuring mechanism shall remain in the restructuring mechanism at the close of the fiscal year and shall not revert to the general fund.

(8) An eligible provider is entitled to receive monthly disbursements from the restructuring mechanism as provided in subsection (11) in order to recover the lost intrastate switched toll access service revenues resulting from rate reductions under subsection (2).

(9) The restructuring mechanism shall be administered by the commission. The restructuring mechanism shall be established and shall begin operation by September 13, 2010. Subject to the preceding sentence, the commission shall establish the date for commencing the operation of the restructuring mechanism and shall notify the participants in the restructuring mechanism at least 30 days in advance of that date. The commission shall recover its actual costs of administering the restructuring mechanism from assessments collected for the operation of the restructuring mechanism.

(10) The commission shall establish the procedures and timelines for organizing, funding, and administering the restructuring mechanism. The commission shall report to the legislature and the governor annually regarding the administration of the restructuring mechanism. The report shall include the total amount of money collected from contributing providers, the total amount of money disbursed from the restructuring mechanism annually to each eligible provider, the costs of administration, and any other information considered relevant by the commission. The report shall also identify any duplicative costs or revenues that are already being recovered by eligible providers through federal access recovery charges or the connect America fund. If the commission identifies duplicative recovery, the commission shall notify the federal communications commission and all contributing providers. Any duplicative recovery identified by the commission is not exempt from public disclosure under section 210. Beginning with the first report following the recalculation required under subsection (16), the annual report shall include recommendations for altering the restructuring mechanism, based on the results of the recalculation and the state and federal regulations in effect at the time, to ensure that the restructuring mechanism is still achieving the purposes for which it was originally established. Any company-specific information pertaining to access lines, switched toll access services minutes of use, switched toll access demand quantities, contributions, and intrastate telecommunication services revenues submitted to the commission under this subsection are confidential commercial or financial information and exempt from public disclosure under section 210.

(11) The initial size of the restructuring mechanism shall be calculated as follows:

(a) By February 15, 2010 each eligible provider shall submit to the commission information and all the supporting documentation that establishes the amount of the reduction in annual intrastate switched toll access revenues that will result from the reduction in rates required in subsection (2). The reduction shall be calculated for each eligible provider as the difference between intrastate and interstate switched toll access service rates in effect as of July 1, 2009, multiplied by the intrastate switched access minutes of use and other switched access demand quantities for the calendar year 2008.

(b) The commission shall compute the size of the initial restructuring mechanism disbursements for each eligible provider and shall inform each eligible provider of that computation within 60 days after receiving the information and supporting documentation from the eligible providers under subdivision (a).

(12) The restructuring mechanism shall be created and supported by a mandatory monthly contribution by all providers of retail intrastate telecommunication services and all providers of commercial mobile service. Interconnected voice over internet protocol services shall not be considered an intrastate telecommunication service for the purposes of this section and interconnected voice over internet protocol service providers shall not be required to pay, directly or indirectly, the mandatory monthly contributions established in this subsection. A provider of telecommunication services to a provider of interconnected voice over internet protocol services shall not pay a mandatory monthly contribution related to those interconnected voice over internet protocol services or attempt to pass through any mandatory monthly contributions, directly or indirectly, to a provider of interconnected voice over internet protocol services. Nothing in this act grants the commission authority over commercial mobile service providers or voice over internet protocol service providers except as is strictly necessary for administration of the restructuring mechanism.

(13) By February 15, 2010, each contributing provider shall report its 2008 intrastate retail telecommunication services revenues to the commission. Notwithstanding anything in subsection (12), if the federal communications commission determines that interconnected voice over internet protocol services may be subject to state regulation for universal services purposes, the commission may open a proceeding to determine who is required to participate in a universal service fund.

(14) The initial contribution assessment percentage shall be a uniform percentage of retail intrastate telecommunication services revenues determined by projecting the total amount necessary to cover the initial

intrastate switched toll access rate restructuring mechanism disbursement levels for 12 months, including projected cash reserve requirements, actual and projected administrative costs, and projected uncollectible contribution assessments, divided by the 2008 calendar year total retail intrastate telecommunication services revenues in this state, less projected uncollectible revenues, reported to the commission. The commission shall issue an order establishing the initial calculation of the contribution assessment percentage by May 16, 2010. The commission may increase or decrease the contribution assessment on a quarterly or other basis as necessary to maintain sufficient funds for disbursements.

