207.9 Assessment roll; contents; time; inspection of physical properties of public utilities; determination of true cash and taxable value; ocean routes; mileage adjustment.

Sec. 9. (1) Not later than May 15 in each year, the state board of assessors shall prepare an assessment roll upon which they shall set forth the true cash value and taxable value on the immediately preceding December 31 of all the property of the companies subject to taxation under this act. A determination of true cash value and taxable value is not final until reviewed as provided in this act. For the purpose of arriving at the true cash value and taxable value of the property on the assessment roll, the state board of assessors may personally inspect the property assessed, may consider the reports filed under this act or reports and returns filed in the office of any officer of this state or in the office of any other governmental agency, and any other evidence or information obtained or possessed by the state board of assessors.

(2) In determining the true cash value and taxable value of the property of a railroad, union station, and depot company that owns, leases, operates, or uses lines partly within or partly outside of this state, the state board of assessors shall consider the proportion of the number of miles of all track controlled or used by that company within this state to the entire mileage of all track controlled or used by that company both within and outside of this state. The state board of assessors shall also consider any other uniform factors that reflect a fair allocation of value to this state.

(3) For tax years that begin before January 1, 2006, in determining the true cash value and taxable value of the property of a telegraph company or telephone company that owns, leases, operates, or uses lines partly within and partly outside of this state, the state board of assessors shall only consider the proportion of the number of miles of telegraph or telephone lines controlled or used by that company within this state to the entire mileage of telegraph or telephone lines controlled or used by that company both within and outside of this state. The state board of assessors shall also consider any other uniform factors that reflect a fair allocation of value to this state.

(4) In determining the true cash value and taxable value of the property of an express company, the state board of assessors shall determine the actual value of the entire amount of the capital stock and bonded indebtedness of that express company. From that amount, the state board of assessors shall determine and deduct the actual value of all real property owned by that express company, and the actual value of all personal property owned by that express company that is not used in the express business of that express company. The state board of assessors shall then divide the remaining amount by the total number of miles, as determined by the state board of assessors, of railroad, stage, water, and other routes over which the company did business to obtain the value per mile. The state board of assessors shall then multiply the value per mile by the total number of miles of the routes within this state, as determined by the state board of assessors. The state board of assessors shall then add to the product of that calculation the value of all real estate owned by that express company in this state, as determined by the state board of assessors. The sum of this calculation is the actual value of the property of that express company subject to assessment and taxation in this state.

(5) If the state board of assessors determines that the ocean routes of a company are so different in character from its other routes that the mileage basis of apportionment of the value of the entire property to be apportioned in this state would be unfair if the full mileage of the ocean routes were included, the state board of assessors may make an allowance for that company's ocean routes to bring those ocean routes to parity

with that company's other routes. In making this determination, the state board of assessors shall consider the relative mileage values and earning capacities of the ocean routes and the other routes and shall require special reports of the character, mileage, earnings, and value of the ocean routes. The state board of assessors may exclude from its determination of aggregate mileage any ocean routes on which the express company fails to furnish the requisite reports, but no further penalty shall be imposed for the failure to report the mileage of ocean routes.

(6) If a company claims in writing that the mileage basis of apportionment of the value of the entire property to be attributed to this state is unfair, the state board of assessors shall make the apportionment that in its judgment is fair. In making that apportionment, the state board of assessors shall consider the mileage within and outside of this state, making any necessary allowance for ocean mileage as provided in this section.

(7) In determining the true cash value and taxable value of the property in this state of car loaning, stock car, refrigerator, fast freight lines, and other car companies, and other companies owning, leasing, running, or operating cars subject to taxation under this act, the state board of assessors shall consider the proportion of the aggregate car mileage made or run by the entire number of cars owned or operated by a company to the car mileage made or run by the entire number of cars owned or operated by that company within this state.

Compiler's note: Section 2 of Act No. 257 of 1995 provides:

"This amendatory act shall take effect December 30, 1995. This amendatory act is intended to clarify that the taxable basis of property subject to tax under this act, including intangible property, is also subject to the limitations on taxable value provided in section 3, article IX, of the Michigan Constitution of 1963. This act is not intended to exempt any particular type of property."

