Act 107 of 1941

AN ACT to authorize township water supply and sewage disposal services and facilities; to provide for financing of those services and facilities; to prescribe the powers and duties of township boards with respect to those services and facilities; and to prescribe penalties and provide remedies.

History: 1941, Act 107, Imd. Eff. May 20, 1941;—Am. 1951, Act 201, Imd. Eff. June 14, 1951;—Am. 1989, Act 83, Imd. Eff. June 20, 1989;—Am. 1998, Act 195, Eff. Mar. 23, 1999.

The People of the State of Michigan enact:

41.331 Furnishing water to water supply district; petitions; contracts; terms and conditions.

Sec. 1. Upon filing with the township clerk of petitions, verified both as to signature and ownership, signed by 60% of the record owners of the land to be made into a township water supply district, the township board in the township may contract with another township or a city, village, or authority for the furnishing of water to the water supply district for fire protection and domestic purposes under terms and conditions agreed upon between the township board and the board or other representative body of the township, city, village, or authority.

History: 1941, Act 107, Imd. Eff. May 20, 1941;—CL 1948, 41.331;—Am. 1989, Act 83, Imd. Eff. June 20, 1989.

41.332 Water mains and fittings; purchase, installation, and maintenance.

Sec. 2. For the purpose of distributing the water to be furnished in pursuance of a contract authorized by section 1, the township board may purchase and lay necessary water mains and fittings and maintain and control their use, either along public highways or upon private property for which the right to lay the pipe has been obtained.

History: 1941, Act 107, Imd. Eff. May 20, 1941;—CL 1948, 41.332;—Am. 1989, Act 83, Imd. Eff. June 20, 1989.

41.333 Water supply system; payment from contingent fund; limitations; separately financed and operated water supply system; map.

Sec. 3. Not more than 75% of the net cost, exclusive of money, materials, and labor that are supplied by a federal agency, of purchasing and laying the mains and fittings of a water supply system shall be paid out of the contingent fund of the township. On resolving to make and install the improvement, the township board shall determine by resolution the net cost and the share of the net cost not exceeding 75% that the contingent fund of the township shall bear. However, no part of the cost of a water supply system acquired or created under sections 1 to 20a shall be levied or collected as a tax or assessment, whether general or special, upon property located in a village or school district or located in a water supply district in the township, including an area of the township served by a water system owned or operated by a city, if the village, school district, or water supply district has a water supply system that was originally acquired and is operated by or for the village, school district, or water supply district without any expense to the township at large. A water supply system, so separately financed and operated, shall not be taken, as to ownership or control, except by due process of law as provided by the general laws of this state. After determining the amount of money to be appropriated at any time from the township's contingent fund for purposes authorized in this section, the township board may set apart from that amount when appropriated a proportionate part of that amount for the benefit of the separately operated water supply system in the same ratio to the whole amount appropriated as the population of the separate district bears to the total population of the township, as determined by the board. This proportionate part shall be applied for the betterment of the separate water supply system as and when authorized by the board. The township board shall prepare and keep on file a map defining the boundaries of a water supply district served by the separately financed and operated water supply system separate from a township water system.

This section applies to all money received by the township treasurer after May 19, 1941, in cases in which water mains, prior to May 20, 1941, were extended or installed in accordance with a plan substantially similar to that contemplated by section 5.

lien upon the revenues of the existing water supply system. Without complying with section 1, the township may borrow money from the corporation for these purposes; execute revenue bonds and mortgages securing the loan; pledge the net revenues of the proposed water supply and sewage disposal system to the repayment of the loan; acquire, construct, or improve the works; and refund the bonds or notes. A bond issued under the provisions of this section is a valid and subsisting obligation of the township.

The authorizing ordinance shall pledge the net revenues to the payment of the principal of and interest upon the bonds issued under section 13 to and in favor of the holders of the bonds and the interest coupons pertaining to the bonds and each of the holders. The lien shall be a first lien upon the net revenues. The net revenues shall constitute trust funds for the purposes expressed in this section.

Sec. 17. The net revenues pledged pursuant to section 13 remain subject to the statutory lien required by section 16 until payment in full of the principal of and interest upon the revenue bonds issued under section 13. The holder or holders of the bonds representing in the aggregate not less than 20 per cent of the entire issue then outstanding may, either at law or in equity, protect and enforce the statutory lien and enforce and compel the performance of duties of the officials of the borrower, including the fixing of sufficient rates, the collection of revenues, the proper segregation of revenues, and the proper application of revenues. However, the statutory lien does not give a holder or owner of a bond or coupon authority to compel the sale of the water supply and sewage disposal system, the revenues of which are pledged pursuant to section 13.

41.349 Payment of principal and interest on bonds solely from net revenues; bond or coupon not general obligation or indebtedness; registration.

Sec. 19. The principal of and interest upon the bonds issued under section 13 are payable solely from net revenues derived from the operation of the water supply and sewage disposal system purchased, acquired, constructed, improved, enlarged, extended, or repaired from the proceeds of the bonds that are pledged in the authorizing ordinance, which may include, if the ordinance so provides, net revenues derived by reason of future improvements, enlargements, extensions, or repairs to the water supply and sewage disposal system. A bond or coupon issued pursuant to section 13 is not a general obligation of the borrower and does not constitute an indebtedness of the borrower within the meaning of a state constitutional provision or statutory limitation. Such a bond may be registered as to principal under the terms and conditions determined by the township board.