(15) Each contributing provider shall remit to the commission on a monthly basis an amount equal to its intrastate retail telecommunication services revenues, less uncollectible revenues, multiplied by the contribution assessment percentage determined under subsection (14), according to a time frame established by the commission. These contributions shall continue until the end of the period for which eligible providers are entitled to receive monthly disbursements from the restructuring mechanism under subsections (11) and (16).

(16) The commission shall recalculate the size of the restructuring mechanism for each eligible provider on March 13, 2018. The recalculation process shall be as follows:

(a) The restructuring mechanism shall be recalculated as the difference between the intrastate switched toll access rates in effect as of July 1, 2009 and the interstate switched toll access rates in effect at the time of the recalculation, multiplied by the intrastate switched toll access minutes of use and other switched access demand quantities for the calendar year 2008.

(b) The recalculated restructuring mechanism shall be further adjusted during the recalculation by the percentage change, if any, in the number of access lines in service for each eligible provider from December 31, 2008 to December 31 of the year immediately preceding the year in which the adjustment is made.

(c) Each eligible provider is entitled to receive monthly disbursements from the restructuring mechanism for a period of no more than 12 years from the date the restructuring mechanism is established under subsection (9), at which time the restructuring mechanism shall cease to exist.

(d) The commission shall reduce the amount of the monthly disbursement to an eligible provider from the restructuring mechanism on a pro rata basis for each exchange in which the provider discontinues basic local exchange service under section 313. A reduction under this subsection is effective on the date of the discontinuance of service.

(17) The money received and administered by the commission for the support and operation of the restructuring mechanism created by 2009 PA 182 shall not be used by the commission or any department, agency, or branch of the government of this state for any other purpose, and that money is not subject to appropriation, allocation, assignment, expenditure, or other use by any department, agency, or branch of the government of this state.

(18) If the federal government adopts intercarrier compensation reforms or takes any action that causes or requires a significant change in interstate switched toll access service rates, the commission may initiate, or any interested party may file an application for, a proceeding under section 203 within 60 days of that action to determine whether any modifications to the size, operation, or composition of the restructuring mechanism are warranted. During the pendency of that proceeding, the requirement in subsection (2) for eligible providers to set intrastate switched toll access service rates equal to interstate switched toll access service shall be temporarily suspended by those providers. Intrastate access rates may not be increased above the levels that exist at the time of the suspension. Following notice and hearing, upon a showing of good cause, the commission may stop or place certain conditions on the temporary suspension.

(19) If the federal government changes the federal universal service contribution methodology so that it is not based on a percentage of total interstate telecommunication services revenues, the commission shall modify the contribution methodology for the restructuring mechanism to be consistent with the federal methodology. The commission shall initiate a proceeding to modify the contribution methodology for the restructuring mechanism and to establish a reasonable time period for transition to the new contribution methodology.

(20) Disputes arising under this section may be submitted to the commission for resolution under sections 203 and 204.

(21) If any contributing provider subject to this section fails to make the required contributions or fails to provide required information to the commission, the commission shall initiate an enforcement proceeding under section 203. If the commission finds that a contributing provider has failed to make contributions or to perform any act required under this section, a contributing provider is subject to the remedies and penalties under section 601.

(22) Eligible providers and contributing providers shall provide information to the commission that is required for the administration of the restructuring mechanism. Company-specific information pertaining to

access lines, switched toll access services minutes of use, switched toll access demand quantities, contributions, and intrastate telecommunication services revenues submitted to the commission under this subsection is confidential commercial or financial information and exempt from public disclosure under section 210.

Sec. 312c. (1) Before connecting any call, the operator service provider that owns or operates the payphone or contracts to provide toll service for the payphone provider shall at no charge disclose, audibly and distinctly, how the consumer may receive a rate quote.

(2) To receive a rate quote, the consumer shall have the option of either pressing a sequence of not more than 2 keys or staying on the line for assistance.

(3) The consumer shall not be assessed any charge for the use of the payphone or toll service if the consumer terminates the call after receiving the rate quote.

