388.1923.amended Definitions.

Sec. 3. As used in this act:

(a) "Computed millage" means the number of mills in any year, not less than 7 mills and not more than 13 mills, determined on the date of issuance of the order qualifying the bonds or on a later date if requested by the school district and approved by the state treasurer, that, if levied by the school district, will generate sufficient annual proceeds to pay principal and interest on all the school district's qualified bonds plus principal and interest on all qualified loans related to those qualified bonds no later than the final mandatory repayment date. Based on changes of circumstances, including, but not limited to, additional bond qualification, refundings, changes in qualified loan interest rates, changes in taxable values, and assumptions contained in any then currently effective guidelines issued by the state treasurer pursuant to section 5(2)(c), the school district shall not less than annually, beginning on October 1, 2013, using methods prescribed in this act, recalculate the computed millage necessary to generate sufficient annual levy proceeds to pay principal and interest on all of the school district's qualified bonds and principal and interest on all qualified loans related to those qualified bonds not later than the final mandatory repayment date. If the school district determines that the recalculated computed millage is lower than its current millage levy rate, the school district shall promptly notify the state treasurer in writing of the recalculated computed millage. Immediately thereafter, the school district shall decrease its millage levy rate to the recalculated computed millage, but not below the computed millage established pursuant to the most recent order qualifying bonds for that school district, or to the minimum levy prescribed by law for receipt of qualified loans, whichever rate is higher. If the school district determines that the recalculated computed millage is higher than its current millage levy rate, the school district shall promptly notify the state treasurer in writing of the recalculated computed millage. Immediately thereafter, the school district shall increase its millage levy rate to the recalculated computed millage, subject to 1 of the following exceptions, and subject to any maximum millage levy rate otherwise prescribed for by law:

(i) For each school district's first recalculated computed millage required as of October 1, 2013, increase its millage levy by a percentage amount equal to the equivalent percentage of taxable value change for that school district over the immediately preceding 5 years, but not higher than the recalculated computed millage.

(ii) For each school district's subsequent recalculated computed millage beginning October 1, 2014 and each year thereafter, increase its millage levy by a percentage amount equal to the percentage of taxable value decline for the immediately preceding year ending September 30, but not to a rate higher than the recalculated computed millage.

(iii) If it is determined that a district's current computed millage is sufficient to pay all qualified loans by the mandatory final loan repayment date, no recalculation of the computed millage is required.

(b) "Final mandatory repayment date" means the final mandatory repayment date determined by the state treasurer under section 9.

A qualified bond may include a bond issued to refund loans owed to the state under this act.