207.10 Assessment roll; description; form; cash and taxable valuations; placement on roll.

Sec. 10. On the assessment roll, after the name of each of the companies assessed, the state board of assessors shall place a general description of the property of each company, which includes all of the property of each company liable to taxation under this act. In the case of railroad, union station, and depot companies, the general description may be "Real estate, rolling stock, right-of-way and appurtenances, and all other property used in carrying on the corporate business and subject to taxation by a state board of assessors.". In the case of telegraph and telephone companies, the general description may be "Real estate, exchanges, switchboards, conduits, telegraph and telephone poles, and lines, and other appurtenances, and all other property used in carrying on the business of said company, and subject to taxation by a state board of assessors.". In the case of car loaning, stock car, refrigerator and fast freight line, and other car companies, and other companies, owning, leasing, running, or operating any cars subject to taxation under this act, the general description may be "Cars subject to taxation by a state board of assessors.". In the case of express companies and sleeping car companies, the general description may be "Property subject to taxation by a state board of assessors.". In a column opposite the name of each company assessed shall be extended the true cash value and taxable value of the property assessed.

This act is not intended to exempt any particular type of property."

207.11 State board of assessors; annual meeting; time; place; proceedings; cash or taxable value correction; certification; contents.

Sec. 11. On the third Monday in May in each year, the state board of assessors shall meet at its office in the city of Lansing and continue in session from day to day for as long as necessary, but not later than June 15, to review the assessment roll. Any interested company or person may appear during that period and be heard as to the true cash value or taxable value of the property of any company assessed. The state board of assessors may, on application or on its own motion, correct the true cash value or taxable value of the property assessed. To determine the true cash value or taxable value of the property assessed, the state board of assessors may subpoena witnesses as provided in section 3 and may hold any hearing it considers necessary. If the property of a company subject to taxation under this act has been omitted from the assessment roll, the state board of assessors shall place that property on the assessment roll and assess the property as required in sections 9 and 10. An assessment under this section shall not be made if there are less than 5 days before the completion of the review. After the state board of assessors completes the review of the assessment roll, it

shall place opposite each description of property in the assessment roll, in a column provided for that purpose, the true cash value and taxable value of that property as determined by it. The taxable value determined by the state board of assessors is the final valuation on which the tax on that property shall be levied and spread. After the state board of assessors completes its review of the assessment roll, a majority of the state board of assessors shall certify that the assessment roll has been acted upon and reviewed in accordance with this act, shall state all of the alterations, changes, corrections, and additions made to the true cash value or taxable value of the property on the assessment roll, shall state all the alterations, changes, and corrections made in the true cash value or taxable value of the property of the state other than that included in this act on which ad valorem taxes are assessed for state, county, township, school, and municipal purposes for the current year, and shall also state all of the alterations, changes, and corrections made in computing the average rate as provided in this act.

207.13 Determining average rate of taxation; entering determination and method on records; determination and payment of supplemental tax; credit against tax allowed railroad company; amount of credit; application for credit; proof of expenditures; annual report; qualification for credit; additional annual report; granting of trackage rights.

Sec. 13. (1) The state board of assessors, from the information contained in the reports provided for in section 12, shall determine for the year in which the reports are required to be made the average rate of taxation levied on other commercial, industrial, and utility property on which ad valorem taxes are assessed for state, county, township, school, and municipal purposes, and enter the determination in its records, together with the method by which the average rate of taxation was determined. In determining the average rate of taxation for taxes levied under this act before January 1, 1996, the state board of assessors shall divide

the state equalized value as set by the state board of equalization for the previous year into the total ad valorem taxes as reported by each director of a county tax or equalization department as provided in section 12. In determining the average rate of taxation for taxes levied under this act after December 31, 1995, the state board of assessors shall divide the state taxable value for the previous year into the total ad valorem taxes as reported by each director of a county tax or equalization department as provided in section 12. In determining the average rate of taxation for 1994, ad valorem taxes levied for the year in which the reports are required by a local school district for school operating purposes as defined in section 1211 of the revised school code, 1976 PA 451, MCL 380.1211, shall be excluded from the calculation required by this section and the state board of assessors shall add to the tax rate calculated under this section after the exclusion required by this sentence, the number of mills levied under the state education tax act, 1993 PA 331, MCL 211.901 to 211.906, plus the statewide average number of mills levied in 1994 by local school districts for school operating purposes under the revised school code, 1976 PA 451, MCL 380.1 to 380.1852. If the state board of assessors is unable to determine the average rate of taxation for 1994 before June 1, 1994, the state board of assessors shall determine a preliminary average rate of taxation that shall be used to complete the 1994 tax roll under section 14. However, before June 1, 1995, the state board of assessors shall determine and certify the average rate of taxation for 1994 and prepare a supplemental 1994 tax roll using the 1994 assessed valuations for the purpose of levying a supplemental tax or making a refund. The supplemental tax is due and payable and the refund, if any, is due July 1, 1995 without interest. If the supplemental tax is paid after August 1, 1995, the tax is payable with interest due at the rate of 1% per month or portion of a month calculated from January 15, 1995 to the date of payment.