(4) This section does not apply to calls made by a consumer utilizing his or her toll provider of choice by dialing the provider's access service method.

(5) As used in this section, "consumer" means a person initiating a telephone call using an operator service. In collect calling arrangements handled by an operator service provider, the term consumer includes the party on the terminating end of the call. D. DISCONTINUANCE OF SERVICES

484.2313 Discontinuance of service.

Sec. 313. (1) A telecommunication provider that provides either basic local exchange or toll service, or both, shall not discontinue either service to an exchange unless 1 or more alternative providers for toll service, or 2 or more alternative providers for basic local exchange service, are furnishing a comparable voice service to the customers in the exchange. A comparable voice service includes any 2-way voice service offered through any form of technology that is capable of placing and receiving calls from a provider of basic local exchange service, including voice over internet protocol services and wireless services.

(2) A telecommunication provider proposing to discontinue a regulated service to an exchange shall file a notice of the discontinuance of service with the commission, publish the notice in a newspaper of general circulation within the exchange, provide notice to each of its customers within the exchange by first-class mail or within customer bills, and provide other reasonable notice as required by the commission.

(3) Within 60 days after the date of publication or receipt of the notice required by subsection (2), a person or other telecommunication provider affected by a discontinuance of services by a telecommunication provider may apply to the commission to determine if the discontinuance of service is authorized under this act. Within 90 days after the date of publication of the notice required by subsection (2), the commission may, in response to a request or on its own initiative, commence a proceeding to determine if the discontinuance of service is authorized under this act. The commission has 180 days from the date any proceeding is initiated under this subsection to issue its final order. A provider shall not discontinue service unless it has provided at least 60 days' notice to each customer after a commission order has been issued under this subsection or after the last day for initiating a proceeding under this subsection.

(4) Discontinuance of basic local exchange service under this section by an incumbent local exchange carrier does not affect the requirements of that incumbent local exchange carrier under federal law and this act. As used in this subdivision, "incumbent local exchange carrier" means that term as defined in section 251(h) of the telecommunications act of 1996, 47 USC 251. This section does not create, restrict, or expand the commission's jurisdiction and authority for any of the following:

(a) The jurisdiction and authority established under section 201.

(b) The jurisdiction and authority to carry out the commission's obligations to enforce the rights, duties, and obligations of an entity that are established in sections 251 and 252 of the telecommunications act of 1996, 47 USC 251 and 252, and any applicable agreement or wholesale tariff or state law, rule, regulation, or order related to wholesale rights, duties, and obligations, including, but not limited to, interconnection and exchange voice traffic.

(c) The jurisdiction and authority to regulate switched access rates, terms, and conditions, including the implementation of federal or state law concerning intercarrier compensation.

(5) Subsections (1) to (3) do not apply after December 31, 2016. Beginning January 1, 2017, a telecommunication provider that provides basic local exchange or toll service may discontinue that service in an exchange by doing each of the following:

(a) At the same time as filing a petition under section 214 of the telecommunications act of 1996, 47 USC 214, all of the following:

(i) File a notice of the proposed discontinuance of service with the commission.

(ii) Publish a notice of the proposed discontinuance of service in a newspaper of general circulation within the exchange.

(iii) Provide notice of the proposed discontinuance of service to each of the telecommunication provider's customers within the exchange by first-class mail or within customer bills.

(iv) Provide notice of the proposed discontinuance of service to any interconnecting telecommunication providers by first-class mail or other notice permitted under the terms of the interconnection agreement between the providers.

(b) Upon approval of the federal communications commission to discontinue service, at least 90 days before discontinuing service, all of the following:

(i) File a notice of the discontinuance of service with the commission.

(ii) Publish a notice of the discontinuance of service in a newspaper of general circulation within the exchange.

(iii) Provide notice of the discontinuance of service to each of the telecommunication provider's customers within the exchange by first-class mail or within customer bills.

(iv) Provide notice to any interconnecting telecommunication providers by first-class mail or other notice permitted under the terms of the interconnection agreement between the providers.

