Except as provided in subsection (5), for the purposes of this subsection, the present value of the member's accumulated benefit obligation is based upon the member's estimated credited service and estimated final salary as of 12 midnight on May 31, 1998. The actuarial present value shall be computed as of 12 midnight May 31, 1998 and shall be based on the following:

(A) Age 55.

(B) The member's age, if the member is at least 50 years old and the sum of his or her age and estimated credited service equals or exceeds 70.

(2) For each member who elects to terminate membership in the retirement system under section 61(1), the retirement system shall recompute the amount transferred under subsection (1) not later than November 30, 1998 based upon the member's actual credited service and actual final salary as of 12 midnight May 31, 1998. If the recomputed amount differs from the amount transferred under subsection (1) by \$10.00 or more, not later than December 15, 1998, the retirement system shall do all of the following:

(a) Direct the state treasurer to transfer from the members' retirement fund to the qualified participant's account in Tier 2 the excess, if any, of the recomputed amount over the previously transferred amount together with interest from 12 midnight May 31, 1998 to the date of the transfer under this subsection, based upon 8% effective annual interest, compounded annually.

(b) Direct the state treasurer to transfer from the qualified participant's account in Tier 2 to the members' retirement fund the excess, if any, of the previously transferred amount over the recomputed amount, together with interest, from the date of the transfer made under subsection (1), based upon 8% effective annual interest, compounded annually.

(3) For a deferred vested member who elects to terminate membership in this retirement system under section 61(2), the retirement system shall direct the state treasurer to transfer a lump sum amount from the appropriate fund created under this act to the qualified participant's account in Tier 2 on or before the expiration of 60 days after the date of the individual's termination of employment. The retirement system shall calculate the amount to be transferred, which shall be equal to the sum of the following:

The actuarial present value shall be computed as of 12 midnight on that date and shall be based on the following:

(i) Eight percent effective annual interest, compounded annually.

(ii) A 50% male and 50% female gender neutral blend of the mortality tables used to project retirant longevity in

the most recent annual actuarial valuation report.

(iii) A benefit commencement age, based upon the member's estimated credited service as of 12 midnight on the last day of the payroll period that includes the date of the election. If the recomputed amount differs from the amount transferred under subsection (3) by \$10.00 or more, the retirement system shall do all of the following:

(a) Direct the state treasurer to transfer from the members' retirement fund to the qualified participant's account in Tier 2 the excess, if any, of the recomputed amount over the previously transferred amount together with interest from 12 midnight on the last day of the payroll period that includes the date of the election to the date of the transfer under this subsection, based upon 8% effective annual interest, compounded annually.

(b) Direct the state treasurer to transfer from the qualified participant's account in Tier 2 to the members' retirement fund the excess, if any, of the previously transferred amount over the recomputed amount, together with interest, from the date of the transfer made under subsection (3), based upon 8% effective annual interest, compounded annually.

(5) For the purposes of subsections (1) to (4), the calculation of estimated and actual present value of the member's or deferred vested member's accumulated benefit obligation shall be based upon methods adopted by the retirement system's actuary in consultation with the retirement board. The retirement system shall utilize the same actuarial valuation report used to calculate the amount transferred under subsection (1) or (3) when making the recomputation required under subsection (2) or (4). Estimated and actual final salary shall be determined as provided in section 9 as of 12 midnight on the date the member or deferred member ceases to be a member of Tier 1 under section 61.