(2) A railroad company is allowed a credit against the tax imposed by this act for the tax year in an amount equal to 25% of the amount expended for the maintenance or improvement of rights of way, including those items, except depreciation, in the official maintenance-of-way and capital track accounts of the railroad company in this state during the calendar year immediately preceding the tax year but not to exceed the total liability for the tax under this act. The manner of applying for the credit and the proof of expenditures required shall be prescribed by the state board of assessors.

(3) A railroad company that claims a credit under this section is required to file an annual report with the state board of assessors that shall include detailed data of right of way work conducted in this state during the past calendar year. The state board of assessors shall transmit a copy of the report to the chairperson of the senate finance committee and the house taxation committee. This report submitted to the state board of assessors shall include the number of notices of violation from railway inspectors by railroad section, and shall include a detailed account of the location and the nature of the work. The location of the work shall be defined by the railroad section or mile posts surrounding the work area plus the county, city, or township in which the work was performed. This report shall include a separation of costs by labor and materials on each project. The report also shall include an itemized account of what work was done. This account shall be itemized by the following categories:

- (a) Miles of track laid.
- (b) Tons of new ballast installed.
- (c) Number of ties installed.
- (d) Miles of tracks surfaced.
- (e) Signals installed.
- (f) Under drainage work done.

(4) The railroad companies, in order to qualify for the full 25% credit under this act, must demonstrate to the state board of assessors that the highest priority of expenditures for the maintenance or improvement of rights of way has been given to rail lines that handle hazardous materials, especially those that are located in urban or residential areas. A railroad company that claims a credit under this section is required to file an annual report with the state board of assessors that shall include detailed data on the tonnages of hazardous materials handled in relation to tonnages of other traffic handled over the rail line for which a tax credit is being applied.

(5) A railroad company utilizing the property tax credit provisions of this act shall grant to another railroad company, upon application by the latter, trackage rights over its line for trains, providing that the train operations do not interfere with the movement of Michigan freight using the same trackage, if operations can be accomplished safely in the opinion of the grantor and if trackage arrangements and train operations are approved by the interstate commerce commission. The grantee shall pay the grantor reasonable charges agreed to between the 2 parties if the charges and terms of the agreement between the 2 parties are not in violation of the antitrust provisions of federal laws.

(3) An eligible company may apply for the credit under subsection (1) by submitting to the state board of assessors an application in the form prescribed by the state board of assessors.

(4) If the board determines that for any eligible company the sum of the credits provided in this section and in section 13(2) equals the eligible company's liability for the tax levied under this act before application of the credits, the board may waive the application requirement in subsection (3) and the reports and statements required under sections 6, 7, 8, and 13. A waiver under this subsection does not affect the board's powers under section 3.

(5) As used in this section:

(a) "Eligible company" means railroad companies, union station and depot companies, sleeping car companies, express companies, car loaning companies, stock car companies, refrigerator car companies, fast freight line companies, and all other companies owning, leasing, running, or operating any freight, stock, refrigerator, or any other cars not the exclusive property of a railroad company paying taxes upon its rolling stock under this act, over or upon the line or lines of any railroad in this state.

Sec. 13b. (1) Subject to subsections (2), (3), and (4), a company shall be allowed a credit against the tax imposed under this act for the tax year equal to 6% of eligible expenditures incurred in the calendar year immediately preceding the tax year for which the credit under this subsection is claimed.

(2) The amount of the credit under subsection (1) shall be limited as follows:

(a) For the 2003 tax year, the credit shall not exceed 3% of the company's liability for the tax levied under this act in the 2003 tax year.

(b) For the 2004 tax year, the credit shall not exceed the greater of 6% of the company's liability for the tax levied under this act in the 2004 tax year or 100% of the credit the company received under this subsection in the 2003 tax year.