(6) After January 1, 2017, and only in an area in which a telecommunication provider either has given notice of a proposed discontinuance of service under subsection (5) or has discontinued service within the

previous 90 days, a customer of that provider or any interconnecting telecommunication provider may request the commission to investigate the availability of comparable voice service with reliable access to 9-1-1 and emergency services to that customer or a customer of an interconnecting telecommunication provider. If the commission, after conducting an investigation to last no longer than 180 days regarding the availability of comparable voice service with reliable access to 9-1-1 and emergency services, determines that the federal communications commission failed to make a finding that the present and future public convenience and necessity is not adversely affected or has not adequately addressed the issue, the commission shall declare by order that an emergency exists in an area in this state that is not served by at least 1 voice service provider offering comparable voice service with reliable access to 9-1-1 and emergency services through any technology or medium and shall conduct a request for service process to identify a willing provider of comparable voice service with reliable access to 9-1-1 and emergency services in that area, including the current provider. A provider shall not be required to participate in the request for service process. The willing provider may utilize any form of technology that is capable of providing comparable voice service with reliable access to 9-1-1 and emergency services, including voice over internet protocol services and wireless services. If the commission determines that another provider is not capable of providing comparable voice service with reliable access to 9-1-1 and emergency services in that area, the commission shall issue an order requiring the current telecommunication provider to provide comparable voice service with reliable access to 9-1-1 and emergency services in that area utilizing any form of technology that the commission determines is capable of providing comparable voice service with reliable access to 9-1-1 and emergency services, including voice over internet protocol services and wireless services, until another willing provider is available. An intrastate universal service fund under section 316a shall not be created or used to compensate or fund a willing provider or current telecommunication provider to provide service under this section. As used in this subsection:

(a) "Comparable voice service" includes any 2-way voice service offered through any form of technology, including voice over internet protocol services and wireless services, that is capable of placing calls to and receiving calls from a provider of basic local exchange service.

(b) "Emergency services" means services provided to the public by police, fire, ambulance, or other first responders.

(c) "Reliable access to 9-1-1" means the rules, regulations, and guidelines set forth in the FCC trials order, including all appendices, that provide comparable and reliable consumer access to emergency services.

(d) "Willing provider" means a provider that voluntarily participates in the request for service process.

(7) Beginning January 1, 2017, a telecommunication provider that discontinues service under this section shall adhere to all rules, regulations, and guidelines set forth in the FCC trials order, including all appendices, for each of that telecommunication provider's exchanges in this state, whether or not the discontinuance is undertaken pursuant to an official trial under the FCC trials order, except that all notices or reports to be filed with the federal communications commission shall be submitted to the Michigan public service commission for its information. This subsection is effective until the federal communications commission determines the legal and policy framework and establishes the requirements for the IP-transition including emergency connectivity requirements that provide comparable and reliable consumer access to emergency services.

(8) As used in this section, "FCC trials order" means the order of the federal communications commission, GN docket nos. 13-5 and 12-353, adopted January 30, 2014, and any subsequent order of the federal communications commission modifying or revising that order that includes emergency connectivity requirements that provide comparable and reliable consumer access to emergency services.

484.2314 Repealed. 2011, Act 58, Imd. Eff. June 14, 2011.

Compiler's note: The repealed section pertained to discontinuing of regulated services for failure by customer to pay rate or charge imposed for unregulated service.

484.2314a Customer on active duty in military; shut-off protection.

Sec. 314a. (1) Except as otherwise provided by this section, a telecommunication provider shall not discontinue basic local exchange telecommunication service to the residence of a qualifying customer who has made a filing under this section. A customer making a filing under this section shall retain the telephone number assigned to the customer on the date of the filing.

(2) A qualifying customer may apply for shut-off protection for telecommunication service under this section by notifying the provider that the qualifying customer is in need of assistance caused by a reduction in household income through a call to active duty status in the military.

(3) A provider of service may request verification of the call to active duty status from the qualifying customer. A provider of service may also request verification of the qualified customer's reduction in household income.

(4) A provider of service may require restrictions or elimination of calling features or toll service as a condition of granting a qualifying customer's request for shut-off protection under this section.

(5) A qualifying customer may receive shut-off protection from the provider of service under this section for up to 90 days. Upon application to the provider, the provider may grant the qualifying customer 1 or more extensions.

(6) A qualifying customer receiving assistance under this section shall notify the provider of the end of the call to active duty status as soon as that status is known.

(7) Unless waived by the provider, the shut-off protection provided under this section does not void or limit the obligation of the qualifying customer to pay for telecommunication services received during the time of assistance.

(8) Within 48 hours of receiving all information requested of the qualifying customer, a provider shall do all of the following:

(a) Create a repayment plan requiring minimum monthly payments that allows the qualifying customer to pay any past due amounts over a reasonable time period not to exceed 1 year.

(b) Provide a qualifying customer with information regarding any governmental, provider, or other assistance programs.

(9) This section does not affect or amend any commission rules or orders pertaining to billing standards. If the terms and conditions arranged by the provider with the qualifying customer under subsection (8) are not followed by the customer, then the provider shall follow procedures as set forth in the commission's billing standards for basic residential telecommunication service.

(10) As used in this section, "qualifying customer" means all of the following:

(a) A residential household where the income is reduced because the customer of record, or the spouse of the customer of record, is called to active military service by the president of the United States or the governor of this state during a time of declared national or state emergency or war.

(b) Assistance is needed by the residential household to maintain telecommunication service.

(c) The residential household notifies the provider of the need for assistance and provides verification of the call to active duty status.

484.2314b Person certified as deaf or hard of hearing or speech-impaired; shut-off protection.

Sec. 314b. (1) Except as otherwise provided by this section, a telecommunication provider shall not discontinue basic local exchange telecommunication service to a residence of a person who is certified as deaf or hard of hearing, or speech-impaired by a licensed physician, licensed audiologist, or qualified state agency, who has made a filing under this section.

(2) A deaf or hard of hearing, or speech-impaired customer may apply for shut-off protection for telecommunication services under this section by notifying the provider that the deaf or hard of hearing, or speech-impaired customer is in need of assistance caused by a reduction in household income.

(3) A provider of service may request verification of the reduction in household income from the deaf or hard of hearing, or speech-impaired customer.

(4) A provider of service may require restrictions or elimination of calling features or toll service as a condition of granting a deaf or hard of hearing, or speech-impaired customer's request for shut-off protection under this section. The provider shall not restrict the deaf or hard of hearing, or speech-impaired customer's access to a telecommunication relay service required under section 315.

(5) A deaf or hard of hearing, or speech-impaired customer may receive shut-off protection from the provider of service under this section for up to 90 days. Upon application to the provider, the provider may grant the qualifying customer 1 or more extensions.

(6) Unless waived by the provider, the shut-off protection provided under this section does not void or limit the obligation of the qualifying customer to pay for telecommunication services received during the time of assistance.

(7) Within 48 hours of receiving all information requested of the deaf or hard of hearing, or speech-impaired customer, a provider shall do all of the following:

(a) Create a repayment plan requiring minimum monthly payments that allows the deaf or hard of hearing, or speech-impaired customer to pay any past due amounts over a reasonable time period not to exceed 1 year.

(b) Provide a deaf or hard of hearing, or speech-impaired customer with information regarding any

governmental, provider, or other assistance programs.

(8) This section does not affect or amend any commission rules or orders pertaining to billing standards. If the terms and conditions arranged by the provider with the deaf or hard of hearing, or speech-impaired customer under subsection (7) are not followed by the customer, then the provider shall follow procedures as set forth in the commission's billing standards for basic residential telecommunication service.

Sec. 315. (1) The commission shall require each provider of basic local exchange service to provide a text telephone-telecommunications device for the deaf at cost to each individual who is certified as deaf or hard of hearing or speech-impaired by a licensed physician, licensed audiologist, or qualified state agency, and to each public safety answering point as defined in section 102 of the emergency 9-1-1 service enabling act, 1986 PA 32, MCL 484.1102.

(2) The commission shall require each provider of basic local exchange service to provide a telecommunication relay service whereby persons using a text telephone-telecommunications device for the deaf can communicate with persons using a voice telephone through the use of third party intervention or automated translation. Each provider of basic local exchange service shall determine whether to provide a telecommunication relay service on its own, jointly with other basic local exchange providers, or by contract with other telecommunication providers. The commission shall determine the technical standards and essential features of text telephone and telecommunication relay service to ensure their compatibility and reliability.