(c) For the 2005 tax year, the credit shall not exceed the greater of 9% of the company's liability for the tax levied under this act in the 2005 tax year or 100% of the credit the company received under this subsection in the 2004 tax year.

(b) The company is subject to the annual maintenance fees required under section 8 of the metropolitan extension telecommunications rights-of-way oversight act, and has failed to pay the annual maintenance fees that are due and payable as of May 1 in that year.

(5) After any credit under subsection (1) is determined, a company shall be allowed a credit against any remaining tax imposed under this act equal to the credit allowed under section 8 of the metropolitan extension telecommunications rights-of-way oversight act, less the amount of any credit determined under subsection (1). If the credit allowed under this subsection for the tax year and any unused carryforward of the credit allowed by this subsection exceed the company's remaining tax liability for the tax year after any credit under subsection (1) is determined, that portion of the credit that exceeds the remaining tax liability for the tax year shall not be refunded but may be carried forward to offset any tax liability in subsequent tax years that remains after any credit claimed under subsection (1) in that subsequent tax year is determined until used up. A credit may not be claimed under this subsection in a tax year in which 1 or more of the conditions set forth in subsection (4) apply.

History: Add. 2002, Act 50, Imd. Eff. Mar. 14, 2002.

207.14 Tax assessment; tax roll; certificate; time payable; interest; lien; warrant; collection; enforcement.

Sec. 14. (1) The state board of assessors shall tax the property of the companies subject to taxation under this act based upon the taxable value of the property determined by the state board of assessors and at the rate determined by the state board of assessors. The amount of tax to be paid by each company assessed shall be extended on the assessment roll, opposite the description of that company's property. After the tax roll is completed, and before June 20 in each year, the state board of assessors shall attach to the tax roll a certificate signed by the members of the state board of assessors, or a majority of the members of the state board of assessors, that states "We do hereby certify that we have set down in the above assessment roll all of the property of railroad companies, express companies, union station and depot companies, telegraph and telephone companies, car loaning, stock car, refrigerator, fast freight line, and other car companies, and other companies owning, leasing, running, or operating cars, and sleeping car companies liable to be taxed in this state, according to our best information, and that we have determined the true cash value and taxable value of that property, and that we have assessed the taxes on that property at the average rate of taxes for state, county, township, school, municipal, and other purposes levied through this state during the preceding year as determined by us."

(2) The tax roll shall be delivered to the commissioner of revenue, who shall immediately notify by registered mail each company taxed to pay the taxes extended on the tax roll to the state treasurer. The taxes assessed are payable on July 1 following the assessment and levy of those taxes, and are in lieu of all ad valorem taxes for state and local purposes, not including special assessments on property particularly benefited made in any county, city, village, or township. All taxes not paid before August 1 in the year in which those taxes are payable shall bear interest from August 1 at the rate of 1% per month or fraction of a month. However, if 1/2 of the amount of the taxes due are paid before August 1, the remaining taxes due may be paid before the immediately succeeding December 1 without interest, otherwise the taxes unpaid on August 1 shall bear interest as provided in this section. The taxes levied are a debt of the company assessed to the state and are a lien on all of the property of that company, real, personal, and mixed. A lien under this section takes precedence over all demands, judgments, assignments by warranty deed or otherwise, or decrees against the company assessed. A lien and debt under this section may be enforced by the seizure or sale of the property assessed or any portion of the property assessed necessary to satisfy the lien and debt. The state board of assessors shall, upon the completion of the tax roll and the correction of the tax roll as provided in

this act, annex to the tax roll a warrant, signed by the board or a majority of the state board of assessors, commanding the commissioner of revenue to collect the taxes due under this act. The warrant shall authorize and command the commissioner of revenue, in case any corporation, company, or person named in the tax roll does not pay the tax due under this act, to levy the tax due by distress and sale of the property of that corporation, company, or person or any portion of that property necessary to raise sufficient money to satisfy the tax due and the expense of the sale, after giving the corporation, company, or person notice of the sale as provided by law for the sale of property seized for taxes and offered for sale. However, the commissioner may bring an action in the name of the people of this state in any court of competent jurisdiction in this state, or in any other state, to enforce the lien and after obtaining a judgment or decree, the judgment or decree may be collected by execution, levy, and sale.