(3) Rates and charges for calls placed through a telecommunication relay service shall not exceed the rates and charges for calls placed directly from the same originating location to the same terminating location. Unless ordered by the commission, a provider of a telecommunications relay service shall not be required to handle calls from public telephones except for calls charged collect or to cash, a credit card, or a third party number.

(4) Notwithstanding any other provision of this act, a provider may offer discounts on toll calls where a text telephone-telecommunications device for the deaf is used. The commission shall not prohibit such discounts on toll calls placed through a telecommunication relay service.

(5) The commission shall establish a rate for each subscriber line of a provider to allow the provider to recover costs incurred under this section and may waive the costs assessed under this section to individuals who are deaf or severely hearing impaired or speech impaired. The rate established by the commission under this subsection may be assessed as a line item on an end-user's bill.

Sec. 316. (1) The commission shall require each provider of residential basic local exchange service to offer certain low income customers the availability of basic local exchange service and access service at reduced rates as described in subsections (2) and (3).

(2) Except as provided under subsections (3) and (4), the rate reductions for low income customers shall be at a minimum, 20% of the basic local exchange rate or \$8.25, which shall be, inclusive of any federal contribution, whichever is greater.

(3) Except as provided under subsection (4), if the low income customer is 65 years of age or older, the rate reduction shall be, at a minimum, 25% of the basic local exchange rate or \$12.35, which shall be inclusive of any federal contribution, whichever is greater.

(5) To qualify for the reduced rate under this section, the person's annual income shall not exceed 150% of the federal poverty guidelines published annually in the federal register by the United States department of health and human services and as approved by the state treasurer, or the person must participate in 1 of the following federal assistance programs:

Sec. 316a. (1) As used in this section:

(a) "Affordable rates" means, at a minimum, rates in effect on January 1, 2006 or as determined by the commission.

(b) "Intrastate universal service fund" means a fund created by the commission to provide a subsidy to customers for the provision of supported telecommunication services provided by any telecommunication carrier.

(d) "Universal service" shall mean the provision of supported telecommunication services by any carrier.

(2) The commission shall determine for each provider whether and to what extent the affordable rate level to provide supported telecommunication services is below each provider's forward looking economic cost of the supported telecommunication services.

(3) If an intrastate universal fund is created under this section, to the extent providers provide supported telecommunication services at an affordable rate that is below the forward looking economic cost of the supported telecommunication services, the fund shall provide a subsidy for customers in an amount which is equal to the difference between the affordable rate as determined by the commission and the forward looking economic cost of the supported services, less any federal universal service support received for those supported services.

(4) Eligibility for customers to receive intrastate universal service support under subsection (3) shall be consistent with the eligibility guidelines of section 254(e) of the telecommunications act of 1996 and the rules and regulations of the federal communications commission. The state fund shall be administered by an independent third-party administrator selected by the commission.

(5) To the extent an intrastate universal service fund is established, the commission shall require that the costs of the fund be recovered from all telecommunication providers on a competitively neutral basis. Providers contributing to the intrastate universal service fund may recover from end-users the costs of the financial support through surcharges assessed on end-users' bills.

(6) Upon request or on its own motion, the commission, after notice and hearing, shall determine if, based upon changes in technology or other factors, the findings made under this section should be reviewed.

(7) This section does not apply if an interstate universal service fund exists on the federal level unless otherwise approved by the commission.

The commission shall create, and shall supply upon request, a form affidavit designed to enable an end-user to provide all information necessary to promote efficient resolution of complaints alleging a violation of section 505 or 507. Hearings conducted under this section shall comply with the following requirements:

(a) Hearings shall be conducted in a manner as to optimize expediency, convenience, and the ability of end-users to bring and prosecute, without the assistance of counsel, complaints alleging violations of section 505 or 507, while preserving the rights of the parties.

(b) If possible, the commission shall hold the hearing at a location near the end-user's residence or place of business.

Examples of a bona fide error include clerical, calculation, computer malfunction, programming, or printing errors. An error in legal judgment with respect to a person's obligations under section 505 is not a bona fide error. The burden of proving that a violation was an unintentional and bona fide error is on the provider.

(4) If the commission finds that a party's complaint or defense filed under this section is frivolous, the commission shall award to the prevailing party costs, including reasonable attorney fees, against the nonprevailing party and their attorney.
